7) Based on your own experiences, what would you tell a woman considering an abortion? That there are real choices. Abortion is murder. I would give a life sentence to my daughter and she would give her the necessary information to protect the life of her child.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would encourage a court to realize that abortion is legal and because of it that I had the choice to abort my baby. My boyfriend made me have an abortion. I would not have had an abortion if it was not legal. Legalized abortion is not a choice. It is a sentence to life imprisonment for the mother and death for a child.

I left the first time, was called back, didn't think I had any choices and went back. I was scared & they threatened me to do it. I only gradually did I realize how wrong I had been and how much of a violation and the pushing and herding of the women at the clinic and forced me to do something my conscience was against. I have cried many times over my last son. He holds in my heart. When I see boys who would be my size age I am upset.
- 5) How has your abortion affected you? For many years I grew in my soul. I had done wrong but I tried to forget and convinced myself it was ok. He holds in my heart. When I see boys who would be my size age I am upset.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? No, I do not want to seek help and support and to know that no child will be wanted.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That women's choice should be before they conceive a new life not after. To kill the unborn babies is wrong against nature. Abortion is a child and a unique human being not tissue only.

fair head. and in your hand!

The Affects of Abortion and the Wounds it Leaves Behind

My name is Heather and I am currently 29 years old. In December of 1995 I had my first abortion in a clinic in Atlanta, Georgia. In February of 1996 I had my second abortion in the same clinic in Atlanta, Georgia. At the time, I was 21 years old and in college. I was on birth control pills and my partner was using condoms, both on a consistent and regular basis.

I was NOT adequately informed of the nature or consequences of abortion. I did not know what could and MAY have happened to my children or me. I was taken into an "office" for "counseling" and the nurse told me that I needed to sign on the line and then said that I should choose to be put to sleep instead of local anesthesia so that I would not remember the sounds of the machines. I was never once told how the procedure was to take place. I was not introduced to the doctor. I was not told the risks that were involved, that I would be at a higher risk for breast cancer, that I would be at a high risk for depression, that I may never be able to have children ever again, OR that I, should I choose to and if I could have children, would be catapulted into the 800th percentile of likelihood for birth defects! I was not told that I could bleed to death from internal bleeding. I was told nothing. When I found out I was pregnant, I was not told my options or that there was help

out there, financially or otherwise. I thought I was choosing the only choice there was for someone like me.

I cannot even scratch the surface of the horror, depression, and fear that has haunted me since my first abortion! Almost 9 years later and I am NOT completely healed from that "normal" surgery. Immediately after the first abortion I laid on my couch for 7 days, bleeding profusely and taking pain pills. I could not make it up my stairs to take a shower. I would crawl to the kitchen just for a glass of water and a couple of crackers. I had no idea of knowing if this was normal, all the blood. I could have bled to death and no one would have known. For six months after the first abortion I had the same nightmare every single night. Six months of screams and trying to run away but never knowing what or who was trying to get me or even why. After the first abortion I could not hold or be near a child of any age without breaking down and crying hysterically for hours. That lasted for about three years. I still remember the first baby I did hold. After the first abortion I became suicidal. I just wanted to die. I thought I was worthless, ugly, a monster. What kind of monster kills it's own child?!? I was that kind of monster.

My abortions have affected me in many aspects of my life. They affected my relationship with my immediate family. My dad is still somewhat estranged to this day. No one in my family talks about what I did, it's a taboo subject, one that is just not brought up. My parents got divorced a couple of years after I told them what I had done and I honestly believe that the strain and stress and heartache is a part of why they are not together today. I got into \$8000 worth of debt during my post-abortion days, trying to heal the wounds with clothes and fine dining that no college student could afford. My abortions and my premarital affairs have had a negative impact on my marriage. My husband has been beautiful and understanding and caring and wonderful and forgiving, he is not the problem. I, on the other hand, have been distant and disgusted with anything that has to do with physical intimacy. I would lie in bed staring at the ceiling hoping that he would hurry up and hoping I would not throw up when it was over! THAT IS NOT NORMAL or healthy! We have been married almost two years and only through the grace of God Almighty do I actually want to, and enjoy being with my wonderful husband intimately.

It looks as though my physical body has healed but my husband and I are trying to get pregnant and I still don't know if I can. If I do get pregnant will

our child be deformed because of my "operations?" Will I live with the fact that it is MY FAULT that our child cannot run and jump or do math equations because of an operation I had years ago that I knew nothing about?

If I could go back and change ONE thing in my life, I would have NEVER, NEVER, NEVER had the first abortion!! I would have chosen to put my child up for adoption because I was not in a position to raise or support that beautiful, innocent life. If I had chosen adoption over abortion then I could have slept at night knowing that a couple who could have no children of their own, were caring for, raising, and loving the child that I could not provide for. Maybe, just maybe, in 9 more years my child would have wanted to find his or her biological mother and I could tell that child how sorry I was for putting him/her up for adoption instead of raising him/her on my own. Unfortunately, since I chose abortion over adoption, I can never tell my child how sorry I am and how much I miss them and how much I love them.

I HATE myself for the decision I made. I will NEVER, ever, ever get over my abortions. Not even if I live for 500 more years. There is not enough counseling in the world to help me get over the destruction that the abortions

1925

have caused me. Please stop the killing of unborn children! Please stop the destruction of the mothers who decide to have an abortion! I wish that it had never been made legal in the first place. I did not have the "right" to choose death.

Testimony of women who have had an abortion

The State of Georgia
County of Hall

BEFORE ME, the undersigned authority, on this day personally appeared Debbie Gilleland (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June, 1996 Atlanta, Ga. Northside Women Center
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was led to believe that my baby was just tissue - not a live yet.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My mom, who thought it would be best for me, wanted me to have one. The father wanted me to have an abortion also.
- 5) How has your abortion affected you? After my abortion, I started drinking and sleeping around. I had no self confidence or self worth. When my second child was born of father, when I carried him, I realized that this is a real person with a real heartbeat. After he was born, I started praying for forgiveness for my sin of killing my baby. When a show about abortions came on one night, all I could do is sit there cry, begging for forgiveness. God gave me forgiveness the 1st time I asked, but it took 4 years for me to forgive myself.
- 6) How has your abortion affected others in your life? By using my experience, God is allowing me to help other women by volunteering in a PCP. My family has been very supportive and non judgemental toward me & I feel that I have helped others.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That you need to be in deep prayer about what you are about to do. The baby you are carrying has a heartbeat and has feelings, not a blob of tissue. I have never heard anyone say that they were glad they done it, in fact, they have a hard time dealing with the loss after it.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? In the Bible it says "Thou shalt not kill" We sometimes give murderers the death sentence and then say it's okay to kill an innocent baby. Where is the justice in that? God has a plan and a purpose for each person born. Who should put themselves above God, by allowing women to choose whether their child should live or not. That decision should be made before you have sex.

- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes. If so, who? My boyfriend and his mother
- 5) How has your abortion affected you? Felt guilt, shame, sadness. Had to keep it all inside. Became self-destructive, with drugs, alcohol, boyfriend. Low self-esteem did not trust myself to make decisions. Was not a good mother to my only child till I started 15 years later talking about the 3 abortions and was not a productive citizen. Refused to go to doctors about female problems. It brought back horrible memories.
- 6) How has your abortion affected others in your life? Denial my only child of his siblings. My son watched and experienced my self destruction. The impact on him is bigger than these few lines.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I have already told women that a mother's blood does not flow through the body of the baby and that the unnatural tearing away of the uterine lining causes severe issues that can eventually lead to many medical problems.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? At 13 years of age in 1963 I had an abortion, at 14 years of age I had another abortion. I did not know then how this would affect me for the rest of my life. I would cry for days on end for the unborn child I chose to discard with the trash. I went through a deep depression for the first few years. I later had a child hoping to replace my lost. I now have three children and have been married for 17 year. My husband is the same man who ~~was~~ the father of the same children who are no longer here. We have had a long bumpy road and I often cry for my unborn children. I have had nightmares and hear babies crying saying mommy don't hurt me let me live and relive the experience in my mind. As much as I love my husband I often had a bit of hatred and resentment toward him because he could not possibly feel my pain. It has been 21 years now and I still carry the pain from both of my abortions with me. No one should ever endure the pain of losing a child ~~other~~ ^{voluntarily or involuntarily}.

AFFIDAVIT
(Questions for WOMEN who have undergone abortion)

The State of Georgia
County of Gwinnett

BEFORE ME, the undersigned authority, on this day personally appeared Krista Grey, who being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. Tell when and where your abortion occurred: My abortions occurred in Atlanta. The following are approximate dates: October, 1987; July 1988; March 1991; June 1993. All of my abortions took place in the first trimester of pregnancy.
2. How has your abortion affected you? My abortions have affected me in so many ways that I cannot simply list them here. I can however, let you know the major points and problems I currently suffer from. I have a terrible fear of something happening to my children. I have an unusual fear of their death. I have had all of my children sleep next to me in my bed because of my fear of SIDS. Until they are about 2, I have them sleep with me. I still keep them with me during storms for fear of a tree falling through the roof and killing them. Please understand that I am not by nature an overly paranoid person. I carry on in society at a normal level, however, these things haunt me silently. Pregnancy has always been difficult for me because I lost my first baby at 5 months pregnant. This was a direct result of having abortions and now I have to have a cervical cerclage to avoid late term miscarriage due to an incompetent cervix. The pain of losing a baby at that point in my pregnancy was unbelievable. I still feel as though I deserve more suffering. This is part of the reason I stay in an extremely difficult marriage. My husband is occasionally abusive to me. I choose to stay and pray to God that He will spare me the Hell I deserve if I can just suffer through this earthly unhappiness. My husband is not all bad and is continually striving to improve himself, however, I have suffered through extremely difficult times partly because I feel like I deserve it.
3. How has your abortion affected others in your life? My relationship with my mother is not as close as it could be due to the fact that in order to talk me into having an abortion she explained that she wished she had aborted me when

she had the chance. My mother advised me by explaining that when she was pregnant with me she worked for a doctor that knew a doctor who performed abortions in New York. She was going to have an abortion with me and regrets that she did not do so because of the unhappiness that her marriage to my father caused her. She was in college at the time and dropped out to raise me. She regretted not finishing college and doing something more meaningful with her life.

4. Were you adequately informed of the consequences of abortion? No. There is no way anyone can predict the impact it has on a life. Sure, they may tell me there is an increased risk of breast cancer, post traumatic stress, or anything else they may say. However, the way it weaves itself through every aspect of your life cannot be explained.
5. Were you adequately informed of the nature of abortion, what it is, what it does? If no, explain: All I knew was that I would no longer be pregnant after it was performed. I knew that suction was used to remove all the contents of my uterus.
6. Based on your own experiences, what would you tell a woman thinking of having an abortion? First I would say that realistically, there is probably nothing I can do to talk her out of it with the exception of telling her my story and hoping she can learn from it. Let me say most importantly that I am not going to lie. After each of my abortions I felt so relieved. It was like a giant weight being lifted from my shoulders. Especially the first two times. I never would have even imagined the pain to hit me years later. I encouraged so many other young women to take the same path I did. How guilty I feel. When I was 16 I had my first abortion. I went on to have 3 more abortions after that. I saw nothing wrong with it and did not think that I was using it as birth control because I never intentionally became pregnant. I always avoided it as best that I could. I was unable to take the pill due to so many side effects that affected me more strongly than most people. I figured I had gone through with one abortion already, why should I ruin my life now. I needed to finish college and do something important with my life. I had a miscarriage at 20 weeks pregnant as a direct result of my abortions. It was when I saw that precious child that I realized a fetus is something more than tissue. It caused me great pain to say goodbye to that tiny baby girl, but I thank God that the nurses insisted that I see the baby. I actually did not change my opinion of abortion at that point. I did become certain that abortions after 12 weeks were awful and should not be lawful. I realized when I saw that ½ pound baby that it was really a baby. It had every part a real baby has, eyes, ears, toenails, fingernails, even a belly button. What a heartbreak it was to realize that a baby really is a baby in the womb. Somehow I had just understood that it was tissue until the last trimester. Somehow, I thought before that if something in a woman's life came up and she decided having a baby was not going to work for her she should have the right to terminate the pregnancy. I now realized it was pure murder to do so. Life is lived in the present. We are simply concerned with now. When a woman or girl finds out she is pregnant the now is all she is thinking of. However, if she carries that baby to term, she will

also only think of the present when she holds the child. It is different then, all the dread is over, all the humiliation of telling people of the pregnancy, and it is pure love, whether she gives the child up for adoption or raises it herself. Abortion is just a cure for the now. It puts a bandage on the current situation of the inconveniences of pregnancy. What no woman realizes at the time of an abortion is the way it will affect her years down the road. For me it hurts me when I see my beautiful children and realize how much I love them and know that I would have loved any child just as much. If abortion had not been a legal option then I would have faced the choir and had the child. It was just such a simple choice to fix a problem. I was deceived though, because now the problem will forever haunt me. Not a day will go by that I don't feel regret for the awful choices that I made and the children that I aborted. The shame and guilt are so much more than simply facing responsibility at the time. We are responsible for what we do and abortion just makes it seem as though we can get out of a bad situation. Women don't know that often they are just getting themselves into a worse one. Society can make you feel like you have to be rich, or have a great career to be somebody. I know now that raising my children makes me somebody, and more of a 'somebody' than any money, job, or society can ever think of making me. A pregnancy is not the end of the world, it is the beginning, for the mother it is the beginning of a new world, and for the child it is the discovery of this world in such a delightful way that I feel sorry for people who don't get to have children to experience this new world with them.

