TRAINING AND EMPLOYMENT SERVICES

(INCLUDING CANCELLATIONS)

For necessary expenses of the Workforce Investment Act of 1998 (Public Law 105-220) (the "Act"), including the purchase and hire of passenger motor vehicles, the construction, alteration, and repair of buildings and other facilities, and the purchase of real property for training centers as authorized by the Act, \$4,494,411,000, plus reimbursements, is available. Of the amounts provided:

(1) for grants to States for adult employment and training activities, youth activities, and dislocated worker employment and training activities, \$2,455,439,000 as follows:

(A) \$712,000,000 for adult employment and training activities, which shall be available for the period October 1, 2008 through June 30, 2009;

(B) \$840,500,000 for youth activities, which shall be available for the period April 1, 2008 through June 30, 2009; and

(C) \$902,939,000 for dislocated worker employment and training activities, of which \$54,939,000 shall be available for the period July 1, 2008 through June 30, 2009, and of which \$848,000,000 shall be available for the period October 1, 2008 through June 30, 2009:

Provided, That notwithstanding the transfer limitation under section 133(b)(4) of such Act, up to 40 percent of such funds may be transferred by a local board if approved by the Governor:

Provided further, That notwithstanding sections 127(c) and 132(c) of the Act, for program year 2007 the Secretary shall reallocate from States for the youth, adult and dislocated worker formula fund programs under title I of the Act, the amounts by which the unexpended balance in a State for such program at the end of program year 2006 exceeds 30 percent of the total amount available for such program in such State for program year 2006 (including funds appropriated herein and funds appropriated for previous years that were available during program year 2006), to those States that did not have such unexpended balances for such program at the end of such year, and such reallocations shall be made using the formula applicable to such program for program year 2007 except that such formula shall only be applied to those States receiving reallocations for such program under this proviso:

Provided further, That notwithstanding sections 128(c) and 133(c) of the Act, for program year 2007 the Governor may reallocate from local workforce investment areas, for the youth, adult, and dislocated worker formula fund programs under title I of the Act, the amounts by which the unexpended balance in a local workforce investment area for any such program at the end of program year 2006 exceeds 30 percent of the total amount available for such program in such workforce investment area for such year (including the local funds appropriated for previous program years that were available during program year 2006), to those local workforce investment areas that did not have such unexpended balances for such program at the end of such year, and such reallocations shall be made using the formula applicable to such program for program year 2007 except that such formula shall only be applied to those local workforce investment areas receiving reallocations for such program under this proviso;

(2) \$150,000,000 to carry out the Community-Based Job Training Grants;

(3) for federally administered programs, \$1,829,372,000 as follows:

(A) \$212,000,000 for the dislocated workers assistance national reserve, which shall be available for the period October 1, 2008 through June 30, 2009;

(B) \$45,000,000 for Native American programs, which shall be available for the period July 1, 2008 through June 30, 2009;

(C) \$1,422,372,000 for Job Corps operations, of which \$831,372,000 shall be available for the period July 1, 2008

through June 30, 2009, and of which \$591,000,000 shall be available for the period October 1, 2008 through June 30, 2009;

(D) \$100,000,000 for construction, rehabilitation, and acquisition of Job Corps centers, which shall be available for the period October 1, 2008 through June 30, 2011; and

(E) \$50,000,000 for YouthBuild activities as described in section 173A of the Act;

(4) for national activities, \$59,600,000 as follows:

(A) \$39,600,000 for ex-offender activities, under the authority of section 171 of the Act, notwithstanding the requirements of sections 171(b)(2)(B) or 171(c)(4)(D), which shall be available for the period July 1, 2008 through July 30, 2009;

(B) \$13,000,000 for Pilots, Demonstrations, and Research, which shall be available for the period July 1, 2008 through June 30, 2009;

(C) \$7,000,000 for Evaluation, which shall be available for the period July 1, 2008 through June 30, 2009:

Provided further, That no funds from any other appropriation shall be used to provide meal services at or for Job Corps centers.

Of the unexpended balances remaining from funds provided to States for Youth, Adult and Dislocated Worker formula programs under the Workforce Investment Act and available to States during program year 2006, \$335,000,000 is hereby cancelled: Provided, That the Secretary of Labor may apply any portion of a State's share of this cancellation to funds otherwise available to the State for such programs during program year 2007.

Of the amounts made available under this heading in Public Law 107-116 to carry out the activities of the National Skill Standards Board, \$44,063 is hereby cancelled.

Of the unexpended balances of the amounts provided to the Consortium for Worker Education from the Training and Employment Services account under Public Law 107-117, \$71,202 is hereby cancelled.

Of the unexpended balances provided to New York State from funds made available under Public Law 107-38, which were transferred pursuant to law to the Training and Employment Services account, \$3,589,568 is hereby cancelled.

Of the unexpended balances provided to the State of California and Los Angeles County from funds made available under Public Law 103-211, which were transferred pursuant to law to the Training and Employment Services account, \$834,168 is hereby cancelled.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Enacted in 1998, the Workforce Investment Act (WIA) is the primary authorization for this appropriation account. WIA authorization expired on September 30, 2003. The Act is intended to revitalize the Nation's job training system to provide workers with the information, advice, job search assistance, and training they need to get and keep good jobs, and to provide employers with skilled workers. Funds appropriated for this account generally are available on a July to June program year basis, and substantial advance appropriation amounts are provided.

Adult employment and training activities.—Grants to provide financial assistance to States and territories to design

and operate training and employment assistance programs for adults, including low-income individuals and public assistance recipients.

Dislocated worker employment and training activities.—Grants to provide reemployment services and retraining assistance to individuals dislocated from their employment.

Youth activities.—Grants to support a wide range of activities and services to prepare low-income youth for academic and employment success, including summer jobs. The program links academic and occupational learning with youth development activities.

Job Corps.—A system of primarily residential centers offering basic education, training, work experience, and other support, typically to economically disadvantaged youth.

Reintegration of Ex-Offenders.—Supports activities to help individuals exiting prison make a successful transition to community life and long-term employment. The 2008 Budget merges the Prisoner Re-entry and Responsible Reintegration of Youthful Offenders programs into a single program that would provide mentoring and job training to promote the successful return of adult and juvenile ex-offenders into mainstream society.

Native Americans.—Grants to Indian tribes and other Native American groups to provide training, work experience, and other employment-related services to Native Americans.

National programs.—Provides program support for WIA activities and nationally administered programs for segments of the population that have special disadvantages in the labor market.

Community-Based Job Training Grants.—A competitive grant program for building training capacity and training workers through community and technical colleges.

Job Corps Transfer.—Provides the administration of the Job Corps transfer as shown in the Youth Services activity. By authority of section 102 of the Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations Act, 2006 (Public Law 109-149), the Secretary of Labor issued Secretary's Order 09-2006 which established the Office of Job Corps within the Office of the Secretary (OSEC) and delegated authority and assigned responsibility to the Director of the Office of Job Corps and other agency heads to ensure the effective administration of the Job Corps program. The management of Job Corps funding, appropriated to the Employment and Training Administration (ETA) in 2006, was transferred to OSEC via an allotment process. This funding mechanism continues in 2007 since a regular 2007 appropriation has not been enacted for this account at the time the budget was prepared. The 2008 budget proposes to transfer Job Corps program and administrative funding back to ETA.

Legislation will be proposed in 2007 to reform the Workforce Investment Act (WIA). The legislation would increase State flexibility to administer the programs, require that a greater percentage of resources are directed to training services for workers instead of to administrative overhead, increase individual choice by offering Career Advancement Accounts, and streamline the performance accountability system. The proposal would consolidate the Adult, Dislocated Worker, Youth Activities, Work Opportunity Tax Credit, Labor Market Information, and Employment Service State grants into a single State grant to facilitate coordination and eliminate duplication in the provision of services.

WELFARE-TO-WORK JOBS

This account included balances of funding for activities of the Welfare-to-Work Grants program, which was established by the Balanced Budget Act of 1997 (P.L. 105-33) appropriating funding for 1998 and 1999. Funds were made available for expenditure for up to 5 years after they were provided. Public Law 108-199 rescinded 1999 formula grant funding in this program that was unexpended on the date of enactment of the bill.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

To carry out title V of the Older Americans Act of 1965, as amended, \$350,000,000.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). This program provides part-time work experience in community service activities to unemployed, low-income persons aged 55 and over. On October 17, 2006, the President signed into law the Older Americans Act Amendments of 2006 (P.L. 109-365). This legislation reauthorized and reformed Title V of the Older Americans Act and provided for important program reforms, including increasing the percentage of funds available for skills training and related services, such as counseling, transportation, and temporary shelter.

FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

For payments during the current fiscal year of trade adjustment benefit payments and allowances under part I and section 246; and for training, allowances for job search and relocation, and related State administrative expenses under part II of chapter 2, title II of the Trade Act of 1974 (including the benefits and services described under sections 123(c)(2) and 151(b) and (c) of the Trade Adjustment Assistance Reform Act of 2002, Public Law 107-210), \$888,700,000, together with such amounts as may be necessary to be charged to the subsequent appropriation for payments for any period subsequent to September 15 of the current year.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The Trade Adjustment Assistance Reform Act of 2002 (Division A of Public Law 107-210) was signed into law on August 6, 2002. This Act amended the Trade Act of 1974 to consolidate the previous Trade Adjustment Assistance (TAA) and NAFTA Transitional Adjustment Assistance (NAFTA-TAA) programs into a single, enhanced TAA program with expanded eligibility, services, and benefits, which includes adjustment assistance, including cash weekly benefits, training, job search and relocation allowances. Additionally, the Act provides for a demonstration program of Alternative Trade Adjustment Assistance (wage insurance) for older workers.

Legislation will be proposed at a later date to extend and improve the TAA and Alternative TAA programs. TAA will expire on September 30, 2007, and the Alternative TAA demonstration will expire in 2008.

For authorized administrative expenses, \$78,001,000, together with not to exceed \$3,220,752,000 which may be expended from the Employment Security Administration Account in the Unemployment Trust Fund ("the Trust Fund"), of which:

\$2,510,723,000 from the Trust Fund is for grants to States for the administration of State unemployment compensation laws as authorized under title III of the Social Security Act (including \$10,000,000 to conduct in-person reemployment and eligibility assessments in one-stop career centers of claimants of unemployment compensation), the administration of unemployment compensation for Federal employees and for ex-service members as authorized under sections 8501-8523 of title 5, United States Code, and the administration of trade readjustment allowances and alternative trade adjustment assistance under the Trade Act of 1974, and shall be available for obligation by the States through December 31, 2008, except that funds used for automation acquisitions shall be available for obligation by the States through September 30, 2010, and funds used for unemployment compensation workloads experienced by the States through September 30, 2008 shall be available for Federal obligation through December 31, 2008;

\$10,500,000 from the Trust Fund is for national activities necessary to support the administration of the Federal-State unemployment compensation system;

\$666,763,000 from the Trust Fund, together with \$22,016,000 from the General Fund of the Treasury, is for grants to States in accordance with section 6 of the Wagner-Peyser Act, and shall be available for Federal obligation for the period July 1, 2008 through June 30, 2009;

\$32,766,000 from the Trust Fund is for national activities of the Employment Service, including administration of the work opportunity tax credit under section 51 of the Internal Revenue Code of 1986, the administration of activities, including foreign labor certifications, under the Immigration and Nationality Act, and the provision of technical assistance and staff training under the Wagner-Peyser Act, including not to exceed \$1,228,000 that may be used for amortization payments to States which had independent retirement plans in their State employment service agencies prior to 1980;

\$55,985,000 from the General Fund is to provide workforce information, national electronic tools, and one-stop system building under the Wagner-Peyser Act and shall be available for Federal obligation for the period July 1, 2008 through June 30, 2009:

Provided, That to the extent that the Average Weekly Insured Unemployment (AWIU) for fiscal year 2008 is projected by the Department of Labor to exceed 2,629,000, an additional \$28,600,000 from the Trust Fund shall be available for obligation for every 100,000 increase in the AWIU level (including a pro rata amount for any increment less than 100,000) to carry out title III of the Social Security Act: Provided further, That funds appropriated in this Act that are allotted to a State to carry out activities under title III of the Social Security Act may be used by such State to assist other States in carrying out activities under such title III if the other States include areas that have suffered a major disaster declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act: Provided further, That funds appropriated in this Act which are used to establish a national one-stop career center system, or which are used to support the national activities of the Federal-State unemployment compensation or immigration programs, may be obligated in contracts, grants, or agreements with non-State entities: Provided further, That funds appropriated under this Act for activities authorized under title III of the Social Security Act and the Wagner-Peyser Act may be used by States to fund integrated Unemployment Compensation and Employment Service automation efforts, notwithstanding cost allocation principles prescribed under the Office of Management and Budget Circular A-87.

In addition, \$40,000,000 from the Employment Security Administration Account of the Unemployment Trust Fund shall be available to conduct in-person reemployment and eligibility assessments in one-stop career centers of claimants of unemployment compensation: Provided, That not later than 180 days following the end of the current fiscal year, the Secretary shall submit an interim report to the Congress that includes available information on expenditures, number of individuals assessed, and outcomes from the assessments: Provided further, That not later than 18 months following the end of the fiscal year, the Secretary of Labor shall submit to the Congress a final report containing comprehensive information on the estimated savings

that result from the assessments of claimants and identification of best practices.

Of the unobligated funds provided under this heading in Public Law 107-117 for emergency expenses, \$4,100,000 is hereby cancelled.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Unemployment compensation.—State administration amounts provide administrative grants to State agencies which pay unemployment compensation to eligible workers and collect State unemployment taxes from employers. These agencies also pay unemployment benefits to former Federal personnel and ex-servicemembers as well as trade readjustment allowances to eligible individuals. State administration amounts also provide administrative grants to State agencies to improve the integrity and financial stability of the unemployment compensation program through a comprehensive performance management system, UI Performs. The purpose is to effect continuous improvement in State performance and related activities designed to assess and reduce errors and prevent fraud, waste, and abuse in the payment of unemployment compensation benefits and the collection of unemployment taxes. National activities relating to the Federal-State unemployment insurance programs are conducted through contracts or agreements with the State agencies or with non-state entities. A workload reserve is included in State administration to meet increases in the costs of administration resulting from increases in the number of claims filed and claims paid. The appropriation automatically provides additional funds whenever unemployment claims workload increases above budgeted levels.

The request for additional funding for in-person reemployment and eligibility assessments of claimants of unemployment compensation builds upon the success of a number of States in reducing improper payments and speeding reemployment using these assessments. Because most unemployment claims are now filed by telephone or Internet, in-person assessments conducted in the One-Stop Career Centers can help determine continued eligibility for benefits and adequacy of work search, verify the identity of beneficiaries where there is suspicion of possible identity theft, and provide referral to reemployment assistance to those who need additional help. The \$40 million requested for additional reemployment and eligibility assessments is estimated to provide benefit savings of \$205 million.

It is important that this integrity initiative and other new enforcement investments be fully funded. The Administration is proposing to fund them as contingent appropriations. To ensure full funding of reemployment and eligibility assessments, the Administration proposes to employ a budget enforcement mechanism that allows for an adjustment by the Budget Committees to the section 302(a) allocation to the Appropriations Committees found in the concurrent resolution on the budget. In addition, the Administration will seek to establish statutory spending limits, as defined by section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985, and to adjust them for this purpose. To ensure full funding of the increases, either of these adjustments would only be permissible if the base level for reemployment and eligibility assessments was funded at \$10 million and if the use of the funds was clearly restricted to the specified purpose. The maximum allowable adjustment to the 302(a) allocation and/or the statutory spending limit would be \$40 million for 2008 (see chapter 15 in Analytical Perspectives).

Employment service.—The public employment service is a nationwide system providing no-fee employment services to individuals who are seeking employment and to employers who are seeking workers. State employment service activities are financed by allotments to States distributed under a demographically based funding formula established under the Wagner-Peyser Act, as amended. Employment service allotments are funded on a program year basis running from July 1 through June 30 of the following year.

Employment service activities serving national needs, which includes certification of aliens for employment-based visas, are conducted through specific reimbursable agreements between the States and the Federal Government under the Wagner-Peyser Act, as amended, and other legislation. Funding is provided here to support State administration of the Work Opportunity Tax Credit and the Welfare-to-Work tax credit. Funding is also provided for amortization payments for States which had independent retirement plans prior to 1980 in their State employment service agencies.

One-stop career centers.—These funds are used to support the joint Federal-State efforts to improve the comprehensive One-Stop system created under the Workforce Investment Act (WIA). This system provides workers and employers with quick and easy access to a wide array of enhanced career development and labor market information services.

Work incentive grants.—These funds have provided competitive grants to improve access to and coordination of information, benefits, and services to enable individuals with disabilities to return to work. Work incentive grants have successfully demonstrated approaches to improve the accessibility to One-Stop services for job seekers with disabilities. States and localities are now expected to finance these approaches through their base resources for One-Stop Career Centers.

Legislation will be proposed in 2007 to reform the Workforce Investment Act (WIA). The legislation would increase State flexibility to administer the programs, require that a greater percentage of resources be directed to training services for workers instead of administrative overhead, increase individual choice by offering "Career Advancement Accounts," and streamline the performance accountability system. The proposal would consolidate the Adult, Dislocated Worker, Youth Activities, Work Opportunity Tax Credit, labor market information, and Employment Service State grants into a single State grant to facilitate coordination and eliminate duplication in the provision of services. The new consolidated grant will be shown in the Training and Employment Services account.

ADVANCES TO THE UNEMPLOYMENT TRUST FUND AND OTHER FUNDS

For repayable advances to the Unemployment Trust Fund as authorized by sections 905(d) and 1203 of the Social Security Act, as amended, and to the Black Lung Disability Trust Fund as authorized by section 9501(c)(1) of the Internal Revenue Code of 1954, as amended; and for nonrepayable advances to the Unemployment Trust Fund as authorized by section 8509 of title 5, United States Code, and to

the "Federal unemployment benefits and allowances" account, to remain available until September 30, 2009, \$437,000,000.

In addition, for making repayable advances to the Black Lung Disability Trust Fund in the current fiscal year after September 15, 2008, for costs incurred by the Black Lung Disability Trust Fund in the current fiscal year, such sums as may be necessary.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). This account provides repayable advances to the Black Lung Disability Trust Fund for making payments from that fund whenever its balances prove insufficient. The funding requested in this appropriation for 2008 is entirely for Black Lung. This spending authority is presented as authority to borrow in the Black Lung Disability Trust Fund.

This account may also provide advances to several other accounts to pay unemployment compensation to eligible individuals under various Federal and State unemployment compensation laws whenever the balances in the accounts prove insufficient or whenever legislation allows reimbursements to be made. Advances made to the Federal Employees Compensation Account in the Unemployment Trust Fund and to the Federal Unemployment Benefits and Allowances account are nonrepayable, as are certain reimbursements to the Extended Unemployment Compensation Account (EUCA), as allowed by law. All other advances made to the Federal Unemployment Account and to EUCA (both in the Unemployment Trust Fund) are repaid, with interest, to the general fund of the Treasury.

The revenues of the Black Lung Disability Fund (BLDTF), which are derived primarily from coal excise taxes, are insufficient to repay the \$10 billion debt BLDTF owes to the Treasury or to service the interest on that debt. See discussion under the Black Lung Disability Trust Fund account for a full description of the Administration's proposal to remedy this problem. As part of this proposal, the Administration will propose legislation that will provide for a one-time appropriation shown in the Advances account to permit the BLDTF to compensate the Treasury general fund for lost interest income.

PROGRAM ADMINISTRATION

For expenses of administering employment and training programs, \$121,255,000, together with not to exceed \$94,907,000, which may be expended from the Employment Security Administration Account in the Unemployment Trust Fund.

This account provides for the Federal administration of all Employment and Training Administration programs.

Adult services.—Provides leadership, policy direction and administration for a decentralized system of grants to State and local governments as well as federally administered programs for job training and employment assistance for low income adults and dislocated workers; provides for training and employment services to special targeted groups; provides for the settlement of trade adjustment petitions; and includes related program operations support activities.

Youth services.—Provides leadership, policy direction and administration for a decentralized system of grants to State and local governments as well as federally administered programs for job training and employment assistance for youth, including the Job Corps.

Workforce security.—Provides leadership and policy direction for the administration of the comprehensive nationwide public employment service system; oversees unemployment insurance programs in each State; administers foreign labor certification programs; supports a one-stop career center network, including a comprehensive system of collecting, analyzing and disseminating labor market information; and includes related program operations support activities.

Apprenticeship training, employer and labor services.—Promotes and provides leadership and policy direction for the administration of apprenticeship as a method of skill acquisition through a Federal-State apprenticeship structure. Employer and labor services will facilitate the understanding and responsiveness of workforce investment systems to the training needs of employers and the interest of labor organizations in training programs.

Executive direction.—Provides leadership and policy direction for all training and employment services programs and activities and provides for related program operations support, including research, evaluations, and demonstrations.

Job Corps Transfer.—Provides the administration of the Job Corps as shown in the Youth Services activity. By authority of section 102 of the Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations Act, 2006 (Public Law 109-149), the Secretary of Labor issued Secretary's Order 09-2006 which established the Office of Job Corps within the Office of the Secretary (OSEC) and delegated authority and assigned responsibility to the Director of the Office of Job Corps and other agency heads to ensure the effective administration of the Job Corps program. The management of Job Corps funding, appropriated to the Employment and Training Administration (ETA) in FY 2006,

was transferred to OSEC via an allotment process. This funding mechanism continues in FY 2007 since a regular 2007 appropriation has not been enacted for this account at the time the budget was prepared. The FY 2008 budget proposes to transfer Job Corps program and administrative funding back to ETA.

The Administration will propose legislation to establish a new fee for applications under the permanent foreign labor certification program. Fee proceeds would offset the costs of administering the permanent program, but not backlog reduction in regional offices. Upon enactment of the fee, funding for these activities now included in the Program Administration account will be reviewed and adjusted.

The financial transactions of the Federal-State and railroad unemployment insurance systems are made through the Unemployment Trust Fund. All State and Federal unemployment tax receipts are deposited in the Trust Fund and invested in Government securities until needed for benefit payments or administrative expenses. The portion of the Trust Fund funded with Federal taxes provides repayable advances (loans) to the States when the balances in their individual State accounts are insufficient to pay benefits. The Trust Fund may receive repayable advances from the general fund when it has insufficient balances to make advances to States or to pay the Federal share of extended unemployment benefits.

State payroll taxes pay for all regular State unemployment benefits. During periods of high State unemployment, extended benefits, financed one-half by State unemployment taxes and one-half by the Federal unemployment payroll tax, are also paid out of the Trust Fund. In addition, the Federal

unemployment tax pays the costs of Federal and State administration of the unemployment insurance system, veterans employment services, surveys of wages and employment, and about 97 percent of the costs of the Employment Service.

The Federal Employees Compensation Account (FECA) provides funds to States for unemployment compensation benefits paid to eligible former Federal civilian personnel, Postal Service employees, and ex-servicemembers. In turn, the various Federal agencies reimburse FECA for benefits paid to their former employees. Any additional resources necessary to assure that the FECA account can make the required payments to States will be provided from the Advances to the Unemployment Trust Fund and Other Funds Account.

Both the benefit payments and administrative expenses of the separate unemployment insurance program for railroad employees are paid from the Unemployment Trust Fund, and receipts from the tax on railroad payrolls are deposited into the Trust Fund to meet expenses.

Legislation will be proposed in 2007 to reform the Workforce Investment Act (WIA). The legislation would increase State flexibility to administer the programs, require that a greater percentage of resources be directed to training services for workers instead of administrative overhead, increase individual choice by offering "Career Advancement Accounts," and streamline the performance accountability system. The proposal would consolidate the Adult, Dislocated Worker, Youth Activities, Work Opportunity Tax Credit, labor market information, and Employment Service State grants into a single State grant to facilitate coordination and eliminate duplication in the provision of services. The new consolidated grant will be shown in the Training and Employment Services account.

This wholly owned government corporation administers mandatory insurance programs to prevent loss of pension benefits under covered private, defined-benefit pension plans if single-employer plans terminate or if multiemployer plans are unable to pay benefits.

Single employer benefit payment.—The single-employer program protects about 34.2 million participants in about 28,800 pension plans. Under this program, a company may voluntarily seek to terminate its plan, or PBGC may seek termination under certain circumstances. The PBGC must seek termination when a plan cannot pay current benefits.