7. Based on your own experience, what would you tell a court that believes abortion should be legal? If abortion is legal people just assume it is okay, especially young people. They know it is not the best choice and that they should have prevented this, but they will take the easy way out assuming it is best. It can never be best. There is no way the woman will ever forget what she did. Why should people be able to avoid the consequences of sex? If you have sex you are risking pregnancy, being able to do away with that risk only makes it okay to have sex with anyone any time. If we do away with abortion we will decrease sexual diseases, teenage pregnancy, and many more problems in our society. People say that abortion will never be overturned. That is what my mother said when I told her about this. Maybe it is a lost cause, but I cannot stand back and throw my hands up. Our nation and our young women depend on this, whether they realize it or not.
8. Did anyone pressure you into having an abortion? If so, who? When I had my third abortion my boyfriend at the time pressured me into an abortion. I really felt that it was the wrong choice and I had told myself I would never do it again, but he really begged me to do it. I figured I had already done it twice and I may as well make sure I don't screw up. I thought I needed to make something of myself or the first two would not have been worth it. The fourth abortion was the hardest. I was more mature and realized I should be making better choices. I still went through with it though.
9. Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed of any link and I have not had

- 8) Based on your own experience, what would you tell a court that the best position should be legal? I would say that as a state medical professional, I have seen that death is hastened by the use of abortion. I have seen that death is hastened by the use of abortion. AFFIDAVIT

Before me, the undersigned authority, on this day personally appeared
J. G. (Print Name) who, being by me duly sworn, upon
oath, stated the following facts:

My name is J. G.
(Print Name). My address is _____
My telephone number and e-mail address is _____

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I am caused profound regret by the desperate actions I took when I was 16 years old. At that time I believed I was pregnant, although I had not yet taken a pregnancy test. It had been 33 days since the beginning of my last period. That length of time was very alarming because I kept track of my unusual cycle and knew that it was four weeks long; 14 days on my period, then a two-week break before it started again. I was not sure how I was going to tell anyone about my pregnancy, except my boyfriend.

I had hope as a friend drove me to see him. My boyfriend was the only person I thought I could count on despite the fact that we had a constantly on again, off again relationship. Because he and I had been intimate, he knew I was no longer a virgin, and that was my big secret. When I did see him that day he broke up with me before I could tell him anything. All my hope was gone.

I lived twenty minutes outside of town and had no car or license. I had heard of Planned Parenthood through school but did not have the means to pay for an abortion even if I wanted to have one. I had thought of talking to my assigned school counselor but I did not want to confide in a man about this and certainly not one I had heard was mean. I, otherwise, did not know where or how to seek council. I was alone and desperate. I was thinking about keeping my baby, but fear prevailed. Although I did not want anyone to know I was no longer a virgin, I was most troubled at my mother finding out. I dreaded how she would react to any news because we did not have a good relationship and she already had too many financial demands in caring for my two sisters and I. I was also afraid to bear the stigma of a teen mother. At that point, full of fear and believing I had no alternative, I decided to end my pregnancy.

I took a large amount of aspirin in one dose. I did not think this amount would kill me since I had on two previous occasions taken 2500 mg's less while seeking a kind of high. About 15 minutes after taking the pills I worried that I had taken too many, so I tried to make myself vomit. I gulped down scoops of mayonnaise, and then swallowed raw eggs. I had believed the aspirin would be enough to effectively end my troubles and keep my secrets hidden. I was extremely wrong! It only took me 15 minutes to realize I had just caused many other problems and possibly a future of suffering. And yet, I still did not understand just how far this suffering of pain, sorrow, and remorse would go.

For the next three days I was in a half-conscious state. I went to school with clammy hands and my body was sweating. I could hear my own rapid, deep, breaths, there was a loud constant ringing in my ears, and I could feel my heart pounding in my chest. I could not concentrate at all. I was a little afraid of what I had done to myself, and what effect the pills would have on my baby if it survived all of this. Sadly, during those three days only one person, a teacher, noticed my unusual behavior. She asked if everything was okay or if I was all right. I don't know what my answer was, but I thought I would feel better when I got my period. Finally my period started on the third day after I took the aspirin.

When I was at home I had several blood clots that were larger than normal. Then to my horror and curiosity

came out a blood-mass the size of my fist that reminded me of a heart. I was very afraid of what I might see if I looked thoroughly through this mass. With hesitation I carefully looked into only a small area and was relieved that I could not see anything I could identify as a little baby. This had given me some consolation that maybe I hadn't done something so horrible after all, but still I was holding proof of all my wrong doings in my hand. I felt sorrow and wanted to bury my little one. Even then I was afraid my secret pregnancy and abortion would be exposed because someone might see me burying my little baby; and I was also afraid that an animal would dig up the gravesite. Regretfully, I decided to take no chances of getting caught and with a heavy heart I hid my little baby in the trash.

Over the years there were times I thought of that child. I was sad if I observed a young mother and her child, both appearing to be the same age as my child and I would have been. Sometimes I only noticed if a child's age matched the age of the child I would have had. I was especially sad when I developed a close relationship with such a child. Even though I would get sad and grieve occasionally, it really took about ten years for me to finally remember and think deeply about what I had done. My memory came back about two years ago with the birth of my daughter.

The last two years of my life have been filled with intense repeating anguish because I often remember the child I destroyed. I have cried so long and so many nights about this. At times my tears fall for at least three hours, and I spend the rest of the day grieving. Other times while looking into my toddler's eyes or just watching her and thinking of how much love I have for her, I am painfully reminded of my other child, whom I denied of life and also denied myself of. It hurts me that think that if my two-year old were the little baby conceived ten years ago, I would have killed her. In a way I did, because I killed her sibling, a child I would have known and loved just as much.

Those women I know who have had children at a young age and weren't prepared for them at that time, have amended their lives and their babies gave them the hope and motivation they needed to do it. Because of their little ones, they began to care more about themselves and the world. They are now out of trouble and work to give their children and themselves a better life. Had I not destroyed my baby when I was 16, it's very likely my life would have been influenced the same as theirs, with the same good results. Because I have been raising my daughter, I know what joy I could have had in my joyless teenage life and think I could have been a decent parent even though I was young. I know that having children is a great cause for caring more about the world, keeping out of trouble, as well as the hope and motivation they bring to a home. To raise a child is very rewarding and life enhancing even though it can be difficult at times.

I do have a good life, except for my deep longing for my first child and a recurring sadness over what I have done. Now when there is mention of abortion, I must act. If, in acting, it is necessary to reveal my secret, I will. I do not want anyone to make the same huge mistake. I am still young and will most likely have another 50 to 60 years to think about what I have done to my child. I now know God, have a great, wonderful husband, a beautiful, wonderful daughter and another special baby on the way, all of whom I love so much; yet, I wish I could give my first child life again.

Thirty-eight days from the first day of my last period I did finally take a pregnancy test, which came out negative. After all I have seen and done, I believe the test came out negative because I aborted my baby so early and then intentionally waited until three days after to take the test. Early 2004 was the first time I talked of this tragic event to anyone in detail, but even then it wasn't until August of 2004 that I finally told my doctor what I did when I was 16 years old. She said it is now too late to tell if I had been pregnant. I suppose there is the slightest hope for me that I was not actually pregnant; but even so, my sad intent was there and I still feel a tremendous loss, sadness and continue to grieve.

Since no resolution has been obtained in speaking with my doctor, and I continue believing I was pregnant and ended my pregnancy as I have believed for over a decade, I conclude by stating that which I often think and feel: I can never go back in time and undo the horrible thing I have done. I have taken the life of my unborn child and that haunts me. I have to live with a great guilt and suffer so much over my dead little one. Right now I get to live as does my two-year old and my newly expected baby, but I took that right away from my other child who would be almost twelve now.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I just knew I wouldn't be pregnant anymore.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? my boyfriend at the time and my friends.
- 5) How has your abortion affected you? I struggled with the fact that I had killed someone, for years until I was saved by Jesus on 3-91. I still hate that I did and I never said to think that nobody was there to lead me in another direction. I'm still embarrassed by what I did and I will do anything to keep as many women as possible from having an abortion.
- 6) How has your abortion affected others in your life? My parents and my brother were very disappointed in me. My husband Paul knows I struggle still but doesn't know how to help.
- 7) Based on your own experience, what would you tell a woman considering an abortion? Don't do it, it is the worst thing that has ever happened to me, and if I could I would take it back.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them if they've ever had one or if they have kids. Have you ever seen an ultrasound? If so tell me that any important sheets don't think there's a child to give until it physically comes out of its mother. you'd have to be crazy. Why didn't anyone tell me that? NOTARY PUBLIC Jennifer Powell

The State of California)
 County of San Diego)

BEFORE ME, the undersigned authority, on this day personally appeared Melody L. Haak, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

I was 16 years old in 1978 when I had my first abortion at Planned Parenthood in San Diego California; my second abortion occurred when I was 26 years old in 1988, at Sharp Rees Steely, in San Diego, California.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

I was never informed or given any paperwork advising me that there could be any future problems or consequences as a result of the abortion. I was told that it was just a "medical procedure."

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

I was never informed of any link between abortion and breast cancer. I have never had breast cancer, however, I have found lumps in my breast. I had a lumpectomy in 1993, but it was benign.

4) Did anyone pressure you into having an abortion? If so, who?

No one pressured me into having an abortion, however, the first abortion occurred when I was only 16 years old, without parental consent. The second abortion was performed well into my first trimester when I was approximately three months pregnant. The doctor at the Rees Steely scheduled the abortion three weeks out, even though when I tested positive I was in my second month of pregnancy. The doctor brought me into his office because I was scared and really unsure if I wanted to have an abortion. He asked me to sit down and showed me pictures of his family that he had on his desk. He said, "My children were planned pregnancies and they have a good life. You would not want to bring an unplanned pregnancy into the world. You can always have more children when you are ready." He performed the abortion. I bled for several weeks after the abortion, but never returned for a follow-up visit.

5) How has your abortion affected you?

I got married a year after my second abortion. Within a year after I got married, we decided to have children. I had a hard time getting pregnant and my first pregnancy ended in miscarriage. I was able to get pregnant again within 4 months after that miscarriage. I had a very difficult pregnancy. At the end of my 26th week of pregnancy, my water broke. My son Elisha was born by emergency c-section on the 1st day of my 27th week of pregnancy. He was extremely premature, was blue at birth and had underdeveloped lungs. Unbeknownst to me, the doctor who performed the abortion in 1988 had scraped excessively on the uterine wall and caused damage to my uterus, which in turn caused the placenta to adhere to the uterine wall. The placenta had grown into and through the uterus, requiring me to have emergency surgery. The medical term for this problem is called a placenta accreta. The parentologist who attended to me performed a surgery that had never been done in the United States before. He had read about the surgery which had been done in Korea. The surgery involved cutting the placenta away from the uterus and then sewing the uterus back like a baseball. As a result of the placenta problems and the premature birth, my son has brain damage (neuronal migration damage), he has cerebral palsy, he is mentally challenged and he has five different types of seizures. I followed up with the parentologist who informed me that my uterus was damaged as a result of the excess scraping that occurred to the uterine wall performed by my prior abortion. My OBGYN also confirmed this fact as well. Having a child that is disabled because of an abortion caused me to feel guilty and ashamed. It rocked my faith and devastated my self-worth. I went through a post-abortion syndrome workshop here in San Diego through Silent Voices when my son was a year old. I was able to grieve over the loss of my unborn children and receive the healing I needed. I have been assisting in teaching these workshops for the last 9 years.

6) How has your abortion affected others in your life?

I cannot have anymore children as a result of these medical problems. My husband and I attempted to get pregnant again, but I had another miscarriage and then a tubule pregnancy, requiring me to be hospitalized again to have my tube removed. Two doctors have told me that I am too high risk to carry a pregnancy to term, and that if I attempted to do so, I could die. I was informed that there was a 90% chance that a placenta accreta would occur again. These issues took its toll on my marriage. We adopted a second child, but my husband never really came to terms with having a son with a disability. He left me and my children after nine years of marriage, when my kids were 2 and 7 years old. My abortion decision has affected every person who is a part of my life and it has affected every area of my life.

7) Based on your own experiences, what would you tell a woman considering an abortion?

To think about the long term effects of what you are doing. This multi-million dollar industry does not care you. It is not possible to remove a baby from a woman's womb without having long term effects, not only physically, but emotionally. You have a living person inside of you and if you decide to kill that little child, you are going to have to live with that decision for the rest of your life. You might not be able to have anymore children as a result of this decision. Are you willing to risk that?

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

The courts maintain that abortion should be legal because it protects the rights of a woman to choose. However, the courts were not thinking about me when I made an ignorant and uninformed decision to kill my baby. The courts were not thinking about me when I was not informed of the long term effects that abortion would have on me and any potential future children. There was no social outlet or grieving process for me after I killed my baby. It certainly wasn't socially acceptable to talk about it and it's not something I was proud of. As a result of my decision, I experienced depression, guilt, shame, despair, and low self-esteem. I developed self-destructive behaviors like drug and alcohol abuse, unhealthy relationships and a dysfunctional lifestyle. I believe that the clinic should have been required to show me the sonogram of the child I was about to abort. I believe that the clinic should have been required to give me not only written, but verbal warnings about the physical dangers that may occur as a result of my abortion decision, which included sterility and prematurity of future children. I made an ignorant and uninformed choice that has deeply affected my life and the lives of my family. There are millions of lonely, deeply wounded women like me, who have been severely affected by the decision to abort their unborn children. If you care about the women, then you will make it mandatory for the clinics to give women the truth about abortion.

"I have read the above and foregoing statement and the same is true and correct."

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I went to Planned Parenthood and requested an abortion. - 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? It wasn't until I had children that I realized I had taken a life. I had brought into the lie that this would end a pregnancy but no life was involved. There's a lot of guilt and sorrow knowing you ended the life of your child just for your own convenience.
- 7) How has your abortion affected others in your life? Not that I know of.
- 8) Based on your own experiences, what would you tell a woman considering abortion? Don't do it. You will regret it for the rest of your life just because you can't see your child. It is alive, it is living and growing. Put your faith first and choose life.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? Anyone who thinks someone has the right to take someone else's life just because they have control over the situation is grossly wrong. This is as much a holocaust as what Hitler did. - 2. Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no - I was simply asked if I knew what I was doing, in those words exactly. I received no pre-treatment or post TX counseling.
- 3. Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4. Did anyone pressure you into having an abortion? no If so, who? My decision between my fiance and myself was mutual although he was not opposed nor did he urge a certain alternative.
- 5. How has your abortion affected you? It has affected me profoundly, for over twenty years. Following my abortion I suffered profound depression and a husband who had been sexually abusive and still suffers effects of this from a inability to relate to children, especially boys. I can find a hard time relating with any kind of sex or child relationships in my life, I have never conceived again, I have been physically damaged from the abortion, I experience guilt, shame, remorse.
- 6. How has your abortion affected others in your life? I am unable to maintain deep intimate relationships with men. I have a lot of material things towards my children and am often forced to defend them.
- 7. Based on your own experiences, what would you tell a woman considering an abortion? The H is profound to choose. It is the decision to murder your baby. You lose your humanity, it is an irreversible consequence following your abortion. It is not a choice, it is a mistake.
- 8. Based on your own experiences, what would you tell a court that believes abortion should be legal? That abortion hurts women. It robs them of their right to life, causing a deadness inside, liberty, by robbing them of the freedom to live their lives, as a whole. It is a happiness by which their emotional response to other addresses their future health (i.e. the breast cancer risk) and most of all robs them of the experience of loving, raising, and

BEFORE ME, the undersigned authority, on this day appeared I. H., who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

When and where did your abortion occur? 1992 - New Jersey
Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was simply asked if I knew my options?