In a "standard" termination, plan assets must be sufficient to pay all benefits before the plan is allowed to end. That payment is in the form of an annuity purchased from an insurance company or a lump sum payment. After the payment is made, the PBGC guarantee ends. A plan that cannot pay all benefits may be ended by a "distress" termination, but only if the employer meets tests proving severe financial distress, for example, the likelihood that continuing the plan would force the company to shut down. If the terminated plan cannot pay at least the PBGC-guaranteed benefits, the PBGC uses its funds to ensure guaranteed benefits are paid.

	2006 actual	2007 est.	2008 est.
Government trusteeships at end of year	3,595	3,735	3,875
Participants in government trusteeships owed benefits	1,193,000	1,293,000	1,393,000
Retirees receiving monthly benefits	682,820	731,820	780,820

Multi-employer financial assistance.—The multiemployer insurance program protects about 9.9 million participants in about 1,600 plans. Multiemployer pension plans are maintained under collectively bargained agreements involving unrelated employers, generally in the same industry. If a PBGC-insured multiemployer plan is unable to pay guaranteed benefits when due, the PBGC will provide the plan with financial assistance to continue paying guaranteed benefits, ordinarily in the form of a loan to the plan.

Pension insurance activities.—Includes premium collections, premium investments, pre-trusteeship work, and pension insurance program protection activities.

Pension plan termination.—Includes all activities related to trusteeship; plan asset management, investment and accounting; and benefit administration services.

Operational support.—Includes the administrative, information technology infrastructure, and other shared program support for both PBGC's insurance and plan termination activities.

	2006 actual	2007 est.	2008 est.
Plans terminated during the year:			
With sufficient assets	1248	1000	1000
Without sufficient assets	86	140	140
Average time between trusteeship and issuance of final benefit levels	2.4 yrs	2.5 yrs	2.5 yrs

Financing.—The primary source of financing is annual premiums paid by sponsors of ongoing covered plans, which vary according to the plans' funding level. Other sources of financing include assets from terminated plans, investment income, and amounts due PBGC from the sponsors of terminating plans. Also, PBGC is authorized to borrow up to \$100 million from the U. S. Treasury.

Operating results.—The following tables show the status of PBGC's trust funds and PBGC's operating results.

Legislation will be proposed in 2008 to adjust the insurance premiums that underfunded pension plans pay to PBGC. The Administration will propose to authorize PBGC's Board of Directors to set the variable premium rate, and extend the variable rate premium to a plans non-vested as well as its vested liabilities. These reforms will improve PBGC's financial condition and safeguard the future benefits of American workers.

Enforcement of wage and hour standards.—The Wage and Hour Division works to obtain and encourage compliance with the minimum wage, overtime, child labor, and other employment standards under the Fair Labor Standards Act, the Migrant and Seasonal Agricultural Worker Protection Act (MSPA), the Family and Medical Leave Act, certain provisions of the Immigration and Nationality Act (INA), the wage garnishment provisions in Title III of the Consumer Credit Protection Act, and the Employee Polygraph Protection Act. Prevailing wages are determined and employment standards enforced under various Government contract wage standards. In 2008, approximately 230,000 persons are expected to be aided under the Fair Labor Standards Act through securing agreements with firms to pay back wages owed to their workers. In government contract compliance actions, about 18,000 persons will be aided through securing agreements to pay wages owed to workers. Under MSPA, approximately 1,250 investigations will be completed. Over 1,000 targeted child labor investigations will be conducted, and in the course of

all on-site investigations, investigators will routinely check for employer compliance with child labor standards. In all “directed” (non-complaint) investigations, investigators will also routinely check for compliance with the employment eligibility verification recordkeeping requirements of the INA.

Federal contractor Equal Employment Opportunity (EEO) standards enforcement.—The Office of Federal Contract Compliance Programs (OFCCP) enforces equal employment opportunity and nondiscrimination requirements of Federal contractors and subcontractors. In particular, OFCCP enforces: Executive Order 11246, which prohibits employment discrimination on the basis of race, sex, religion, color, and national origin; Section 503 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (through a memorandum of understanding with the Equal Employment Opportunity Commission), which prohibit employment discrimination against individuals with disabilities; and the Vietnam Era Veterans Readjustment Assistance Act of 1974, as amended, which prohibits employment discrimination against certain protected veterans. OFCCP programs cover close to 200,000 work-sites with a total workforce of 26 million persons.

OFCCP monitors contractors’ compliance through compliance evaluations, with a focus on systemic discrimination cases, and reporting requirements. In 2008, approximately 2,660,000 individuals will be covered through 8,000 compliance evaluations, 280 complaint investigations, and 2,400 other compliance actions.

OFCCP also encourages and supports voluntary compliance by providing compliance assistance to covered contractors. In 2008, 600 compliance assistance events will be provided to federal contractors and other stakeholders. OFCCP also ensures that Federal contractors and subcontractors are provided linkages to recruitment sources for hiring and advancement of minorities, women, protected veterans and individuals with disabilities. OFCCP honors Federal contractors and linkage organizations through the Secretary of Labor Opportunity Awards and the EVE/EPIC program for their outstanding compliance initiatives.

Federal programs for workers’ compensation.—The Office of Workers’ Compensation Programs (OWCP) administers the Federal Employees’ Compensation Act, the Longshore and Harbor Workers’ Compensation Act, the Energy Employees Occupational Illness Compensation Program Act, and the Black Lung Benefits Act. These programs ensure that eligible disabled and injured workers or their survivors receive compensation and medical benefits and a range of services including rehabilitation, supervision of medical care, and technical and advisory counseling to which they are entitled.

Program direction and support.—The Program Direction and Support (PDS) activity provides centralized leadership, policy, coordination and essential administrative support in the areas of human resources, information technology; budget and financial management; strategic planning; performance reporting; legislative and regulatory analysis; employee safety and health; labor relations; equal employment opportunity enforcement, and general support services to all ESA program components.

Labor-management standards.—The Office of Labor-Management Standards (OLMS) receives and discloses reports of unions and others in accordance with the Labor Management Reporting and Disclosure Act (LMRDA), including union financial reports; audits union financial records and investigates possible embezzlements of union funds; conducts union officer election investigations; supervises reruns of union officer elections pursuant to voluntary settlements or after court determinations that elections were not conducted in accordance with the LMRDA; and administers the statutory program to certify employee protection provisions under various federally-sponsored transportation programs. In 2008, OLMS

plans enhanced efforts to advance union transparency and financial integrity protections, primarily through increased union audits and compliance assistance efforts. OLMS expects to process 40,000 reports and conduct a total of 4,882 investigations, audits, and supervised elections. In 2008, the Department will submit proposed legislation authorizing OLMS to use civil monetary penalties to enforce reporting provisions of the Labor-Management Reporting and Disclosure Act.

tion Act, \$52,280,000 shall be made available to the Secretary as follows:

(1) for enhancement and maintenance of automated data processing systems and telecommunications systems, \$21,855,000;

(2) for automated workload processing operations, including document imaging, centralized mail intake and medical bill processing, \$16,109,000;

(3) for periodic roll management and medical review, \$14,316,000; and

(4) the remaining funds shall be paid into the Treasury as miscellaneous receipts:

Provided further, That the Secretary may require that any person filing a notice of injury or a claim for benefits under chapter 81 of title 5, United States Code, or 33 U.S.C. 901 et seq., provide as part of such notice and claim, such identifying information (including Social Security account number) as such regulations may prescribe.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Federal Employees' Compensation Act benefits.—The Federal Employees' Compensation Act program provides monetary and medical benefits to Federal workers who sustain work-related injury or disease. Not all benefits are paid by the program, since the first 45 days of disability are usually covered by keeping injured workers in pay status with their employing agencies (the continuation-of-pay period). In 2008, 140,000 injured Federal workers or their survivors will file claims; 55,000 will receive long-term wage replacement benefits for job-related injuries, diseases, or deaths. Most of the costs of this account are charged back to the beneficiaries' employing agencies.

Longshore and harbor workers' compensation benefits.—Under the Longshore and Harbor Workers' Compensation Act, as amended, the Federal Government pays from direct appropriations one-half of the increased benefits provided by the amendments for persons on the rolls prior to 1972. The remainder is provided from the special fund which is financed by private employers assessed at the beginning of each calendar year for their proportionate share of these payments.

The Administration will repropose legislation to improve the Federal Employees' Compensation Act (FECA), which has not been substantially updated since 1974. The legislative proposal would amend FECA to convert prospectively retirement-age beneficiaries to a retirement-level benefit; impose an up-front waiting period for benefits; streamline claims processing; permit DOL to recapture additional compensation costs from responsible third parties; authorize DOL to cross-match FECA records with Social Security records to reduce improper payments; and make other changes to improve and update FECA. These changes would generate Government-wide savings of \$608 million.

Energy Employees' Compensation Act benefits.—The Department of Labor is delegated responsibility to adjudicate and administer claims for benefits under the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA). In July 2001, the program began accepting claims from employees or survivors of employees of the Department of Energy (DOE) and of private companies under contract with DOE who suffer from a radiation-related cancer, beryllium-related disease, or chronic silicosis as a result of their work in producing or testing nuclear weapons. The Act authorizes a lump-sum payment of \$150,000 and reimbursement of medical expenses.

The Ronald Reagan National Defense Authorization Act of 2005 (P.L. 108-767) amended EEOICPA, giving DOL responsibility for a new program (Part E) to pay workers' compensation benefits to Department of Energy contractors and their families for illness and death arising from toxic exposures in DOE's nuclear weapons complex. This law also provides compensation for uranium workers covered under section 5 of the Radiation Exposure Compensation Act. Benefit payments under Part E began in 2005.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION FUND
(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to administer the Energy Employees Occupational Illness Compensation Act, \$104,745,000, to remain available until expended: Provided, That the Secretary of Labor is authorized to transfer to any executive agency with authority under the Energy Employees Occupational Illness Compensation Act, including within the Department of Labor, such sums as may be necessary in fiscal year 2008 to carry out those authorities: Provided further, That the Secretary may require that any person filing a claim for benefits under the Act provide as part of such claim, such identifying information (including Social Security account number) as may be prescribed.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA) administration.—Under Executive Order 13179 the Secretary of Labor is assigned primary responsibility for administering the EEOICPA program, while other responsibilities have been delegated to the Departments of Health and Human Services (HHS), Energy (DOE), and Justice (DOJ). The Office of Workers' Compensation Programs (OWCP) in the Department of Labor (DOL) is responsible for claims adjudication, and award and payment of compensation and medical benefits. DOL's Office of the Solicitor provides legal support and represents the Department in claimant appeals of OWCP decisions. HHS is responsible for developing individual dose reconstructions to estimate occupational radiation exposure, and developing regulations to guide DOL's determination of whether an individual's cancer was caused by radiation exposure at a DOE or atomic weapons facility. DOE is responsible for providing exposure histories at employment facilities covered under the Act, as well as other employment information. DOJ assists claimants who have been awarded compensation under the Radiation Exposure Compensation Act to file for additional compensation, including medical benefits, under EEOICPA.

The Ronald Reagan National Defense Authorization Act of 2005 (P.L. 108-767) amended EEOICPA, giving DOL responsibility for a new program (Part E) to pay workers' compensation benefits to Department of Energy contractors and their families for illness and death arising from toxic exposures in DOE's nuclear weapons complex. This law also provides compensation for uranium workers covered by the Radiation Exposure Compensation Act. Administrative expenses for Part E are covered through indefinite, mandatory appropriations provided in P.L. 108-767.

Title IV of the Federal Mine Safety and Health Act authorizes monthly benefits to coal miners disabled from coal workers' pneumoconiosis (black lung) and to their widows and certain other dependents. Part B of the Act assigned the processing and paying of claims filed between December 30, 1969 (when the program originated) and June 30, 1973 to the Social Security Administration (SSA). P.L. 107-275 transferred Part B claims processing and payment operations from SSA to the Department of Labor's (DOL) Employment Standards Administration (ESA), Office of Workers' Compensation Programs. This change was implemented on October 1, 2003.

This fund was established to provide for the accumulation of funds to meet the Panama Canal Commission's obligations to defray costs of workers' compensation which will accrue pursuant to the Federal Employees' Compensation Act (FECA). On December 31, 1999, the Commission was dissolved as set forth in the Panama Canal Treaty of 1977, and the liability of the Commission for payments beyond that date did not end with its termination. The establishment of this fund, into which funds were deposited on a regular basis by the Commission, was in conjunction with the transfer of the administration of the FECA program from the Commission to the Department of Labor effective January 1, 1989.

The trust fund consists of all moneys collected from the coal mine industry under the provisions of the Black Lung Benefits Revenue Act of 1981, as amended by the Consolidated Omnibus Budget Reconciliation Act of 1985, in the form of an excise tax on mined coal. These moneys are expended to pay compensation, medical, and survivor benefits to eligible miners and their survivors, where mine employment terminated prior to 1970 or where no mine operator can be assigned liability. In addition, the fund pays all administrative costs incurred in the operation of part C of the Black Lung program. The fund is administered jointly by the Secretaries of Labor, the Treasury, and Health and Human Services. The Benefits Revenue Act provides for repayable advances to the fund in the event fund resources will not be adequate to meet program obligations. Such advances are to be repaid with interest. The outstanding debt has increased from \$1,510 million in 1981 to \$9,555 million in 2006. It is estimated to be \$9,998 million in 2007 and \$10,435 million in 2008 if the refinancing proposal is not enacted.

The Black Lung Disability Fund's revenues, which are derived primarily from coal excise taxes, are insufficient to repay the \$10 billion debt it owes to Treasury. Under current conditions, the Trust Fund's debt could never be repaid. The 2008 Budget repropose legislation to restructure the Trust Fund debt and restore the Fund's solvency. Proposed reforms would (1) refinance the outstanding debt; (2) extend the current excise tax levels until solvency is attained; and (3) provide for a one-time appropriation to compensate the General Fund for forgone interest payments.

The trust funds consist of amounts received from employers for the death of an employee where no person is entitled to compensation for such death, for fines and penalty payments, and pursuant to an annual assessment of the industry, for the general expenses of the fund under the Longshore and Harbor Workers' Compensation Act, as amended.

These trust funds are available for payments of additional compensation for second injuries. When a second injury is combined with a previous disability and results in increased permanent partial disability, permanent total disability, or death, the employer's liability for benefits is limited to a specified period of compensation payments after which the fund provides continuing compensation benefits. In addition, the fund pays one-half of the increased benefits provided under the Longshore and Harbor Workers' Compensation Act, as amended, for persons on the rolls prior to 1972. Maintenance payments are made to disabled employees undergoing vocational rehabilitation to enable them to return to remunerative occupations, and the costs of necessary rehabilitation services not otherwise available to disabled workers are defrayed. Payments are made in cases where other circumstances preclude payment by an employer and to provide medical, surgical, and other treatment in disability cases where there has been a default by the insolvency of an uninsured employer.

(2) to conduct an inspection or investigation in response to an employee complaint, to issue a citation for violations found during such inspection, and to assess a penalty for violations which are not corrected within a reasonable abatement period and for any willful violations found;

(3) to take any action authorized by such Act with respect to imminent dangers;

(4) to take any action authorized by such Act with respect to health hazards;

(5) to take any action authorized by such Act with respect to a report of an employment accident which is fatal to one or more employees or which results in hospitalization of two or more employees, and to take any action pursuant to such investigation authorized by such Act; and

(6) to take any action authorized by such Act with respect to complaints of discrimination against employees for exercising rights under such Act:

Provided further, That the foregoing proviso shall not apply to any person who is engaged in a farming operation which does not maintain a temporary labor camp and employs 10 or fewer employees.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

Federal Funds

SALARIES AND EXPENSES

For necessary expenses for the Occupational Safety and Health Administration, \$490,277,000, including not to exceed \$91,093,000 which shall be the maximum amount available for grants to States under section 23(g) of the Occupational Safety and Health Act (the "Act"), which grants shall be no less than 50 percent of the costs of State occupational safety and health programs required to be incurred under plans approved by the Secretary under section 18 of the Act; and, in addition, notwithstanding 31 U.S.C. 3302, the Occupational Safety and Health Administration may retain up to \$750,000 per fiscal year of training institute course tuition fees, otherwise authorized by law to be collected, and may utilize such sums for occupational safety and health training and education: Provided, That, notwithstanding 31 U.S.C. 3302, the Secretary of Labor is authorized, during the fiscal year ending September 30, 2008, to collect and retain fees for services provided to Nationally Recognized Testing Laboratories, and may utilize such sums, in accordance with the provisions of 29 U.S.C. 9a, to administer national and international laboratory recognition programs that ensure the safety of equipment and products used by workers in the workplace: Provided further, That none of the funds appropriated under this paragraph shall be obligated or expended to prescribe, issue, administer, or enforce any standard, rule, regulation, or order under the Act which is applicable to any person who is engaged in a farming operation which does not maintain a temporary labor camp and employs 10 or fewer employees: Provided further, That no funds appropriated under this paragraph shall be obligated or expended to administer or enforce any standard, rule, regulation, or order under the Act with respect to any employer of 10 or fewer employees who is included within a category having a Days Away, Restricted, or Transferred (DART) occupational injury and illness rate, at the most precise industrial classification code for which such data are published, less than the national average rate as such rates are most recently published by the Secretary, acting through the Bureau of Labor Statistics, in accordance with section 24 of that Act (29 U.S.C. 673), except—