Were you adequately informed of the consequences of abortion? NO

Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

Did anyone pressure you into having an abortion? Yes No If yes, who?

How has abortion affected you? After I had my abortion I pushed it way down inside of me. I didn't speak about it for years, it carried on over inside of me for many years not knowing where it settled from. Denial was a part of my life for a while. Through post-abortion counseling and support groups I was able to acknowledge my abortion and dedicate my child to the Lord. Christ has set me free. I no longer carry this burden. My anger has been healed.

How has your abortion affected others in your life? My children, past marriages suffered because of my anger.

Based upon your experience, what would you tell a woman considering abortion? THIS IS NOT SOMETHING YOU DECIDE TO DO SPONTANEOUSLY - THINK IT THROUGH - IT WILL AFFECT YOUR LIFE IN ONE MOMENT OR ANOTHER. WILL YOU BE ABLE TO HANDLE THAT?
Based on your own experience, what would you tell a coast that believes abortion should be legal? How do you justify taking a life God created. Abortion when you punish murderers. It is murder. You are taking a life God created.

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: the risks were minimized. It was made to sound as easy as having your teeth cleaned. No one prepared me for the emptiness, shame, & guilt a grief I would feel later.

- 8) Based on your own experiences, what would you tell a woman considering abortion? It is not a quick fix to a difficult problem. It has far-reaching consequences that you have no idea of at the time. You can never pretend you were never pregnant. THE STATE OF LOUISIANA §

My name is ELaine M. HERBERT (Print Name). My address is _____

My telephone number and e-mail address is _____ I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I am post-abortion. In 1978 I entered a relationship as a friend to a drug addict. I became pregnant. In a state of confusion I went to a close relative who assisted me to the abortion clinic to keep this problem quiet and do away with it. Little did I know how much it would destroy my life.

I became cold, angry, mean, self centered, along with depressed and emotionally unstable. No one told me this would play havoc in my life. The story is too long to write out. The pain and suffering that comes from abortion is long lasting. Abortion is not right. It is murder of a human being and it gives death to the true person affecting all who surround her.

My experience has caused much grief to others as well as myself. My hope is that the truth be acknowledged and the abortions will stop. Just recently I've decided to answer the call to stand up and speak out. My child was not given a chance to fulfill the purpose of his life here on earth because I terminated his life early. I now give him a voice by claiming in public that my decision was wrong.

- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that the life inside a woman is real and we should not hurt it because it kills a part of us. AFFIDAVIT

THE STATE OF Missouri §
COUNTY OF Platte §
§

Before me, the undersigned authority, on this day personally appeared Kimberly D. Herrell, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Kimberly D. Herrell (Print Name). My address is _____
My telephone number and e-mail address is _____

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I had an abortion at the age of 21 on Dec. 14, 1975 at the Aid for Women Clinic in Kansas City, KS. I was approximately 8 weeks along. Although being against this act, I chose to abort my child out of fear of rejection and humiliation from family and friends. I hurriedly called the father of our unborn child to tell him I was pregnant after taking a home pregnancy test. He told me to do whatever I thought would be best. I immediately and abruptly chose to abort my child.

I chose the above mentioned clinic simply because it was first on the list in the phone book and was near where I was attending college at the time. The first thing I remember is getting a sonogram, I assume to be certain I was pregnant. I remember the nurse telling me I was about 8 weeks along, but she never showed me the sonogram picture. Next, I remember a male "counselor" asking me about contraceptives. He also very briefly said that I had a choice of aborting or not, but he did not go into details regarding abortion alternatives nor did he explain the abortion procedure in detail. I was told I would be numbed from the waist down and would be given medication to make me be in a sleepy, out-of-it mode. Nothing was mentioned about dilation, suction, or curettage nor was anything ever mentioned about the emotional side effects of having an abortion. I vaguely remember being told about possible physical side effects but that is it.

Thankfully I recovered well physically with no complications. Little did I know that I would suffer emotionally and spiritually. I asked the Lord to forgive me for taking an unborn child's life, but I did not forgive myself. I stuffed all emotions and kept secret what I had done for 8 years. During this 8 year period, I harbored guilt, shame, anger, bitterness and a low self-concept. Finally through God, fellow Christian friends, therapy, and counseling, I have experienced true forgiveness and freedom in Christ. He has broken me free of all the bondage I was in.

My heart's desire is to reach out to women who are contemplating an abortion and help them to understand that not only is abortion the killing of innocent life, but it has many, many physical, emotional, and spiritual implications that they will have to continually deal with. Abortion is not just a quick fix that goes away and can be forgotten and ignored. I strongly desire for Roe vs. Wade to be overturned and as one of my 11-year-old students said, "Abortion needs to be cancelled!"

to be filled out by women who have had an abortion.

The State of Missouri
County of Platte

BEFORE ME, the undersigned authority, on this day personally appeared Kimberly D. Herrell (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Dec. 14, 1995 Aid For Women Clinic Kansas City, KS
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who?
- 5) How has your abortion affected you? for over 8 years I kept my abortion a secret from everyone except for the father of the unborn baby. I thought if I'd ignore it long enough it would just go away and I would not have to deal with any ramifications. However, it was very wrong. My abortion has played the primary role in my dealing with emotional issues like depression, guilt, shame, anger, and flashbacks of the abortion experience. I have had to seek out professional counseling, anti-depressants, and therapy.
- 6) How has your abortion affected others in your life? Now that I have begun sharing about my abortion that happened over 8 years ago, people are loving yet hate. I will tell how this terrible act has effected me so that other women can make the same choice.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? First, I would tell her to truly seek out all consequences of it and not rely on the reassurances received at an abortion clinic. I would tell her that although having an abortion might be like a quick fix, it has long-term emotional ramifications that may not surface for several years later.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court that abortion should not be made legal because it is complete murder of an unborn child and that child cannot defend him/herself on his/her own. Life is a precious gift that should not be made legal for someone to choose to take from another.

"I have read the above and foregoing statement and the same is true and correct."

I've had one thought and choice were so horrendous. My next problem was I lived in a prison for 14 years before I finally "killed my enemy" Eve. After I was named, I could keep it deep inside. I felt like the worst person in the world, no one would want to know about what I had done. I had built a wall around my heart and no one was getting past it. My prayers had a voice, tore down the walls and put me to rest. I know I got help from my pain and torture. PLEASE God for Clinic Pregnancy Centers!
- 7) How has your abortion affected others in your life? I put a rift between my older children and I. I felt like such a horrible mother.
- 8) Based upon your experience, what would you tell a woman considering abortion? God has a plan for every life. If you don't want this baby, there is someone who will accept it with a loving home and care for it as their own.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? There is no amount of money that can prepare you for the after effects of abortion. The guilt and shame are dripping to the bottom. I also wish I had a lifelong list of physicians on standby.

INGA TAYLOR HINDS

February 1, 2003

Almost thirty-two years ago, at the age of seventeen years old, I had an elective abortion. I have deeply regretted that action, and continue to grieve the loss of my baby. Clearly I am responsible for the death of my child. However, I remember calling on those who were closest to me for help in that decision. I was in my senior year of high school, and the father of our baby was in college. The father, with out any reservation in my opinion, coerced me to have an abortion. My mother also pushed her desire for an abortion as she worried "what the neighbors might think." My two closest and dearest high school classmates encouraged me to have an abortion. "Don't ruin your future" they would say to me. Upon going to the doctor to learn if I was indeed pregnant, the doctor confirmed the pregnancy, and then asked me what my plans would be. I simply stated I would be getting married and having my baby. I walked out of the doctor's office to the van where my then boyfriend was waiting for me. We began to discuss the future and that is the moment he expressed to me that he had absolutely no intentions of getting married and having our baby. My heart sank. After all, I had asked him before we made love, if anything happened would he marry me. The answer was yes. Now I was faced with the truth. From every influence of my life, I felt I had no options. I feared being put out of my home by my mother. She had already stated she was ashamed of me. My father remained silent for ours was a household where my mother made all the important decisions. He had spoken from his heart and told me he was sorry for what happened, but he was not ashamed of me. I felt so trapped. Because I was a minor, my mother had to make the arrangements at that time. She called Planned Parenthood and the date was set. We would have to fly to New York.

When we arrived at the abortion clinic my day of HORROR began. The room was full of young girls like me and older women as well. We were led in small groups to a back room and the so-called counseling began. I only remember large medical words that I did not understand were spoken. I do remember being told what was inside of me was only tissue. I now consider that information to have been an outright lie. We were told that for about five or six minutes we would have severe pain, then cramping and after that it would be over. I can recall the memory of that pain like it was yesterday. Then came the moment when I was escorted to the room where the actual abortion took place. A nurse, a woman who appeared to be in her forties, instructed me to undress into a gown, and lay on the medical table. She then gave me some kind of injection in my hip, and then my hands and legs were strapped to the bed. At that point I could no longer bear the pain of my heart, and I requested to be let go, that I had changed my mind. The nurse said it was too late for that and did not reply to my request. At that moment the physician walked in. He was a gray haired man of middle age. He did not speak one word to me. He then began to use medical instruments to suction out my baby who until that moment had been alive. I remember screaming to the top of my lungs, and the crying has

never stopped. Yes, I did stop crying in the physical sense, but my heart cries even now. I have never forgotten this special baby, and I never will. I purposed never to forgive myself. I have since reconciled the past through seeking counselling multiple times. It is as if within me is the cry of my unborn baby screaming for the right to have life. I was almost three months gestation at the time. I later learned exactly what happened during my "abortion procedure" to "remove the products of conception." I feel betrayed by all government officials who allowed this tragedy to be legal. I have regretted this horrible experience, and will do anything in my power to prevent another young or older woman from ever having to feel that she has no options for an undesired pregnancy. Legal abortion is death of a living human life in its purest form.

Not only is my cervix scarred... so in my heart. Abortion is not the answer! These babies remain within their mother with a soul connection that cannot be seen, but clearly can be heard... for a lifetime!

I have read the above and foregoing statement and the same is true and correct.

- "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:
- 1) Tell approximately when and where your abortion occurred: 1975 + 1983 + 12-12-1984 - Clinic
 - 2) Were you adequately informed of the nature and consequences of abortion, what it does? No not at all. I had no record abortion, the third one - yes, the procedure was explained, but not the consequences.
 - 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
 - 4) Did anyone pressure you into having an abortion? Yes If so, who? Myself + Parents, my sister and my friend. I regret I regret I just wanted to get on with the future. I was being a person who was still at that time.
 - 5) How has your abortion affected you? I lived in a closed community until 1980. I had to appear to have a normal life. I had to keep this secret until 1989, it had to be kept to myself. I had to live with my husband in 1989 - then I had to work to meet with the school who took the time to put together work book - my wife began to change their minds, the world had changed - as babies began to talk - people even started a church on one - I have much to say about this.
 - 6) How has your abortion affected others in your life? Yes - too much to list.
 - 7) Based on your own experience, what would you tell a woman considering an abortion? Don't do it. There are other options, and you don't have to go through the physical and financial. I feel the consequences of abortion far outweigh all the positives.
 - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Legally + Control. I believe the numbers are in and you can't see. I have seen many who have had abortions, courts do on what they see, not on the heart. Women and how their decision is made, with the abortion, had inadvertently something to do with the abortion. Many wrong decisions are made due to broken hearts.

1998

4) Did anyone pressure you into having an abortion? Yes. If so, who? The first time it was my boyfriend. I was very much in love with him. He got me pregnant, and told me he did not want, and was not ready for a baby. He was very helpful. He came up with the money, and took me to have the abortion. When he took me home, back to my mother's house, he dropped me off on the doorstep and told me he did not love me anymore, and did not want to see me again. That was the last time I had seen him. I was totally devastated. This was my first experience with love & abortion and I was so badly let down hurt.

I met my husband on my 30th birthday. We dated for 2 1/2 years before we got married. The night I met him I said I was going to marry him. A few months before we were to be married I was faced with that painful situation once again. I was pregnant. I went to my husband to be, and told him of the situation. He told me he was not ready for the responsibility of being

1999

a father. He was very adamant about that. Although "he already was" after all I was "pregnant". It really broke my heart. I don't know when I was unable to say no, that I would not have an abortion. I think maybe I was afraid I would lose him, because of what happened after my first abortion, which he knew about. So I gave in and had the abortion.

Up to this point Glenn & I were inseparable. It was a fairy tale relationship. He would stop by where I worked and drop me off. Love notes or ~~food~~ ^{EXPENSIVE THINGS} would meet - see us together when we were not holding hands or just touching each other. A match made in heaven.

After that day, of which I really remember nothing, I couldn't even tell you where he took me. I have totally blocked it out of my mind. It devastated me. A part of me died with that child. I've had feelings of suicide. My life has become a total mess.

Right after that day, I don't

2000

know exactly how long, but I had no self worth and I became promiscuous. I tried to tell my mom before I got married what I was going through, but was not able to.

As the years passed I tried to forget about things but was not able to. Little things that he would do, that most people would laugh off, would make me angry. I guess after the 23 years, my feelings had finally surfaced. Through Project Kaddel and Project Peace I realized I was not alone. My ~~buried~~ buried feelings were alive and real. I have never been a vindictive person. Through all that has happened I have always told everyone not to be judgemental on my husband. I have told my girls to respect their father. I understand his hurt and anger. I too have been hurt and angry. But I have still treated him with respect.

Now comes the painful part. He has been hurt, because I was promiscuous. He has been to. It is ok for him, "so he says" because there were no feelings involved. He has my children thinking that I am a liar. He has stopped paying bills that have my name on them.

We are getting a divorce and he is trying to win my girls over. He buys them anything they want, and lets them do anything they want.

I dislike him more & more every day. He is not the person I met 26 years ago.

I wish I had the power to go back 23 years and, change the decision that has crippled my happiness and his. I would give anything for him to understand and just be friends.

I will go on and carry the cross that has become my life. I want my girls to know I love them more than life itself.