(1) to provide, as authorized by such Act, consultation, technical assistance, educational and training services, and to conduct surveys and studies;

Safety and health standards.—This activity provides for the development, promulgation, review and evaluation of feasible occupational safety and health standards and guidance. Before any standard is proposed or promulgated, a determination is made that: (1) a significant risk of serious injury or health impairment exists; (2) the standard will reduce this risk; (3) the standard is economically and technologically feasible; and (4) the standard is economically and technologically feasible when compared with alternative regulatory proposals providing equal levels of protection. Regulatory reform efforts include consensus-based rulemaking, development of common sense regulations, rewriting existing standards so they are understandable to those affected by them, and regulatory and non-regulatory process improvements.

Federal Enforcement.—This activity provides for the enforcement of workplace standards promulgated under the Occupational Safety and Health (OSH) Act of 1970 through the physical inspection of worksites, and by fostering the voluntary cooperation of employers and employees. Programs are targeted to the investigation of claims of imminent danger and employee complaints, investigation of fatal and catastrophic accidents, programmed inspections of firms with injury-illness rates that are above the national average, and special emphasis inspections for serious safety and health hazards. OSHA's enforcement strategy includes a selective targeting of inspections and related compliance activities to specific high hazard industries and worksites.

State programs.—This activity assists states in assuming responsibility for administering occupational safety and health programs under State plans approved by the Secretary. Under section 23 of the OSH Act, matching grants of up to fifty percent of total program costs are made to States that meet the Act's criteria for establishing and implementing State programs which are at least as effective as the Federal program. State programs, like their Federal counterpart, provide a mix of enforcement, outreach, training and compliance assistance activities.

Technical support.—This activity provides specialized technical expertise and advice in support of a wide range of program areas, including construction, standards setting, variance determinations, compliance assistance, and enforcement. Areas of expertise include laboratory accreditation, industrial hygiene, occupational health nursing, occupational medicine, chemical analysis, equipment calibration, safety engineering, environmental impact statements, technical and scientific databases, computer-based outreach products, and emergency preparedness.

Compliance assistance-Federal.—This activity supports a range of cooperative programs, training, and outreach that provide compliance assistance in improving workplace safety and health, with particular emphasis on small business. OSHA works with employers and employees through Voluntary Protection Programs recognizing and promoting effective safety and health management; partnerships focusing on

the development of extended cooperative relationships; and alliances committing organizations to collaborative efforts with OSHA. Federal agencies are assisted in implementing and improving their job safety and health programs. Occupational safety and health training is provided at the OSHA Training Institute and associated Education Centers throughout the country. Compliance and technical assistance materials are prepared and disseminated to the public through various means, including the Internet.

State consultation grants.—This activity supports 90 percent Federally funded cooperative agreements with designated State agencies to provide free on-site consultation to employers upon request. State agencies tailor workplans to specific needs in each State while maximizing their impact on injury and illness rates in smaller establishments. These projects offer a variety of services, including safety and health program assessment and assistance, hazard identification and control, and training of employers and their employees.

Training grants.—This activity supports safety and health training grants to organizations that provide training and education and develop educational materials for employers and employees. Grants address safety and health education needs related to specific topics and industries identified by the agency. The 2008 Budget eliminates funding for these grants, and focuses on increased compliance assistance support.

Safety and health statistics.—This activity supports the information technology infrastructure, management information, and statistical basis for OSHA's programs and field operations. These are provided through an integrated data network, and statistical analysis and review. OSHA administers and maintains the recordkeeping system that serves as the foundation for the BLS survey on occupational injuries and illnesses and provides guidance on recordkeeping requirements to both the public and private sectors.

Executive direction and administration.—This activity supports executive direction, planning and evaluation, management support, legislative liaison, interagency affairs, federal agency liaison, administrative services, and budgeting and financial control.

Enforcement.—The enforcement strategy in 2008 will be an integrated approach that links all actions to preventing occupational injuries and illnesses. These include inspection of mines as mandated by the Federal Mine Safety and Health Act of 1977, special emphasis initiatives that focus on persistent safety and health hazards, promulgation of safety and health standards, investigation of serious accidents, and on-site education and training. The desired outcome of these enforcement efforts is to lower fatality and injury rates.

Assessments.—This activity assesses and collects civil monetary penalties for violations of safety and health standards.

Educational policy and development.—This activity develops and coordinates MSHA's mine safety and health education and training policies, and provides classroom instruction at the National Academy for MSHA personnel, other governmental personnel, and the mining industry. States provide mine health and safety training materials, and provide technical assistance through the State Grants program.

Technical support.—This activity applies engineering and scientific expertise through field and laboratory forensic investigations to resolve technical problems associated with implementation of the Mine Act. Technical support administers a fee program to approve equipment, materials, and explosives for use in mines and performs field and laboratory audits of equipment previously approved by MSHA. It also collects and analyzes data relative to the cause, frequency, and circumstances of accidents.

Program evaluation and information resources (PEIR).—This activity provides program evaluation and information technology resource management services for the agency. Additionally, PEIR is responsible for meeting the requirements of the Government Performance and Results Act (GPRA) and developing MSHA's performance plan and Annual Performance Report.

Program administration.—This activity performs general administrative functions.

Program direction and support.—Provides leadership and direction for all programs and functions assigned to the Department. Provides guidance for the development and implementation of governmental policy to protect and promote the interests of the American worker, achieving better employment and earnings, promoting productivity and economic growth, safety, equity and affirmative action in employment, and collecting and analyzing statistics on the labor force.

Legal services.—Provides the Secretary of Labor and Departmental program officials with the legal services required to accomplish the Department's mission. The major services include litigating cases, providing assistance to the Department of Justice in case preparation and trials, reviewing rules, orders and written interpretations and opinions for DOL program agencies and the public, and coordinating the Department's legislative program. A provision is included to fund legal services associated with extraordinary case enforcement activities.

International labor affairs.—Supports the President's international labor agenda and coordinates the international activities for the Department of Labor. Activities include coordination with other U.S. government agencies, intergovernmental organizations, and non-governmental organizations, as well as meeting the requirements of the Government Performance and Results Act (GPRA).

Administration and management.—Exercises leadership in all Departmental administrative and management programs and services and ensures efficient and effective operation of Departmental programs; provides policy guidance on matters of personnel management, information resource management and procurement; and provides for consistent and constructive internal labor-management relations throughout the Department.

Adjudication.—Conducts formal hearings and renders timely decisions on claims filed under the Black Lung Benefits Act, the Longshore and Harbor Workers' Compensation Act and its extensions, the Federal Employees' Compensation Act and other acts involving complaints to determine violations of minimum wage requirements, overtime payments, health and safety regulations and unfair labor practices.

Women's bureau.—Promotes the interests of wage earning women, and seeks to improve their working conditions and advance their opportunities for profitable employment.

Civil rights.—Ensures full compliance with Title VI of the Civil Rights Act of 1964 and other regulatory nondiscrimination provisions in programs receiving financial assistance from the Department of Labor (DOL) and promotes equal opportunity in these programs and activities; and ensures equal employment opportunity to all DOL employees and applicants for employment.

Chief financial officer.—Responsible for developing comprehensive accounting and financial management policies; assuring that all DOL financial functions conform to applicable standards; providing leadership and coordination to DOL agencies' trust and benefit fund financial actions; monitoring the financial execution of the budget in relation to actual expenditures; enhancing the level of knowledge and skills of Departmental staff working in financial management oper-

ations; and managing a comprehensive training program for budget, accounting, and financial support staff.

Information technology activities.—This activity represents a permanent, centralized IT investment fund for the Department of Labor managed by the Chief Information Officer. As required by the Clinger Cohen Act, in 1996, the Department established a Chief Information Officer accountable for IT management in the DOL, and implemented an IT Capital Investment Management process for selecting, controlling, and evaluating IT investments. The Department established a baseline of existing information technologies and provides a target environment as a framework for future information technology investments.

Management Crosscut.—This activity addresses major management issues facing all DOL agencies including those in the President's Management Agenda.

FPB Security Enhancements.—Resources to address structural security needs for the Department's main building in Washington, D.C.

Job Corps Transfer.—Provides the administration of the Job Corps Transfer as shown in the Youth Services activity. By authority of section 102 of the Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations Act, 2006 (Public Law 109-149), the Secretary of Labor issued Secretary's Order 09-2006 which established the Office of Job Corps within the Office of the Secretary (OSEC) and delegated authority and assigned responsibility to the Director of the Office of Job Corps and other agency heads to ensure the effective administration of the Job Corps program. The management of Job Corps funding, appropriated to the Employment and Training Administration (ETA) in 2006, was transferred to OSEC via an allotment process. This funding mechanism continues in 2007 since a regular 2007 appropriation has not been enacted for this account at the time the budget was prepared. The 2008 budget proposes to transfer Job Corps program and administrative funding back to ETA.

Office of Disability Employment Policy.—This office provides leadership in developing policy to eliminate employment barriers to people with disabilities. It works within DOL and in collaboration with other Federal agencies to develop policy based on research and analysis of specific areas of policy inquiry in employment, training and retraining, recruitment, retention, and employment support services. ODEP derives effective evidence-based strategies from these activities, which are disseminated by the office through its technical assistance projects to public and private sector entities that facilitate their implementation. ODEP's strategies, including conducting research, providing technical assistance, and actively collaborating with relevant entities, inform future policy development and contribute to the office's continual building of effective strategies to increase the workforce participation by people with disabilities.

The Office of Disability Employment Policy brings a heightened and permanent long-term focus on increasing employment of persons with disabilities. The office achieves this goal by developing innovative and comprehensive policy on matters of or affecting employment of people with disabilities. Funding is used to develop policy and facilitate its adoption, and to identify, test, evaluate and disseminate strategies designed to increase the number of youth and adults with disabilities who enter, re-enter, remain, and are promoted in the workforce.

Program activities.—The Office of Inspector General (OIG) conducts audits, investigations, and evaluations that improve

OFFICE OF INSPECTOR GENERAL—Continued

the effectiveness, efficiency, and economy of departmental programs and operations. It addresses DOL program fraud and labor racketeering in the American workplace, provides technical assistance to DOL program agencies, and advice to the Secretary and the Congress on how to attain the highest possible program performance. The Office of Audit performs audits of the Department's financial statements, programs, activities, and systems to determine whether information is reliable, controls are effective, and resources are safeguarded. It also ensures funds are expended in a manner consistent with laws and regulations, and with achieving the desired program results. The Office of Labor Racketeering and Fraud Investigations conducts investigations to detect and deter fraud, waste, and abuse in departmental programs. It also identifies and reduces labor racketeering and corruption in employee benefit plans, labor management relations, and internal union affairs. Due to a large backlog of Single Audit Act reports that the OIG received from the Single Audit Clearinghouse, and a significant increase in the number of single claimant unemployment investigations conducted following the 2005 Hurricanes, the OIG completed significantly more audits and investigations than anticipated in Presidents 2006 Budget. These numbers reflect an isolated increase. The OIG's labor racketeering program will expand its investigation of Gulf Coast Reconstruction and Unemployment Insurance (UI) fraud in 2008. The OIG has also shifted its investigative focus in the UI program and in the Department's foreign labor certification programs to more complex and higher-impact fraud schemes involving multiple defendants. Relative to traditional single claimant cases in the UI and Federal Employees Compensation Act programs, these cases yield substantial results. However, their increased complexity also affects the number of cases the Department expects to close in 2007 and 2008.

Jobs for Veterans State grants.—The Jobs for Veterans Act (JVA) of 2002 provides the foundation for this budget activity. The JVA requires the Veterans Employment and Training Service (VETS) to promulgate policies and regulations that ensure maximum employment and training opportunities for veterans and priority of service for veterans within the State workforce delivery system. Under the JVA, resources are allocated to States to support Disabled Veterans Outreach Program (DVOP) specialists and Local Veterans' Employment Representatives (LVER).

Disabled Veterans Outreach Program specialists (38 U.S.C. 4103A) provide intensive services to meet the employment needs of eligible veterans. DVOPs place maximum emphasis on helping economically or educationally disadvantaged veterans. Priority of service (38 U.S.C. 4215) is given to special

disabled veterans, other disabled veterans, and other eligible veterans.

Local Veterans' Employment Representatives (38 U.S.C. 4104) conduct outreach to employers as well as assist veterans in gaining employment by conducting job search workshops and establishing job search support groups. LVERs also facilitate employment, training, and placement services provided to veterans under the applicable State employment service delivery system, including One-Stop Career Centers. In addition, each LVER provides reports to the manager of the State employment service delivery system and to the State Director for Veterans Employment and Training (38 U.S.C. 4103) regarding the State's compliance with Federal law and regulations with respect to special services and priorities for eligible veterans.

The State grants budget activity also supports the Transition Assistance Program (TAP). VETS coordinates with the Departments of Defense, Veterans Affairs, and Homeland Security to provide transition assistance to military servicemembers separating from active duty. The TAP program is implemented worldwide and provides labor-market and employment-related information and other services to separating servicemembers. The goal of TAP is to expedite and facilitate the transition from military to civilian employment.

Federal management.—VETS' Federal management (38 U.S.C. 4102–4103A) budget activity carries out programs and develops policies to meet the employment and training needs of veterans. Based upon the most recent cost accounting data, the majority of VETS' Federal management resources are dedicated to Uniformed Services Employment and Reemployment Rights (USERRA) compliance and outreach activities, whereby VETS investigates complaints to help veterans, reservists, and members of the National Guard obtain their employment and reemployment rights (38 U.S.C. 4301 et seq.). Veterans' Preference activities, which are intended to assist veterans obtain Federal employment (39 U.S.C. 4214), are also supported under this activity.

Resources under this activity are also used to evaluate the job training and employment assistance services to veterans and support field activities and personnel who provide technical assistance to States to ensure they meet negotiated performance goals. VETS' staff works with States to provide incentive awards for outstanding performance (38 U.S.C. 4112). This budget activity also funds outreach and education efforts, such as job fairs, that raise the awareness of employers about the benefits of hiring veterans.

The REALifeLines initiative facilitates timely and comprehensive employment services to our Nation's severely wounded and injured veterans.

National Veterans' Employment and Training Services Institute.—The National Veterans Training Institute (NVTI) supplies competency-based training to Federal and State providers of services to veterans (38 U.S.C. 4109). NVTI is administered through a contract and supported by dedicated funds. NVTI ensures that these service providers receive a comprehensive foundation so they can effectively assist job-seeking veterans.

Homeless veterans' reintegration program.—The Homeless Veterans' Reintegration Program (HVRP) (38 U.S.C. 2021) provides grants to States or other public entities, as well as non-profits, including faith-based organizations. Grant awards enable grantees to operate employment programs to reach out to homeless veterans and help them become employed. VETS partners with the Departments of Veterans Affairs and Housing and Urban Development to promote multi-agency-funded programs that integrate the different services needed by homeless veterans. HVRP grants are provided for both urban and rural areas.

Veterans' workforce investment program.—The Veterans' Workforce Investment Program (VWIP) (Section 168 of P.L. 105–220) provides competitive grants geared toward training and retraining to create employment opportunities for veterans in high-skill occupations, and to meet employer demands. VETS is developing five VWIP pilot programs, to be implemented nationwide, that will promote licensing and certification of veterans who are transitioning from military service to high growth professions.

Financial and administrative services.—Provides support for financial systems on a Department-wide basis, financial services primarily for DOL national office staff, cost determination activities, maintenance of Departmental host computer systems, procurement and contract services, safety and health services, maintenance and operation of the Frances Perkins Building and general administrative support in the following areas: space and telecommunications, property and supplies, printing and reproduction and energy management. In addition, supports the implementation of the Labor Executive Accountability Program (LEAP), the Department's core financial management system.

Field services.—Provides full range of administrative and technical services to all agencies of the Department located in its regional and field offices. These services are primarily in the personnel, financial, information technology and general administrative areas.