BEFORE ME, the undersigned authority, on this day personally appeared S. M. J. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: May 1990 Fairfax Virginia
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no I was not. I was also not informed of the method that was used, how it would be done. An ultrasound was done, but I was not allowed to see the ultrasound.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? Felt pressure from family and friends, although no one said outright that I should have an abortion.
- 5) How has your abortion affected you? It has left me feeling rotten about myself, like I am unable to make good decisions and trustworthy of friendships, but I have better children. I struggle daily with low self esteem, and depression and while I am beginning to feel some healing I know that I will carry this emptiness with me always.
- 6) How has your abortion affected others in your life? I have distanced myself from friends and family because I feel unworthy of their love.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? You cannot imagine the regret you will feel afterwards, and the regret the horrible thing about abortion is that you can never undo what you did, never.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe there is a whole generation of women who have been led to and misinformed about abortion. Doctors and nurses are so willing to take your money and your child's life without protecting the facts. I never even saw an ultrasound of my baby. I believe that more abuse could have saved her life. But because the abortion doctors know the truth, they choose to "I have read the above and foregoing statement and the same is true and correct. BEFORE ME, the undersigned authority, on this day personally appeared Kathy Latch Johnson (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Nov 21, 1984, Union Ave, Memphis TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
There was no counseling - only the abortionist giving a mechanical picture of the procedure
- 3) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No. If so, who? The abortionist came into my home and she was the only person who pressured me into having an abortion. She said, "Do you know what me and the doctor will do to you?"
- 5) How has your abortion affected you?
I never had another pregnancy, it affected my relationship with my mother because she thought I was a slut. I never had a date since I had the abortion.
- 6) How has your abortion affected others in your life? Yes, my dad said I had no grand children, my mother has no grand children.
- 7) Based on your own experiences, what would you tell a woman considering an abortion?
Don't do it, it will negatively affect you mentally, physically, and emotionally. You'll never be the same again. Even with counseling you can't know for sure.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
All women should not have the right to take the life of her child. All the women I know who have had an abortion, they do not need "permission" to abort a child, with all the complications that go along with it. She must have a person to pressure to abort the child or else - it has to stop!

2007

My testimony:

I was a sophomore at a university in Mississippi when I became pregnant. My boyfriend was the first person with whom I had been sexually intimate. This was probably in 1984. I say "probably" because so much of it is a blur to me. I remember going to a facility in a neighboring city to have a pregnancy test done. Looking back, it may have been a Planned Parenthood clinic. The test came back a strong positive. I remember the lady saying that sometimes the results were weak and inconclusive, but that mine were definitely showing pregnancy. I remember I was gripped by fear. My biggest fear was facing my parents and disappointing them. I knew I would do anything to prevent them from finding out that I was pregnant and that their daughter wasn't so perfect after all.

I told my boyfriend that we were pregnant and we made a decision to terminate the pregnancy. We drove to Mobile, Alabama to a facility. I think I found it in the Yellow Pages. I don't remember hardly anything about the place, but I do remember signing in under a false name. I remember the sense that what I was doing was wrong, very wrong. On the table with my feet spread in stirrups, I remember that when I cried out from the pain of the procedure, the doctor barked at me that I was being a baby. I was crying. I had made a decision to prevent having to face my parents, to prevent me from having to feel shame before them, and yet, I didn't realize I had made a decision that would end up bringing me *decades* of shame and pain. I had bought into a lie. I had bought into a convenient solution and thought I'd simply be able to forget and put it behind me, but I never did, and in many ways, I never will. I remember being curled up in a fetal position on the drive home. There was no going back. It was done. It was over (or so I thought).

For twenty years, I kept the abortion a secret. I came to Christ about five years later, at 24, and knew I was forgiven of the sin and was so grateful for the unmerited grace extended to me by Jesus. I vowed I would never repeat such an act and I never have. I mourned the baby and believe it was a boy. I prayed for him and released him to the Lord. I know this innocent, precious one is with his maker and that I'll meet him someday.

In the fall of 2002, my husband and I miscarried, and I revealed to him about the abortion that had occurred when I was in my late teens. I was so humiliated to have to reveal such a thing to him. It took all the courage I could muster to tell him. I have come to realize this past year that satan has used shame and my prideful desire to want to be viewed in a certain light, to keep me in bondage. I am breaking his power over me, no matter what it ends up meaning to my reputation. I contacted my college boyfriend after all these years and we openly talked about the abortion. It was very healing for me, as we both confessed it had been a wrong decision. Slowly, I have begun to share my story with my closest friends and have been received with amazing grace and love.

I now know that through my silence, I have stood by and endorsed the shedding of innocent blood in our nation and around the world. I wear a red "LIFE" bracelet as an outward demonstration that I stand against abortion. By submitting this affidavit testimony, I am making myself available to the Lord, to be used however He sees fit, no matter what that entails. I can be silent no more.

Answers to other questions:

No, I do not remember being adequately informed about the abortion, its consequences, how it terminates a pregnancy, nor do I remember being recommended options -- only the "easy" way out.

No, I was not informed about the link between abortion and breast cancer. No, I have never had breast cancer.

No, I was not pressured into having the abortion. While my boyfriend made the decision with me, I do not hold him responsible. I could have chosen LIFE and did not.

I would tell a woman considering an abortion that the after-effects of killing your child are with you long after the procedure. I would share my testimony with her and tell her it's simply not worth the regret she'll feel the rest of her life.

I would tell the judicial system that abortion violates human rights -- those of the baby who cannot speak for itself. I would tell the court that abortion tears away at the sanctity of life and that its effects bleed over onto our society across all levels. I don't know how much they would understand it, but I would tell them that there will be a day of reckoning! Father will avenge the blood that has been shed. We can stand with Him or against Him. As for me, I stand for LIFE.

- 1) Tell approximately when and where your abortion occurred: APRIL 21, 2001 IN CHARLOTTE, NC
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO. THE ONLY "SO CALLED" COUNSELING I WAS OFFERED WAS A QUESTION, "ARE YOU SURE YOU WANT TO DO THIS?" NEVER EXPLAINING EXACTLY WHAT IT WAS I WAS BRING UP ABOUT TO DO.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? THE DEVIL RECEIVED ME, AND I ~~WAS~~ RAN INTO HIS LIES. NO ONE THAT I KNOW PERSONALLY.
- 5) How has your abortion affected you? IT HAS DEFINITELY TAKEN A TOLL ON MY LIFE AND CURRENT RELATIONSHIP. IMMEDIATELY AFTER THE PROCEDURE I FELT LIKE MY WHOLE LIFE WAS TURNED UPSIDE DOWN. I STOPPED GOING TO CHURCH, ASKING OF WHAT I HAD DONE AND HOW I COULD GET TIME FROM GOD. I WAS DEJECTED A LOT. I TRIED TO SUICIDE MYSELF AND WAS NOT CONCERNED WITH MY APPEARANCE. I FELT LIKE I DID NOT DESERVE TO LIVE AND REGRETTING MY DECISION MADE ME WANT TO JOIN MY CHILD. I WAS BATTERED.

- 7) Based on your own experiences, what would you tell a woman considering an abortion? I WOULD REFER HER TO THE BIBLE - THE WORD. ADVISING GOD TO PUNISH TO HER HIS VIEW OF WHOSE LIFE BEING. ISAIAH 49:13, HEBREAN 12:5, PSALM 111:10-12 & LUKE 11:21-22. I WOULD TRY TO EDUCATE THEM ON THE ROLE OF A WOMAN AS THE NURTURER, ASSUMING THEM TO PROTECT THE ROLE OF THEIR MEN OR DEPENDER.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I WOULD INFORM THEM THAT MURDER IS WRONG, REGARDLESS OF WHERE SOMEBODY IS IN THE DEVELOPMENTAL PROCESS. (IS. HAVE CHILD ASSISTANT, ADULT) THEY HAVE RIGHTS AS A HUMAN BEING - LIFE BEGINS IN THE WOMAN! ONCE AN EGG HAS BEEN FERTILIZED PREGNANCY BEGINS AND TO TERMINATE THAT CHILD/ HUMAN'S LIFE IS WRONG. SHEDDING INNOCENT BLOOD IS AGAINST GOD'S PLAN.

My mother died when I was about 8 years old from suicide. I was raised Catholic. About age 12 I went to a Billy Graham Crusade & was saved. I never went further with my Christian walk since salvation was not part of the Catholic teaching & my father wouldn't allow me to go to Christian church. I guess I was still searching for fulfillment. My dad remarried & I have 7 sisters & 2 brothers. A few of my older sisters got pregnant & had their children before they were 20 years old. I got pregnant at age 17 & 19 - abortions. I developed an eating disorder & started to drink wine. I've been in abusive marriage, a few other unhealthy relationships. I did become a nurse but I continued to drink wine & cont. in my eating disorder. I've had 1 nervous breakdown & was committed to a mental hospital for about 6 weeks around age 28. I'm 44 years old. - 1) Tell approximately when and where your abortion occurred: Atlantic City NJ, Jan '76, Church '79 - Paoli, PA.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I knew the procedures being done - what they were. I was not informed of the consequences of abortion either times.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? no If so, who?
- 5) How has your abortion affected you? I still have feelings of shame & guilt. It wasn't until recently that I confided in a woman at our church who volunteered at a crisis pregnancy center & told her story on National Right to Life Day during a church service. None of our church members knew about my abortion except my husband who was the father of both babies. I know God has forgiven me, but I don't think I've forgiven myself.
- 6) How has your abortion affected others in your life? My husband & I rarely speak of them. I feel he has forgiven. I don't think he was not as affected by them as I was. He has read through a Father's healing Bible study book, maybe that helped him also.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Not to have it. There are other options that are life giving - not life taking. To have to live with the fact that I have never asked 2 babies whether they're on my soul, especially to teenagers, I say, it's not the answer. It's not the solution. It's death.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Ask the mother who has had a miscarriage what she lost - A baby or her future. Ask the woman who is infertile what she longs for - to feel the life growing within her or at least work. Ask the woman who has had an abortion what she feels like after her baby's life has been taken from her womb, and you will clearly see that abortion is not the answer. It's just a cover-up - a quick fix - a lie straight from hell that destroys lives - Those of the baby, the mother, the father & the family. 1) Tell approximately when and where your abortion occurred: 1985, Orlando, FL

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I do not believe so.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? Absolutely not. No, I do not have breast cancer.

4) Did anyone pressure you into having an abortion? If so, who? Yes. My boyfriend. Several months later he became my husband. I became pregnant again & we had to have another abortion. We then got divorced.

5) How has your abortion affected you?
I am so sad that I murdered my child. I know that God has forgiven me, but sometimes I wonder if I'll ever forgive myself. I remember the sounds & the pain of the death of my child. It's horrid. I remember the voices of the people outside the clinic calling me a baby killer. As a Christian now, I hope to never be that judge or anyone.

6) How has your abortion affected others in your life? I have kept this to myself for 20 years, ashamed of what I've done. My ex-husband has never felt any remorse. My daughter (15) does not know.

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that it's easy to go into the clinic - but the ~~whole~~ procedure is painful - spiritually & emotionally. It's wrong. It's death that child cries out - don't mommy. I tried to get to back out but was semi-conscious & couldn't - the procedure had already begun.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? NO way should this be legal! That is a living human being! It's murder. Just as much as murdering a 1 year child. ~~It's not pain~~ The child feels pain. I know that child feels pain. It is not birth control.

Yes, women should have control of their own bodies. However, that child has it's own body & no voice to speak out at this point.

4. Did anyone pressure you into having an abortion? Kind of If so, who? boyfriend
5. How has your abortion affected you? Severe depression for 10 years which has converted into permanent mental illness (manic depression)
6. How has your abortion affected others in your life? Marriage since abortion has been pretty much destroyed by resulting mental illness

8. Based on your own experiences, what would you tell a court that believes abortion should be legal? ABORTION IS LIKE GIVING SOMEONE A FIREARM AND ENCOURAGING THEM TO SHOOT EVERY UNBORN CHILD THEY WANT TO. THE LAW NEEDS TO BE CHANGED SO ABORTION IS NO LONGER LEGAL.

AFFIDAVIT

To be filled out by women who have had an abortion.

The State of Florida *was changed* P.S. On a positive note, what man intimidated me
County of Lake Sumter *quit, and used for good. Since 1989, I've volunteered*
at the Pregnancy Care Center in Leesburg, FL. This past
November, I became the Director. I also do post-
abortion counseling.

BEFORE ME, the undersigned authority, on this day personally appeared Wanda Kohn (Print Name),
who, being me duly sworn, upon oath, stated the following facts:

- "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:
- 1) Tell when and where your abortion occurred: Family Planning Clinic, Clearwater FL
(Not exact name)
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? Not sure, not explain.
 - 3) Were you adequately informed of the consequences of abortion? No - *Noted my baby's development or of possible emotional problems, and physical risks (what I can remember)*
 - 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
 - 5) Did anyone pressure you into having an abortion? No If so, who?
(No one knew but my best friend & my sister)
 - 6) How has your abortion affected you? Procrastinate, low self-esteem, I never had any other children, not directly because of my abortion but indirectly (consequences of marriage, etc.) *etc. hardened me*
 - 7) How has your abortion affected others in your life? (First + second) *My husband and my two boys because of the wrong I had done in my life. It drove me away from my (1st husband) (father of my aborted baby) so there is no award because we would have a husband - a husband (advised by) cause of life.*
 - 8) Based on your own experiences, what would you tell a woman considering an abortion?
It's not a "quick fix". It won't ever be "right" info. It's totally against God's will. God can't forgive if you repent but there are still some serious consequences to pay. Even though it may seem better than a life-long decision for your baby, just after that is to regret it when you do it. God will be there.
 - 9) Based on your own experiences, what would you tell a court that believes abortion should be legal?
Courts should not have legalized abortion (the taking of a life). It goes against what a court should represent: protection for the innocent. They have to come wise in their own eyes (parables). That is a very scary position for them to be in. We made the mistake once - slavery, how could we make the same mistake a

upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowl-
of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

1. you and where did your abortion occur? Approximately 21 years ago in Harrisburg Hospital

2. you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No. If no, explain: I tried to ask the abortionist questions, I remember him asking about this was a waste of time for him. I was in a desperate - I don't know??