Human resources services.—Provides leadership, guidance, and technical expertise in all areas related to the management of the Department's human resources, including recruitment, development, and retention of staff, and leadership in labor-management cooperation. This activity's focus is on a strategic planning process that will result in sustained leadership and assistance to DOL agencies in recruiting, developing and retaining a high quality, diverse workforce that effectively meets the changing mission requirements and program priorities of the Department.

Telecommunications.—Provides for departmental telecommunications payments to the General Services Administration.

Investment in reinvention fund.—Finances agency reinvention proposals and other investment or capital acquisition projects in order to achieve savings and streamline work processes. The fund is self-sustaining, with agencies paying back

the initial investment with savings generated through implementation of efficiencies and reinvention initiatives.

Non-DOL reimbursements.—Provides for services rendered to any entity or person for use of Departmental facilities and services, including associated utilities and security services, including support for regional consolidated administrative support unit activities. The income received from non-DOL agencies and organizations funds in full the costs of all services provided. This income is credited to and merged with other income received by the Working Capital Fund.

Financing.—The Working Capital Fund is funded by the agencies and organizations for which centralized services are performed at rates that return in full all expenses of operation, including reserves for accrued annual leave and depreciation of equipment.

GENERAL PROVISIONS

SEC. 101. None of the funds appropriated in this title for the Job Corps shall be used to pay the salary of an individual, either as direct costs or any proration as an indirect cost, at a rate in excess of Executive Level I.

(TRANSFER OF FUNDS)

SEC. 102. Not to exceed 1 percent of any discretionary funds which are appropriated for the current fiscal year for the Department of Labor in this Act may be transferred between accounts, but no such account shall be increased by more than 3 percent by any such transfer: Provided, That the transfer authority granted by this section shall be available only to meet unanticipated needs and shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: Provided further, That the

Appropriations Committees of both Houses of Congress are notified at least 15 days in advance of any transfer.

SEC. 103. In accordance with Executive Order No. 13126, none of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended for the procurement of goods mined, produced, manufactured, or harvested or services rendered, whole or in part, by forced or indentured child labor in industries and host countries already identified by the United States Department of Labor prior to enactment of this Act.

SEC. 104. Section 102 of Public Law 109-149 is hereby repealed.

TITLE V—GENERAL PROVISIONS

SEC. 501. The Secretaries of Labor, Health and Human Services, and Education are authorized to transfer unexpended balances of prior appropriations to accounts corresponding to current appropriations provided in this Act: Provided, That such transferred balances are used for the same purpose, and for the same periods of time, for which they were originally appropriated.

SEC. 502. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 503. (a) No part of any appropriation contained in this Act shall be used, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, radio, television, or video presentation designed to support or defeat legislation pending before the Congress or any State legislature, except in presentation to the Congress or any State legislature itself.

(b) No part of any appropriation contained in this Act shall be used to pay the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence legislation or appropriations pending before the Congress or any State legislature.

SEC. 504. The Secretaries of Labor and Education are authorized to make available not to exceed \$28,000 and \$20,000, respectively, from funds available for salaries and expenses under titles I and III, respectively, for official reception and representation expenses; the Director of the Federal Mediation and Conciliation Service is authorized to make available for official reception and representation expenses not to exceed \$5,000 from the funds available for "Salaries and expenses, Federal Mediation and Conciliation Service"; and the Chairman of the National Mediation Board is authorized to make available for official reception and representation expenses not to exceed \$5,000 from funds available for "Salaries and expenses, National Mediation Board".

SEC. 505. Notwithstanding any other provision of this Act, no funds appropriated in this Act shall be used to carry out any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug.

SEC. 506. When issuing statements, press releases, requests for proposals, bid solicitations and other documents describing projects or programs funded in whole or in part with Federal money, all grantees receiving Federal funds included in this Act, including but not limited to State and local governments and recipients of Federal research grants, shall clearly state—

(1) the percentage of the total costs of the program or project which will be financed with Federal money;

(2) the dollar amount of Federal funds for the project or program; and

(3) percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources.

SEC. 507. (a) None of the funds appropriated in this Act, and none of the funds in any trust fund to which funds are appropriated in this Act, shall be expended for any abortion.

(b) None of the funds appropriated in this Act, and none of the funds in any trust fund to which funds are appropriated in this Act, shall be expended for health benefits coverage that includes coverage of abortion.

(c) The term "health benefits coverage" means the package of services covered by a managed care provider or organization pursuant to a contract or other arrangement.

SEC. 508. (a) The limitations established in the preceding section shall not apply to an abortion—

(1) if the pregnancy is the result of an act of rape or incest; or

(2) in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed.

(b) Nothing in the preceding section shall be construed as prohibiting the expenditure by a State, locality, entity, or private person of State, local, or private funds (other than a State's or locality's contribution of Medicaid matching funds).

(c) Nothing in the preceding section shall be construed as restricting the ability of any managed care provider from offering abortion coverage or the ability of a State or locality to contract separately with such a provider for such coverage with State funds (other than a State's or locality's contribution of Medicaid matching funds).

(d)(1) None of the funds made available in this Act may be made available to a Federal agency or program, or to a State or local government, if such agency, program, or government subjects any institutional or individual health care entity to discrimination on the basis that the health care entity does not provide, pay for, provide coverage of, or refer for abortions.

(2) In this subsection, the term "health care entity" includes an individual physician or other health care professional, a hospital, a provider-sponsored organization, a health maintenance organization, a health insurance plan, or any other kind of health care facility, organization, or plan.

SEC. 509. (a) None of the funds made available in this Act may be used for—

(1) the creation of a human embryo or embryos for research purposes; or

(2) research in which a human embryo or embryos are destroyed, discarded, or knowingly subjected to risk of injury or death greater than that allowed for research on fetuses in utero under 45 CFR 46.204(b) and section 498(b) of the Public Health Service Act (42 U.S.C. 289g(b)).

(b) For purposes of this section, the term "human embryo or embryos" includes any organism, not protected as a human subject under 45 CFR 46 as of the date of the enactment of this Act, that is derived by fertilization, parthenogenesis, cloning, or any other means from one or more human gametes or human diploid cells.

SEC. 510. (a) None of the funds made available in this Act may be used for any activity that promotes the legalization of any drug or other substance included in schedule I of the schedules of controlled substances established by section 202 of the Controlled Substances Act (21 U.S.C. 812) except for normal and recognized executive-legislative communications.

(b) The limitation in subsection (a) shall not apply when there is significant medical evidence of a therapeutic advantage to the use of such drug or other substance or that federally sponsored clinical trials are being conducted to determine therapeutic advantage.

SEC. 511. None of the funds made available in this Act may be used to promulgate or adopt any final standard under section 1173(b) of the Social Security Act (42 U.S.C. 1320d-2(b)) providing for, or providing for the assignment of, a unique health identifier for an individual (except in an individual's capacity as an employer or a health care provider), until legislation is enacted specifically approving the standard.

SEC. 512. None of the funds made available in this Act may be obligated or expended to enter into or renew a contract with an entity if—

(1) such entity is otherwise a contractor with the United States and is subject to the requirement in section 4212(d) of title 38, United States Code, regarding submission of an annual report to the Secretary of Labor concerning employment of certain veterans; and

(2) such entity has not submitted a report as required by that section for the most recent year for which such requirement was applicable to such entity.

SEC. 513. None of the funds made available by this Act to carry out the Library Services and Technology Act may be made available to any library covered by paragraph (1) of section 224(f) of such Act (20 U.S.C. 9134(f)), as amended by the Children's Internet Protections Act, unless such library has made the certifications required by paragraph (4) of such section.

SEC. 514. None of the funds made available by this Act to carry out part D of title II of the Elementary and Secondary Education Act of 1965 may be made available to any elementary or secondary school covered by paragraph (1) of section 2441(a) of such Act (20 U.S.C. 6777(a)), as amended by the Children's Internet Protections

Act and the No Child Left Behind Act, unless the local educational agency with responsibility for such covered school has made the certifications required by paragraph (2) of such section.

SEC. 515. None of the funds appropriated in this Act may be used to enter into an arrangement under section 7(b)(4) of the Railroad

Retirement Act of 1974 (45 U.S.C. 231f(b)(4)) with a nongovernmental financial institution to serve as disbursing agent for benefits payable under the Railroad Retirement Act of 1974.