3. you adequately informed of the consequences of abortion? No information at all - even when in the last moments before the abortion

4. you informed of any link between abortion and breast cancer? Yes No. Have you had breast cancer? Yes No

5. anyone pressure you into having an abortion? Yes No. If yes, who? I was not told anything either way has abortion affected you? Before getting help I really thought I was worthless. When I look back the moment I woke up after the abortion it was the closest feeling to being rejected. I'm not sure why there was such a physical emotional realization it was like there was a bond of a three or primal instinct that had been interrupted. I layed there (hospital room) a doctor called asking dad to take me there are really no words or a short way to explain what a - gony it is. I just knew even though I've gotten help I will not recover fully. Abortion is a tragedy that claims the life of a person.

6. has your abortion affected others in your life? My loss of self hurt all my relationships. My children had to deal with my thoughts of suicide, depression.

7. upon your experience, what would you tell a woman considering abortion? I would tell them whose decision it is. Knowing more than one side I would try and educate her about the reality of abortion, about the child and herself. On your own experience, what would you tell a court that believes abortion should be legal? I would tell them that what's going on is a mass neglect to any thing that's ever happened in our world's history. Photos & testimony - they would have to see the mutilated bodies, also scientific evidence, these are facts not emotions.

BEFORE ME, the undersigned authority, on this day personally appeared Tammy M. King (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Abortion Choice Clinic, Elizabethton Tennessee, 1991
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Kind of but not really. I had to watch a video prior to the procedure. No one told me about going into depression or the pain from the procedure, and I think that gave me birth control pills
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? no If so, who? _____
- 6) How has your abortion affected you? After I had my abortion, I became depressed and suicidal. I have regretted having an abortion. I have been condemned about having an abortion because I have always wanted a child and gave the only opportunity I had to have a child up. I have felt ashamed that I took a baby's life. My thoughts in the past have been I want to be married and have a family but because I had an abortion I will never be able to have kids. If I would have known then what I know now I would have not had an abortion. God will provide.
- 7) How has your abortion affected others in your life? It hasn't because not many people know that I have had a abortion. I have been ashamed of the fact. The dad did not know at first.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Not to consider it at all. That God is their provider and he will make a way and that eventually having an abortion will heart hurt that having an abortion can lead to depression.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That legalizing abortion has opened doors for men that do not want the responsibility of a child to talk women into aborting a child. It also allows women that think they cannot provide for a child an easy way out when adoption is better than the regrets of having an abortion.

2022

hours before what they call "the procedure" began. The waiting was like nothing I had ever experienced, precisely because it was all "nothing." The waiting was a void filled with chaos. I still remember the faces of the women in the waiting room- numb, lifeless, afraid, and some were openly weeping. Based on what I now know, those women could still look like that today, their eyes vacant, their ability to feel anything deeply, anesthetized. And all these years later I still vividly remember how I was treated- like the baby I was carrying. I was something to be removed and done away with. Not one person, from the receptionist, to the counselor, the nurse's assistant, to the doctor himself, had my (or any other patient's) best interest at heart. More, not one of them even made an attempt to appear to care. Thinking back on the experience it occurred to me strange that that waiting room should be so full on a weekday. There might have been from 75-125 women with "others" at that Family Planning Clinic. And strange, too, to call a place that doesn't let families become families a Family Planning Clinic! I've since thought about the hypocrisy of a medical system that fights to birth some babies despite all odds, while all the time killing so many others.

The "procedure" didn't take long, once I was in the room and the valium had taken effect, but it seemed like a week. The smell was different than a doctor's office. And there were noises more like vacuum cleaners than medical equipment. The nurse replied to my inquiry about the sound, "Don't worry, honey, that's just how we extract the tissue. It will be over before you know it." That weekend when he and I were having dinner at a favorite Mexican restaurant I began to weep, not because of anything we were talking about, but because I knew, I KNEW, what I had done. He looked at me like I was stupid, and tried to comfort me with something like, "It was the only choice. It was the best thing. Your health couldn't take it. You'll feel better soon," which only made me cry more.

I started driving 35 miles one way on Sundays to the Church I'd been brought up in. There was a female priest who spoke with me about the near death experience, the abortion, things spiritual, and my cohabitation with my lover. I will never forget her pointed questions, her ability to set a direction to seek that my hunger might be fulfilled. I'll never forget that Mary knew what I needed and sought, and helped me (eventually) reach Him. It was the beginning of a long "seeking" that would end exactly four years later.

In 1989 I left that live-in lover after a very promiscuous, alcohol and drug indulgent six-month period while working over spring and summer in another state. I had a history of drug and alcohol abuse that had seemed to increase following that 1987 abortion, and the people with whom I'd become friendly out-of-state seemed to proliferate that. In September of 1989 I missed a cycle. This time I recognized the signals my body was sending. It seems I had conceived in July. Compounded by the fact I didn't know which of four men was the father was the awareness of the harm alcohol and drugs would have on that baby. I didn't have to think a great deal about what I would do. This time the "termination of pregnancy" took place in October at a small doctor's office 5 minutes from my apartment. A startling thing occurred, and it may have happened in 1987 as well, I do not know. When then physician said the procedure was complete, he and the nurse, in quiet tones, began speaking about a report, and I heard, "Fingers?" "Ten," was the reply. "Toes?" Again, "Ten." I instantly felt the need to leave the room to vacate my stomach of its contents as I thoroughly understood that the baby girl I would come to call Sarah was, to them, only a matter of counting and reporting all the body parts correctly to preclude any potential lawsuit. Try to imagine a job where you count the severed and mashed remains of an infant human!!! Sarah would have been born around 30 April and would have been 14 this year of 2004.

2023

In two years I had two abortions. In two years I was so numb from both the pain and the drugs I saw no point in living. In October 1990, as a broken woman, alone on my knees I accepted Jesus Christ at His Word, and asked forgiveness. In October of 1990 my seeking, soul-seared heart finally found the peace that had so eluded it. Only a GOD who knows the end from the beginning could have orchestrated the fact that this was on the exact anniversary, the very same day, of that October 1986 day when conception of the child I've come to know as David took place. He would be 17 this July 26 (or so), which is also my birthday. October is a strange month, now; a month where life began in David, and where the life of Sarah was snuffed out and a month where I received new life and died to the old life. I love October, now.

It was only after I became involved (in an almost militant way) in crisis pregnancy counseling I discovered other women had suffered silently in horror as I had. A post-abortion Bible study called "Women in Ramah" brought me to a realization that if GOD could forgive and had forgiven me, I needed to forgive myself in order to do whatever He called me to. It came in waves over the years that full and complete healing.

In the seventeen years post abortion, I've listened to tens of women, perhaps hundreds, with whom I share part or all of one of the most painful, secret, damaging, and disabling of human traumas, and one we actually choose, believing "they" wouldn't want to harm us.

Does anyone else think it is ludicrous that humans seem to be the only order of species that rip their unborn out of the womb for slaughter? And the only beings who think it is right to do that?

In all of Israel, four days before the Passover, each family brought a lamb into the home for four days of inspection prior to it being offered as a sacrifice. In her ancient days, before the Temple was destroyed, millions of families lived in the Land. If each family in Israel brought one lamb for sacrifice, the amount of blood that would spill over the Temple Altar... How much innocent blood has abortion shed in both the blood of the unborn and the blood of the mothers who could not continue in the pain and took their lives at their own hands? How much innocent blood has been shed by the women who have died on the table of the abortionist, or of "complications" following that "procedure" that, by law, cannot be attributed to the abortion?

Abortion is not good for the unborn. Abortion is not good for women. Abortion is not good for this nation.

For each one of the 44 million unborn who has been brutally ripped apart in the wombs of their mothers we weep. For each of the aborted mothers who know something is wrong, who cries silently in the night, who looks for comfort, whose arms long for a child they will not hold, we weep. For those women who will be faced with the decision of abortion in the days until *Roe v. Wade* is overturned, we weep. For Norma McCorvey and Sandra Cano, who lived for years in silent pain and now are free in Christ, we wept and no longer weep. For Norma and Sandra who in their courage have come forward to ask the courts to change a "right" which has never been either right or a [Constitutional!] Law, we rejoice. For the justices who will decide justice in this matter, we pray, for they have an opportunity to right an injustice of 31 years, a chance to . May they seek the women in their lives, the women at crisis pregnancy centers, the women who have served in abortion mills and seen the destruction, for wise counsel. And may they seek the Creator to restore that unalienable right to life, for both women and their unborn.

- 1) Tell when and where your abortion occurred: May, 1999 Planned Parenthood, Little Rock, ARK.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: I was told it would be a quick procedure, little sting & hear some noise like a vacuum. They said I should have no side effects & be able to return to work after couple of days.
- 3) Were you adequately informed of the consequences of abortion? None whatsoever!
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes (husband) Family If so, who? Doctors - I was being treated with experimental drug for a tumor on my bladder when I became pregnant. Doctors said I could die or my baby might be a monster and I would blame myself for not living to see a 3 yr old son.
- 6) How has your abortion affected you? For twelve years I couldn't even say the word. Not only emotionally trying to deal with it, but immediately afterwards I bled extensively from parts left inside of me.
- 7) How has your abortion affected others in your life? My husband & father of our baby has suffered emotional pain also. My family members who knew about the doctors recommendation and supported the decision have all had to deal with various emotional aspects.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion kills a human being, even if the mother's life is in danger and she chooses abortion, someone dies. When a mother takes the life of her own child, there is no escaping the psychological trauma that occurs.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Making abortion legal ~~causes~~ easier access to abortionists, whereas some women would not break the law if it were illegal.

 - 4) Did anyone pressure you into having an abortion? Yes (If so, who) The doctor and my mother. But I also was given false info to encourage me to go through with it. I got pregnant as a result of rape.
 - 5) How has your abortion affected you? It has caused depression, guilt, and a lot of shame and embarrassment. As I got older it became more and more evident to me that I made a horrible mistake. Now that I'm older I don't believe the fact that the father was on drugs and it would cause the baby to be deformed. I was not on drugs.
 - 6) How has your abortion affected others in your life? I'm not sure if the abortion has directly affected others in my life, but probably has affected how I relate to them.
 - 7) Based on your own experiences, what would you tell a woman considering an abortion? DO NOT DO IT. A mother is supposed to protect her baby - Not kill it while it may seem ok at the moment you will regret it later. Think about what exactly you are doing and why.
 - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be made legal for anyone wanting one. My personal feelings are that it should not be done under any circumstances. If it is a situation that the mother will die if she carries the baby then maybe in this case. But otherwise - It is not fair to sentence an innocent baby to death because the parents decide it is to inconvenient to deal with. Call it what you want - It is a baby. The baby did not make the mistake.

1) When and where did your abortion occur? July 2000 in Toronto, Ontario, Canada

3) Were you adequately informed of the consequences of abortion? yes

4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

5) Did anyone pressure you into having an abortion? Yes No If yes, who? Husband

6) How has abortion affected you? Whenever I think about it, I feel sick a most times cry. I am now worried about the risk of breast cancer. I think about that child almost daily. I feel guilty of dirty. I have pain some times during intercourse.

7) How has your abortion affected others in your life? There are times when I withdraw from them and is hurtful to them. I rob my parents of a grandchild.

8) Based upon your experience, what would you tell a woman considering abortion? Don't do it. Don't take that child's right to a life away - it will affect you in ways you can never imagine.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? I don't understand how any court system that believes taking a gun & blowing someone's brains out is a crim could say that it's ok to murder babies. We are saying that adults or children that have been born are more important than an unborn child.

BEFORE ME, the undersigned authority, on this day personally appeared Melissa M. LATURO (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

April 1996, Ft. Lauderdale Florida

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No. I hear some vague details. I heard there was a movie, but was not shown it.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No. No

4) Did anyone pressure you into having an abortion? If so, who?

No

5) How has your abortion affected you?

I feel like a murderer. It affects me daily. I look at the children I have now and am sad that they will never know their older sibling. I cry about the loss of my child at least once a month, usually more. It's the most horrible thing I've ever done and I often hate myself. I do

6) How has your abortion affected others in your life?

My husband who was the father of our unborn baby, before we married, also grieves. I know it has had a great impact on him too because we have cried together about our baby.

7) Based on your own experiences, what would you tell a woman considering an abortion?

You will hate yourself for the rest of your life. It's murder. I feel like a murderer and you will too. That precious soul will linger around you forever and you will know who it is. It is one thing that you will never forget and always regret. That tiny fetus is a life!

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I AM A BABY THAT COULD HAVE BEEN AN ABORTION. My mother was too young to care for me and gave me up for adoption. She was strong and did the noble thing. I was weak and afraid. I am now a murderer running around free. My baby's soul follows me everywhere and I hate that I can't hold her and watch her grow up.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? In 1997 at a clinic in Tampa, Florida
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: It was never explained to me that at 12 days my child's heart had begun to beat or that I may have an increased chance of breast cancer due to my choice
- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? _____
- 6) How has abortion affected you? For years my abortion decision led me down a self-destructive path even until the point of wanting to die. I went from an honor roll student in high school to a drug addict. I suffered from depression, anxiety, guilt, regret, and didn't just to name a few. It was not until I discovered that the abortion was amniotic that I was actually able to begin the healing process. I had to be able to grieve the loss of my unborn child in a society that had convinced me that it was just a piece of tissue.
- 7) How has your abortion affected others in your life? It brings sadness to those around me. Sadness for the pain I have suffered. Sadness for those who believe in abortion that they will never know.
- 8) Based upon your experience, what would you tell a woman considering abortion? I would tell her that she will regret the decision to abort for the rest of her life. I would also tell her of the physical, emotional, spiritual, and mental anguish that would result of her abortion. I would also warn her of the physical complications she may encounter or a future breast cancer, infertility, etc.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the court that abortion is murder and that it hurts women. I would tell them that a woman's choice comes when she decides to be sexually active. The child is only the consequence of her choice. I would tell them that a child becomes more than a piece of tissue from the moment of conception.

Affidavit

The State of Texas §
County of Tarrant §

BEFORE ME, the undersigned authority, on this day personally appeared Carole LaFreniere, who being by me duly sworn, upon oath, stated the following facts:
"I am over the age eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In 1973, I was 15, pregnant and scared. I was terrified of my friends and family finding out so I ran away from home to California where I had an abortion. Nobody at the clinic offered suggestions or offered any options. I didn't know that there were people who would have helped me. I felt trapped and scared and just wanted a way out of my problems. I made the decision to have an abortion without any real knowledge of what I was doing.

After the abortion, I felt so alone, ashamed and evil. I cried and cried for the baby I killed. I hated myself and wanted to die. I turned to drugs to kill the pain, and kept myself numb so I wouldn't have to think. I had terrible nightmares and took wild risks with my life.

I became addicted to heroin, and got involved in the lifestyle that goes with it. I tried to kill myself twice. I put myself in dangerous situations because I didn't care what happen to me. I believed that I deserved to suffer. My life became a nightmare. I grew to hate men, I was bitter and angry. I became pregnant again 8 months later and had another abortion. Shortly after the 2nd abortion I was arrested as a run-away and sent home. The courts placed me in a drug treatment center. I never was able to bring myself to admit to my abortions and seek counseling for the guilt and anger. But I did manage to turn my life around and finish high school and start college.

I became a supporter of the right to choose. I supported abortion on demand, recommended it to friends, voted for it, but never mentioned mine. In my heart, every time somebody choose abortion or backed it, I felt vindicated. If everyone was doing it, then I wasn't a monster. I never could bring myself tell anyone what I did. I kept my silence for over 22 years. I married, had two children, yet I couldn't tell anyone. My past crippled my ability to be a good mother. I was emotionally distant from my daughters. I suffered from depression and had big time trust issues with my husband.

Abortion cost me more than I ever dreamed was possible to pay. Abortion hurt me, my living children and my husband. It drove a wedge in my relationship with my parents. It kept me from God and forgiveness

After 30 years, I still cry for the children I killed, I still struggle with issues of forgiveness and guilt. I don't want anyone else to feel the way I have. I was too young to make such a decision without knowing the cost or all the facts. I needed someone who cared about me, not about making a profit. With all the things I have done in my life, I am the most ashamed and sorry for my abortions. The other things I did to myself, but the abortions I did to my children. Abortion destroys women.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: January 1974 - Washington D.C.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely NOT. All they said was that I'd experience "discomfort & cramping" I was told that it was "not yet a baby" and that it would "be over" in just a few minutes.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? I have experienced extraordinary guilt, shame, emotional pain, low self-esteem, depression, sudden crying outbursts when I was reminded of the abortion, have remembered minute details about abortion followed my aborted child's birthdays (age), suffered from extreme sorrow and sadness & regret. Low self-esteem caused me to choose abusive men to have relationships with - 2 failed marriages - both abusive, sexually withdrawn from both husbands. In my mind, sex = trouble.
- 6) How has your abortion affected others in your life? My husbands didn't appreciate my father toward sex. Oldest daughter & her husband are very active in pro-life movement. She was devastated when I told her. I haven't worked up the nerve to tell my 10-year-old.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Do anything else but DON'T HAVE AN ABORTION! Any life choice will be a better choice. You'll regret it all your life. You don't know if you'll have any other children. Abortion has killed women physically, emotionally, mentally, & spiritually.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder. Abortion should not be legal any more than slavery should be legal. The mother does not own the child she's carrying. They have different DNA. Unplanned pregnancy is not the child's fault. Parents need to take responsibility for their actions - their choices, life begins the moment of conception & every mother knows it in her heart which is why abortion has such a devastating effect on women.

- 1) When and where did your abortion occur? (2) Approximately 1979 or so, and 1987 - Denver, CO
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I would have been more informed if I had had more information and the fact that the fetus is a baby with a heartbeat and brain waves, not a blob of tissue. I also was not informed I would have to have some surgery and I would have some anesthesia.
- 3) Were you adequately informed of the consequences of abortion? Yes - the only thing I got the physical damage to my uterus, but I was told some women may experience some depression.
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who? My partner at that time.
- 6) How has abortion affected you? It has changed my life, feeling because my partner was assaulted by a woman who was a nurse, and he was a family member, and I believe that these complications were caused by my having an abortion. The doctors at that time, they were not informed that they were not supposed to have the fetus, and I believe that they were not informed that they were not supposed to have the fetus, and I believe that they were not informed that they were not supposed to have the fetus.
- 7) How has your abortion affected others in your life? Abortion was the spark that broke the woman's back for the relationship I was in at the time. It also started my journey out of a great relationship.
- 8) Based upon your experience, what would you tell a woman considering abortion? and my feelings and thoughts on abortion? Abortion is not a "quick fix" or any other thing that you can do to solve your problems and the effects of it last a lifetime. It can be a very serious decision when you have to live with it.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is an emotional act; it causes physical, emotional, and psychological damage. It is not healthy in the long run, and it takes the life of the baby. Moral issues exist, just because it is legal does not make it right.

DIFFURE MIL, the undersigned authority, on this day personally appeared C. B.L. (NAME), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: (S)

- 1) Tell approximately when and where your abortion occurred: New York City, N.Y., 1972
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. Not ~~at~~ all. No one along the way spoke of these things. No one call me a mother or the baby (anything). No one encouraged me to reconsider, or wait.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES If so, who? The father of the baby.
- 5) How has your abortion affected you? It brought deep depression and fear. Eleven years later I came to know the truth etched in Scripture. "Come unto me, all ye that labour and are heavy laden, and I will give you rest." (Matt. 11:28) It was a tremendous relief to have forgiveness from God in Christ Jesus. By then I had become sterile from PID, suffered a breakdown of my back health, and felt the family dog was more worthy of common courtesy than I. God has forgiven me. I must follow His lead. A total hysterectomy has followed. I fight an overcoming sense of danger in the ordinary situations of daily life.
- 6) How has your abortion affected others in your life? I have built up walls to stay away from them: to protect both me and them from the hurt.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Many things we do that look like a solution (for a perceived problem) in reality prove to be far worse than the initial dilemma. If you choose abortion, you will live out this reality all the days of your life.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? No - it is Irreversible. It breaks the heart of the mother, breaks the back (strength & personhood) of the father, and is no less barbaric than beheading of the baby. It lays a three-fold burden of guilt, shame and despair on our society.

Before me, the undersigned authority, on this day personally appeared Marie Moner Lowry, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Marie Moner Lowry _____ (Print Name).

_____. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

On September 28, 1985, I had an abortion. I terminated my pregnancy in the eighth week. Writing this is difficult because the pain of it is still so raw, it is an ache in my heart that will not ever be healed. I did not want to have an abortion. I wanted my boyfriend to accompany me while I told my parents, but he refused. He wanted me to have an abortion. Being a coward, and a very frightened eighteen-year-old, I complied. I will never forget the experience, all the little post-its thanking the staff for making the procedure as "smooth as butter." I was never told it was a baby, I was told it was a choice. During my counseling session, the counselor told me how the government was trying to take my choice about what happens to my body away from me. She elicited funds to keep abortion legal. The counseling session was more about politics than about what was going on with me. I gave my choice away when I had premarital sex. My baby was not a choice, he or she was a person. I remember while I was in the waiting room, a Mexican woman who was in this country illegally and who was visibly showing told me she had to get an abortion or her boss would fire her. When my "turn" finally came, I just remember freezing up, I went on automatic and afterwards I just felt so alone and sick and crazy. I don't think I even cried, in fact, it was years before I could cry again. My boyfriend and I got married. I sometimes hated him and I really hated myself for being such a coward. I could not even fully face what I had done. In order to cope, I became disconnected from my emotions when I murdered my baby. It was not a good marriage and I truly believe that if I had proceeded with the pregnancy, I would have never married him. My first daughter was born when we had been married a year. I thought having another baby would make it better, but the emptiness remained. After giving birth to my second daughter, I got pregnant while I was nursing her. My husband wanted me to abort the coming child because he could not handle another baby. I refused and he made it very difficult for me during that pregnancy. I have often wondered how many women are pressured into abortions? I believe there are many who are coerced. Abortion is a tool for those who seek to escape responsibility from their actions at any cost, even murder. Many men do not care about their babies or about the women who will never stop grieving for their murdered babies. The second time I was pressured to have an abortion, I refused. I knew the cost was too high, I knew that a baby was growing inside of me, not a choice. I was blessed to give birth to a precious baby boy. My marriage ended, my ex-husband never forgave me for "forcing" him to have a child he did not want. I have never regretted my choice to refuse to be coerced and thereby bringing my son into this world. They are my blessings. My daughter Jill is 17, Kaitlyn is 14, and Alex is 12. I thank my Lord for them every day. They are all incredibly good kids who love the Lord and care deeply for others. Through Jesus Christ, I have been able to forgive myself. However, I will always miss the precious little one I never got to meet. How I wish that abortion had never been an option! With three kids to support, I went on to finish college. What nonsense that a baby destroys anyone's future. How I wish I had chosen to give my baby up for adoption, pressure from my then boyfriend, my shame and fear of my parents reaction kept me from making that choice. I believe that if there had been no easy way out, I would have so gladly chosen life for my baby. Abortion is an evil thing that never goes away, there is nothing buttery about it. It is a painful, soul-tearing, life-altering decision that haunts you forever. I have remarried and my husband loves my children deeply and has adopted them. I have learned there is no situation that a Lord cannot turn to good. I would love to adopt any baby, ethnicity nor race would not be

My Story:

My story is short, I am sure there are far worse cases than mine but the outcome is the same...an unborn baby due to legal murder.

I was eighteen years old and in a relationship I should have not been in. My boyfriend suggested that I take a pregnancy test because he noticed that my period was late. I thought he was silly. I took one secretly and it came up negative so I agreed to take one with him but the results differed. I could not believe it! I took three more, all positive. He was so excited, his mom practically bronzed the test stick and the family began to rejoice. I pretended to be happy and excited, talking about shopping for baby clothes and nursery items but the whole time I knew desperately that this could not come to pass. I tried every natural remedy to "accidentally" lose the baby, I jump roped -my-legs-out hoping that would do something but it didn't. I remember sitting on my bed crying out, all alone, "there is nothing I can do but the unthinkable". I had been pro-life for as long as I can remember. I declared at a very young age I would never get an abortion, never, no matter what. But here I was, turning in the yellow pages to the front where the abortion pages were in abundance. I came from a very loving family, high-class, with a good background, and if I had decided to carry the baby they would have loved me anyway but *I never told them*. I was a good girl; I never wanted to disappoint my family. In addition to all of that I was a prominent social representative. I had given many motivational speeches all over the United States. If I was found pregnant I would have to step down. I could not bare the shame for myself or the shame for my family so I choose instead the shame that I could hide on the inside. I had an abortion and entangled myself in lies to my family, boyfriend and his family. But nobody found out, unfortunately. I say unfortunately because if someone had found out, especially from my family, even just one person then I may have not done it the second time. My boyfriend thought I was mourning over a miscarriage. I think he somehow thought that if he secretly got me pregnant again then it would make me feel better. I was trying to act normal with him even though I wanted to leave; I wanted to stop having sex. I was secretly taking birth control the second time I got pregnant and I was on my period the first time so we can carefully say that the two common methods of safe sex were not working for me, that must make me like ½ percent of women. But either way, the second time my friends (the 2 I had) abandoned me in my desperate state and I had to go in the clinic by myself and drive myself home. I used alias names the whole time to try to protect any identity I have had.

After that I was the only one that knew. I saw my friends on campus and I told them I miscarried. I told a couple of people later because when you have taken desperate measures like that you want to talk to someone but nothing helped. I had nightmares night after night, I would wake up screaming and my mom and dad would rush in to hold me but they didn't know how to comfort me because they didn't know the severity of my heart. I just pretended to be better, a lie. When a person has cornered themselves into a house of lies then you live alone. Alone. Alone.

Thank God, for grace! One year later (after the 2nd one) I dedicated my life to Jesus. Praise the Lord for the woman who prayed with me first in the alters. She laid her hand gently on my stomach and embraced me. My healing began there and continued. Now I am healed, free of guilt, free of shame but I have a voice. I did not want to write this story but God said it was the least I could do for all the other women that He has called to stand in public. I will stand with you in testimony and prayer. May the sanctity of life prevail and may we, as a nation, turn from the lie that was sent forth years ago that abortion is not murder, it is.

To the courts: Please hear our plea and stand for something refreshingly new. Life!

Thank You. A.L.

To be completed by women who have had abortions

The State of Florida
County of Broward

BEFORE ME, the undersigned authority, on this day appeared Leslie Lunak, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

- 1) When and where did your abortion occur? Miami Florida, 1980
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: I was given some papers to sign, but no one discussed with me the nature of the procedure, any attendant risks, or provided fetal development information
- 3) Were you adequately informed of the consequences of abortion? No - I was not told there were any potential consequences (may have been in the papers, but I was too rushed + distraught to read the papers)
- 4) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
- 5) Did anyone pressure you into having an abortion? Yes No If yes, who?
- 6) How has abortion affected you? In a myriad of far-reaching, unanticipated + negative ways. My abortion led to substance abuse, depression, sexual promiscuity, paranoia accompanied by an inability to really enjoy sex or relate to others on an intimate level, unresolved anger, guilt, shame, regret, low self-esteem. I also had placenta previa in a subsequent pregnancy; the incidence of this is much higher among post-abortive women.

- 7) How has your abortion affected others in your life? my marriage in my inability to be intimate; my children by unresolved anger; my parents - their grandchild was a toddler
- 8) Based upon your experience, what would you tell a woman considering abortion? that abortion is never the only choice (which I thought it was), that there are many other viable (though not as options, and that in the long run abortion is never the best choice for
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? An unborn child (or fetus if you prefer) is scientifically, undeniably, both human + alive. It is simply wrong to take that life, even in very difficult circumstances. Not only is abortion not good for unborn children, it has far-reaching negative consequences for women as well. Abortion is not good for women. Some choices have words.

 - 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Consider the alternatives and the consequences of this decision because it not only affects you but it affects everyone in your life, especially your unborn child. You can't take it back once its gone and you may not regret it today but you will regret it at some point in your life.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? The pain, regret, and emotional baggage that follows this decision is enough to tell you it shouldn't be legal. The fact that its innocent and innocent laws should be enough. I have suffered the emotional, physical, and psychological repercussions of having an abortion at the age of 20. I immediately entered into a state of denial following my abortion. This allowed me to cope and was a self defense mechanism that sustained me for 14 years after the abortion. Now, at the age of 33, being a surrendered creation of Christ, the light has shone on me and I now have an awareness of my self destructive behavior. The intense weight gain, alcoholism, lack of self worth, social promiscuity, compulsivity, the over spend money depression, and anger were all consequences of my sin. I suffered for 14 years after the abortion and was completely unaware that I was trying to ~~compensate~~ compensate for the loss of my child by indulging in self-destructive patterns. Before me, the undersigned authority, on this day personally appeared LISA MARIE MATAS, who, being by me duly sworn, upon oath, stated the following facts:

"My name is LISA MARIE MATAS. My address is . . . I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

"I lived in Millbrae, California, in an upper middle class family where I am the youngest of five. My father was an immigrant from Italy so we were staunch Catholic. When I was twelve years old, my mother developed breast cancer. At that time, I was a straight-A, pro-life, star student. I was pro-life because I would see pictures of babies and wonder who could kill a baby. When we found out about Mom's breast cancer, the family just started going different ways. I started partying and hanging out with the wrong crowds. I wanted to be accepted by my peers and not be considered a nerd. I wanted to talk to my mother about what was going on in my life but my father would not let me talk to her telling me she did not need to hear about my problems especially with the battle she was going through."

"By the time I turned 14, my mother was in wheelchair. My mother used to be a model and she was no where close to the way she used to look. She had lost her hair because of the chemotherapy and was taking steroids which caused her to have swelling. Of course, I was sleeping around and got pregnant. I did not tell my father partially because I was in denial. I kept wondering when I would be getting my period. I started experiencing aching and went to the family doctor, Dr. Donald Odone, hoping that I was not pregnant. I told the doctor my hip was hurting so he sent me to X-rays. The X-ray tech asked me if there was any chance of me being pregnant and I said I don't know. So they did a pregnancy test and it was positive. Dr. Odone was really a mean doctor and he started yelling at me that he was going to tell my dad. I plead with him not to do it but he said he had to because I was a child and he was legally responsible. I decided to run away for a couple of days and I finally talked to my father by telephone. Dad insisted that I have an abortion. I didn't want to and told him that he knew I was pro-life. It kind of surprised me that he would tell me that I needed to have an abortion since I knew he was pro-life. I later found out that Dr. Odone had coerced and convinced Dad that I should have the abortion. He told him that all his kids were bad. Of course, dad's life was falling apart. My father did not know how to deal with problems. He was from the old country and all he knew to do was work. The doctor told him he would ruin my life if he would let me have this child. I had the abortion at Peninsula Hospital, in Burlingame, California. It was scheduled as a DNC. I think I was maybe five months. It was about 1976 or 1977. I was lying on the guerne and my dad was standing over me and he started to cry. I asked him, "What is it?" My father was a very powerful and highly educated man. To see him crying was unheard of. He answered me by saying it is really different when its one of your own and it is really hard to know what to do. So I asked, "Dad are you pro-life?" He nodded yes. As they were wheeling

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

me away, I asked him, "Then why are you doing this?" He responded saying, "I don't know what else to do." The young man that wheeled me into the operating room was a student from the high school I attended and needless to say, the whole school found out about it. My father was victimized and I was victimized all because the doctor bullied us into it. I had the abortion."

"I was kid with a lot of emotional problems and started going out again almost immediately. I started having sex too soon and my body cavity got infected. I had severe pains in my stomach but I ignored it. I tried to drink it away and party it away but the pain just got worse and worse. Finally, I could not stand it any longer. The pain was like a knife. I finally realized something was extremely wrong. I had a raging fever. I told my father. I was taken to the hospital and the medical technicians freaked out. They gave me antibiotics. They gave me real tiny pills and they made me hallucinate. They would not admit me into the hospital. They sent me home. For the next two weeks, I sweated profusely. They kept me on morphine. Every time I would wake up, I would scream. I had chills, shakes, and my father called the doctor asking for stronger medication. But the doctor said there was nothing stronger. I could not eat or drink. Finally, I got better and slowly recovered. They told me that everything had been infected inside."

"After I recovered, I went back to my life but everybody knew I had dropped out of school. I kept sleeping around. Shortly after I started bleeding and had a strong ammonia odor. I went to the doctor and he said he was pretty sure I had had a miscarriage."

"By this time, my life was bad. My father did not want me in the house. I did not tell him I was pregnant again. I was given birth control but I would hit and miss the pills so I got pregnant. I told my father that I wanted to go live with my sister which he consented to. My sister put me on emergency Medi-Cal. When I went to the hospital, I told them I had already had an abortion and had had problems with a miscarriage. They didn't seem to think anything of it. They recommended that I have an abortion to which I responded I wanted to be shown what the child looked like at that stage in my pregnancy. I figured that if it looked like a blob, then it didn't matter. But if it looked like a baby (I was five months pregnant) then I would not. The nurse kept telling me that she did not have any pictures. She then told the nurse that she would go to the library. The nurse kept insisting that she had to have the abortion right away or it would be too late, that I would ruin my life. I can't remember but I believe they set it up for the next day or maybe that same day. I had another abortion and my father did not know it. This time, they did not inform my father. My sister told me I could not keep doing this and said I probably wouldn't be able to have more babies. So I decided to go get birth control. From then on, I did not get pregnant."

"My thoughts now was that abortion was not a big deal. How could it be if my father accepted it? So I became pro-choice and went on with my life. I was unsure if I could have babies. I had heard about scar tissue and knew that it would cause me to be sterile."

"At seventeen, I was living with my boyfriend. We had discussed the possibility of my getting pregnant and he said that then he would marry me. So I stopped using birth control. I got pregnant and we were very happy. We got married. I noticed that throughout the pregnancy I was bleeding and, of course, I had complications but I had my son in 1981 in the same hospital I had had the abortion, Peninsula Hospital. Everything was fine with the baby and myself. The doctor told me not to get pregnant within six months."

"But I did get pregnant and my husband said no we can't have this. He said I needed to have an abortion. I was against it but he was adamant. I then started thinking about what the doctor had advised me. So I went to Seton Hospital, in Dally City, California when I was probably in my first trimester. I had blocked this abortion out of my memory and did not remember until years later when my ex-husband (we got divorced) told me he regretted having told me to have an abortion."

"There was a lot of drugs, alcohol, confusion and sexual promiscuity. I then found the Lord and over time realized how much I had been lied to. I came to realize that what they did was wrong. I was a victim. Through the healing process I prayed and named my children. I remarried and had two more babies. Approximately nine months ago, I miscarried. All of the pregnancies I have had are accompanied by complications as far as bleeding is concerned."

"It is not a choice when you cover up the facts. It is not a choice when you are not informed of all the risks involved. I was in a crisis situation and I need to know the truth. Concealing facts, hiding major medical procedures that had already almost killed me, taxpayers paying for abortions against their wishes, this was not a choice! They gave my father and myself NO CHOICE but forced their decision on us."

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared Autumn McClain (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: April 16, 2002; Modesto, CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was told the procedure, and given a pamphlet on the possible side effects.
- 3) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 4) Did anyone pressure you into having an abortion? yes If so, who? The father of the baby.
- 5) How has your abortion affected you? I went into depression for 7 months. For awhile I couldn't even hear a vacuum without crying. Newborn babies were so hard to look at for about a year after the abortion. I became another person trying to "erase" what I had done. There are still many days where I start to cry remembering what I did.
- 6) How has your abortion affected others in your life? The father "pretends" it never happened. My family has been hurt but recovered. Somehow my mom blames herself.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Even though it seems like a quick solution to a "problem" the emotional trauma it causes is so much worse than living life with a child. Plus there's always adoption.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I've never had any physical damage, but the emotional and mental is so much more than anyone could think. My life will never be the same and I don't believe I will ever fully recover from this event in my life.

the following facts:

My name is Tracy Marvadis McCullough (Print Name). My address is _____

My telephone number and e-mail address is _____ I am over
the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have
personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the
following facts are true:

I had two abortions - one at age 19 in 1982 and the
other at age 22 in 1985. The first one I never and still
have never told my parents about due to the Shame and
disappointment I would have caused them. I also never
told the men I had been with for either abortion.

I was put to sleep for both abortions; however, for the 2nd
one when the doctor came in before the abortion ~ while the
nurse was doing the ultrasound, he looked at the screen
and then at me and said "oh look its a boy!" and the
nurse kicked him and he said "oh."

The long-term effects of guilt, grief, anxiety, depression led to
an attempted suicide in 1991. Three weeks later I became a
Christian. I also suffered for many years feeling like I
was being punished by not being able to have children.
I had a failed marriage and divorced in 1990 and when
I remarried in 1995 it took 5 years to get pregnant.

The emotional devastation after the first abortion led to
3 1/2 years of cocaine addiction and distribution. I quit
using cocaine 2 months before the 2nd abortion.

For the 2nd abortion I had been with 2 different men in
the same period of time so I didn't know who the father
was. Having to bear that grief alone only promoted
the emotional pain.

THE STATE OF MASS §
 COUNTY OF Barnstable §
 §

Before me, the undersigned authority, on this day personally appeared _____, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Jane A McNicol (Print Name). My address is _____
 My telephone number and e-mail address is _____

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I'm sharing a little bit of my story with you. I had two abortions when I was eighteen and nineteen. I had my first abortion in Mass. in 1974 and my second was in Texas or La. in 1975. It was before ultrasound. I was told my baby was just a cell and that it wasn't a baby yet, not support from the father of my first baby only to pay for it, second, didn't know the father. After the first abortion, I cut off all of my hair even my eyebrow. I began suffering from post abortion syndrome but I didn't know what it was.

At twenty I became pregnant for the third time, deciding to have my baby with or without the help of any man this time. I married him but he did mostly because I was pregnant. Soon after I had two more girls. It was years later after a hysterectomy when after losing my ability to have children, and the loss of them I went into a deep depression. My hair cutting started to resurface. The guilt troubled me so much I began cutting my hair off uncontrollably again. I was bald for over three years as my family watched me suffer running in and out of the bathroom, my girls were teenagers, it was affecting them.

I kept looking in the mirror crying out to God over and over again. Mirror, mirror on the wall, who is the ugliest person in the world?" answering myself, I am. I was in a pro-life, pro-choice battle of decision and it was tearing me apart. I wanted to be toly pro-life but I thought woman would go in back alleys and have them illegally but I also couldn't be pro-choice because I couldn't face my mortal sins.

I went to Confession but I was still torn in all the madness. I walked up to the altar during Mass in front of a full church had a nervous break down asking the priest if I could speak. I asked, "Can I speak? He told me to sit down. I shouted, you're not God! I wanted to tell the whole world how awful abortions are and they should be stopped. I was pulled out of the Church crying out, God is your Love! I had a nervous breakdown in front of 300 people stunned.

I was handcuffed and brought to a psychiatric hospital but there wasn't any special kind of treatment for a post abortive woman. I couldn't speak and only spoke with my hands, seeing and hearing things, diagnosed schizophrenic and psychotic but not post abortive syndrome. I was thrown in solitary and my rosaries were pulled off my neck as I screamed out, I'd rather die by the hands of Mary's Rosary than die by the hands of you.

I was hospitalized again a year later but this time it was by my husband for praying too much in this Pro-Life verses Pro-Choice battle. One of my daughters

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229

shook me and said, "Mom God is Pro-Life and it clicked like a bolt of lightning. I needed someone in my life just to shake the truth into my heart so I could stop cutting all of my hair off. If I could describe what it was like for me to have suffered from post abortion syndrome it would be sitting in a closet in the psych ward afraid aliens and the FBI were after me and that the doctors were going to perform another abortion on me.

I learned the hard way if we tell our children when they are small it's a baby in a mother's womb then women won't go into back alleys to have abortions and doctors won't do them. It affected my whole family.

One of my daughters started taking drugs, ran away from home but since has recovered by becoming a wonderful mother herself. It was motherhood that brought her around. She needed someone to love and to be loved unconditionally.

My husband didn't support me through my recovery very well. He couldn't handle me being sick and began drinking more heavily. He complained about my writing my story saying I spend too much time on the computer and that it won't ever amount to anything. He began staying out all night and then divorced me after 27 faithful years.

I am proud to say that I'm totally pro-life now and continuously healing through Christ. I believe only life threatening abortions should be legal such as ectopic pregnancy. I've come a long way and want to do something to help others get there. I'm supporting myself as a bank teller right now but I would like to find a job working full time in this kind of area, finish and publish my novel, song and poetry that I've written in my recovery. All together a total of four psychiatric stays concerning this, one 3-month stay of anorexia when I weighed only 70 lbs. earlier in my life not long after childbirth. The later visits I was given med's that harmed me instead of helping me.

I would proudly be a witness in any courtroom or speak publicly for this cause on behalf of the unborn. I would gladly play my guitar and sing one of my songs concerning this topic at a pro-life benefit if my work allows until I find a job full-time in this area. I would like to start a group I've named

1. Tell approximately when and where your abortion occurred: March 1983 in Jackson, MS

5. How has your abortion affected you? I lived depression, anxiety, workaholicism, anger & supermoon syndrome for many years following my abortion.
6. How has your abortion affected others in your life? My husband and living children had to learn to live with me and my problems resulting from my abortion. It was quite stressful.
7. Based on your experiences, what would you tell a woman considering an abortion? Tell her about how my abortion affected me. Tell her that the "quick fix" is a lie. Abortion and the loss of a child will remain a part of your life forever and it can be devastating.
8. Based on your own experience, what would you tell a court that believes abortion should be legal? Legalized abortion leads women to believe that abortion is safe and easy with little or no consequences. This is untrue. Millions of women are dealing with the devastating effects of this untruth. 6. In many ways, for a while I was able to push the horrible experience way down inside and I would tell myself that it never really happened. Everytime I would here the word abortion I would cringe inside, I felt like digging a hole and crawling inside and NEVER coming out. It wasn't until the pregnancy of my last child, which was a ~~few~~ little over 11 years after my abortion, that the shame and guilt of what I had done overwhelmed me. I suffered from extreme anxiety and some depression. I hated myself I lived in fear of death every single day. I was terrified that someone in my immediate family or either I would die. I was afraid to go to bed at night in fear that I was going to die. I would wake up in the middle of the night having anxiety attacks, but thinking I was going to have a heart attack and die. I even went to see a cardiologist who diagnosed me with depression. If my husband and daughter were late coming back from anywhere they had gone, I would panic, I just knew that they were in a ditch somewhere dead. I would literally be sick at my stomach. I would not let our baby ride in the car with anyone, not even his own Daddy. I was terrified that he would be taken from me for punishment because of what I had done. I was always afraid to go anywhere by myself in fear that something terrible would happen that would end in death. I know without a doubt, that this life of death that took over my life stems back to the day I ~~was~~ ~~born~~ ~~the~~ ~~my~~ ~~unborn~~ child. →

8. You are not eliminating a preterm. You will create a much larger one by choosing abortion. One that is like pouring salt on an open wound. God can heal that wound and forgive, but the scar will always remain.

It is not just a "blob of tissue". This is a part of you. God's word says in Psalm 139:13 - "thou hast covered me in my mother's womb," and in Jeremiah 1:5 - "Before I formed thee in thy belly, I knew thee." This is a child formed by God's own hands.

Get the Facts on Abortion:

1. You could hemorrhage or contract an infection in which both usually require hospitalization and can be fatal.
2. Women have died due to small body parts being left inside the womb.
3. Chances of infertility increases
4. Chances of developing breast cancer increases.
5. You will more than likely have some sort of mental or emotional breakdown such as anxiety, depression, etc, and believe me these feelings are real.

Please know and believe that God will see you through this pregnancy.

(... I will never leave thee nor forsake thee.) Hebrews 13.
 *And He said unto me, "My grace is sufficient for thee..." 2 Cor 12:

9. I read this simple message that holds true to my experience. It read like this:

ABORTION:

One dead

One wounded.

Abortion is inhumane.

Only 2% of abortions are because of incest or rape.

This is NOT a "blob of tissue."

Abortion is internal infection.

Abortion is MURDER. It leaves a woman to self destruct.

How can abortionists size through tiny body parts and make themselves believe that it is a blob of tissue instead of a baby made of flesh and bones? A human being formed by God's own hands. (Psalm 139:13)

name law, but it is still wrong under God's law, if it was
 not for my Lord and Savior Jesus Christ I would ~~have~~
 have never made it through. God is the ONLY way that I
 have made it through this experience. Praise God! He has forgiven
 me and set me free. He has healed me through Saw-a-Life
 ministries. Only God can use the very people that I thought were
 against me to save my life. God showed me that his Son,
 Jesus defeated death on the cross and so I no longer have
 to live in fear of death. He also showed me that I can
 celebrate the life of my unborn child. I feel that God revealed
 to me that my unborn child was a little boy. I said everytime
 I have the opportunity to give my testimony I want to
 recognize him. He deserves dignity to be recognized as a
 child formed by God's own hands (Psalm 139: 13-14 + Jeremiah 1: 5) His name
 is John Michael Meadows and he is alive and well with our
 Father in heaven, which proves that he was NOT just
 "a blob of tissue". God has finally helped me forgive myself.
 It's still painful at times. I will never forget what I did.
 I will have to live the rest of my life with this "horn in my
 side", a reminder, not for suffering, but to remember this painful
 life and so I won't forget where and how far God has brought
 me. So God we all the glory! I pray He will continue to use
 my testimony to help others that are hurting from a past abortion
 and hopefully to help others see the REAL TRUTH about abortion
 so that their babies lives may be spared. I now live

To be filled out by women who have had an abortion.

The State of Pennsylvania
County of Allegheny

BEFORE ME, the undersigned authority, on this day personally appeared _____ (Print Name),
who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: March 1986 Pittsburgh Pa.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
No. My friend told me it would fix a problem and not to worry about it. No doctors or nurses said anything to me.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes if so, who? The father of my baby & my friend.
- 6) How has your abortion affected you? I became very depressed for years. I don't enjoy life. I would always cry when I heard a baby cry. I blocked the abortion out for 13 years when the first abortion was done. I did to fight it was in a lot of pain. I couldn't even breathe that I had done this. I had a pain in my heart. I can't explain. For years I was afraid of even thinking I was never able to enjoy any pregnancy until I dealt with my abortion. I received counseling at a pregnancy care center and now I want to share my story so no woman will ever have to suffer the pain I bear.
- 7) How has your abortion affected others in your life? My parents missed out on another grandchild. My children lost a sibling. Our lives will never be complete.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell this woman that this quick fix will bring eternal pain emotionally. This baby is a precious gift from God and she should consider abortion relationships will be affected. Her life will change forever.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Legalizing abortion is legalizing murder. Babies are dying. Our future is dying. Women do not realize what they will have to deal with after an abortion. We should support a woman to deliver her child & help her to raise her child, not to give her the right to kill her child.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1985 - Raleigh, NC
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? → If so, who? I was pressured by my family's standards, rules, etc. My mom and dad didn't even know about the pregnancy. I was only 17.
- 5) How has your abortion affected you? I struggle emotionally with having the abortion - especially since having children of my own. Having to live with the knowledge of killing my innocent baby is really hard. I know God has forgiven me, but it is very difficult for me to forgive myself.
- 6) How has your abortion affected others in your life? My husband ~~was~~ was the father of the aborted baby (pre-marriage) and he, too, struggles with our decision.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? It looks like the "easy way out" but it isn't. You deal with it every day of your life. That baby inside of you is a life - you are committing murder if you have an abortion. That baby would be a blessing to you or some other family. Please don't make the same decision I did - at birth and market right.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would say that if a woman delivered a baby & killed it, she would be charged for a felony. If she has a late term abortion (when the baby could live outside of the womb) there's no consequence. It's also true that pro-choice is really pro-abortion because no one sits down and truly explains your choices.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: My first abortion was in 1984 and my second one was in 1987. They were done in Fayetteville, North Carolina. I had no idea that I was taking my children's lives.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not informed about the nature of this process. The only thing that was stressed was to take it easy for a couple of days. This is a quick and simple process. It will be over done and forgotten about.
- 3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No, I was not informed about this, nor any other illness or mental problems. The clinic was only concerned about prepping me for the procedure.
- 4) Did anyone pressure you into having an abortion? If so, who? My boyfriend and his mother, whom I believe every word and put my trust in. The second abortion I had the guy dumped me, I felt lonely and scared.
- 5) How has your abortion affected you? It has made me very angry toward the people who influence me to do it and also paid for it. I did not realize how much hurt, pain and self hate that it had until I came to Jesus. Mentally, I almost lost my mind. I know physically I am suffering from this procedure. Abortion affects you the most.
- 6) How has your abortion affected others in your life? It has only affected the people who influenced me. I still have some anger toward them, when you make it for years and then all of a sudden it comes, but to haunt you.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her to please think about what is going to take place. I would inform her about the absolute truth. I want to love her and tell her that she is beautiful and she has so much love to give. But do it, it is harsh and cruel to mankind. I would tell her that it would emotionally damage her later in life.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell the courts that they are doing more harm than helping. They are destroying a woman's life as well as killing another life. So many of us have never thought twice about what we did. Until we are older and wiser. It is so hard for us now to come to terms with this misleading information. Abortions are wrong. Abortions can and will damage your physical body, attack your emotions later on in life, and make you feel self hate. An abortion is cold and cruel to babies. How can we justify this? Who ever says yes to abortion being legal is held responsible for every life murdered!

- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? Although my step-mom gave me lots of reasons why I should abort, and she encouraged me to abort - even paying for it and making the appointment & taking me to the abortion.
- 5) How has your abortion affected you? My abortion has affected me emotionally to the point of extreme depression, suicidal thoughts, night terrors, insomniac lack of self-worth, anniversary reactions, countless hours of mental health therapy, thousands of dollars for prescription medication to off-set panic attacks, which I still face today - over 18 years later.
- 6) How has your abortion affected others in your life? My baby's dad and my husband has been deeply saddened at our loss, as are my parents and in-laws. Unfortunately, my step-mom continues to "help" others obtain abortions in similar fashion to what I have mentioned above.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell - and have told - women considering abortion to not do it! I have counseled many women to choose life for their unborn baby and to save themselves from a lifetime of regret and pain.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell a court that believes abortion should be legal that they are catering to the abortion business. Abortions must be illegal! Women have been lied to for over 30 years. Countless women suffer psychologically - many have committed suicide. Women are being exploited for the sake of money and it must be stopped. If I had more room, I'd tell them a lot of other reasons why abortion must be stopped!

The controversy over abortion laws has been raging for years, yet I had paid little attention to it -- until Halloween morning in 1984.

My period was 10 days overdue; unusual, but in my heart I didn't really believe I could be pregnant. Just to "rule it out" I had brought home one of those do-it-yourself drugstore kits. The "ring" I saw - indicating "positive" - stunned me. At the age of 41 I was pregnant. My breathing was rapid, nearing hyperventilation. I braced myself on the dresser to keep from dropping to the floor, then slowly moved to the bed, where I slumped in total disbelief. After a while I got in the car and began driving around, in a hazy daze, thinking what it would be like to have a baby around again, to turn the clock back 17 years and start all over with diapers, Halloween costumes, Sesame Street and wiping runny noses. Our son and daughter were both in high school, one just a year away from college. Both were dearly wanted and "planned" pregnancies. All the years of birth control afterward had brought no surprises - until that Wednesday morning.

My husband took the news calmly and said merely: "Will your doctor do it," certain in his mind that we should look upon this "egg" as no different from all the others we had chosen not to fertilize in our 18 years of marriage. His male mind saw "termination" as no worse than contraception. I have no religious affiliation, and had favored laws giving women the freedom to choose, yet his suggestion hit me with a tremendous jolt. While the idea of starting over after 17 years was not what I would have chosen, "terminating" the tiny life begun (however inadvertently) inside me just didn't seem right.

The other alternative, of course, meant carrying a baby to term. Thinking about this brought vivid memories of my son's birth 17 years earlier. The 28 hours of labor, in a room by myself, with a nurse occasionally stopping by, had been a source of many years of nightmares. My doctor at the time was near retirement age. Suffice it to say that he came to my room the morning after delivery and apologized for his handling of my "case," which he told me had been discussed at a hospital committee meeting, where the recommendation had been made that he drop "obstetrics" and confine his practice in the future to "gynecology."

It took several years for me to summon enough courage to attempt another pregnancy, but I didn't want my son to be an only child, and was hopeful that a different doctor would mean a better delivery experience. While the second labor was an improvement, the feeling of joy that we had both the son and daughter we had hoped for, was joined by enormous relief at the thought I would never have to "do this" again. Contemplating it at age 41 brought sheer terror.

My mind reeled and I thought day and sleepless night about the "options" given by my doctor: immediate "termination" - with or without tubal ligation, was his recommendation. I asked him if he had no moral reservations about such a suggestion, and he laughed and waved his arm, saying a woman my age shouldn't be having babies anyway. The alternatives raced through my mind constantly, one minute thinking we should "terminate" immediately and get on with our lives, and the next minute wondering how I could bring myself to let them destroy it. I can see with hindsight that I was enveloped in a state of shock and should, at that point, have sought some outside counsel. I spoke to no one but the nurse at my doctor's office, who said "If you do it now, there 's nothing there!" She said to do "what's right" for the family I already have. I knew the more time I agonized over it, the more difficult it would be to bring myself to "terminate", so I signed the paper and she booked me into the hospital for the next morning. It is strange how no one uses the word "abortion" - just "termination of pregnancy", and "product of conception" or "cluster of cells", as though use of the words "abortion" and *baby* might make a woman stop and contemplate her action more thoroughly. I was not offered counseling, and on Friday November 9 at 6 AM, just a week after that home pregnancy test, I was hospitalized for the "termination/tubal ligation." For all I had been told, that was supposed to end my "problem."

In the hospital I felt absolutely nothing, as though my mind was drifting in a vacuum. It was as though I wasn't in my own body, but on the outside seeing this person sign these papers and be subjected to a "medical procedure"; mentally I was totally numb. They sent me down for a pre-op X-ray, and the sign said: "Be sure to tell technician if you are pregnant." I stared straight at the sign, but said nothing, for I

hadn't fully acknowledged to myself that I really was pregnant, much less that I was there to allow an abortion to be performed. A staff doctor stopped by the bed and asked: "Is this your third pregnancy?" I nodded yes, but thought, what an odd question, I'm not really pregnant. I felt totally "blank" - as though all emotion had been erased from me. There was no physical pain or awareness that anything was happening. A slight pinch of the anesthesiologist's needle in my hand registered at the start, but there was no pain, or even a cramp afterward, and virtually no bleeding either.

It wasn't until a few days after coming home, as my mind began to emerge from the vacuum which had paralyzed it, that I began screaming, crying and reacting to what I had endured. My nights were filled with dreams (and nightmares) about babies, and people bringing me babies in my sleep. It penetrated my emotional core, and I began to realize that this was something I was going to have to "live with" for the rest of my life. My thoughts were constantly on the child who would have known life, had I not interfered with nature. I watched a news segment on the famine in Ethiopia and felt myself reacting strangely, unsympathetically to the plight of the starving: do those children have more of a right to live than my baby? There were pregnant women and babies everywhere I went, and seeing them only increased the level of my agony and feelings of intense envy. I wanted to tell someone, but didn't know where to turn. Days drifted one into the other, and I tried to keep the usual family activities going, but there was no change in the distressing preoccupation of my mind. At family dinner, I ate something out of habit, but had no appetite, and ate nothing the rest of the day. What I did eat had no taste; in fact everything tasted like straw. Quickly I lost 5 pounds, then 5 more. My co-worker marveled that I could be so "strong" and "diet" at Christmas time. She noticed I was thinner, but how could I tell her the loss of appetite had nothing to do with diet! If only she knew how the constant lump in my throat made eating impossible. For months on end, all my private moments were spent crying. I'm surprised no one at work noticed my swollen and red eyes. They were often so full that it was impossible to read what I was typing. I felt an increasing need to discuss all the feelings engulfing me and did try to call the nurse at my doctor's office. She tried to be sympathetic, but the

conversation didn't last long as I couldn't keep from breaking down and complete a coherent sentence.

On the 31st day after surgery I awoke to a heavy flow of blood - proof positive that there really was no more baby. Until that moment, in my overwhelming anguish, I had fooled myself into thinking: maybe I really haven't done this -- after all, there were no memories of any physical pain. The realization that tubal ligation meant "permanent" was more than I could bear. My husband and I talked throughout the night, as I began to finally share with him all the emotions I had been struggling with. I don't think he realized the depth of my feelings until that conversation. The same day brought a bill from the hospital pathologist. My mind focused on what he was being paid to study: the remains of my never-born child -- and my rage and anguish totally overtook me.

I knew then I would have to seek some counseling, and began to search the "pregnancy counseling" ads - something I should have done before it was too late. My teenaged daughter happily played Christmas music on the piano, and I had to run from the room so she wouldn't see the rush of tears, for all I could think of was the child who would never play that piano, or hear it played, or know Christmas, or feel life. I thought back and wondered how we could have rationally discussed "reasons" for "not having" another child. Couldn't we - and shouldn't we - have made room in our home and our lives for this mid-life miracle? Yes, our lives would have changed quite drastically, but living with those changes would have been much less difficult than coping with the emotional turmoil and grief that have engulfed me since. Would the physical childbearing pain I was dreading really have been as intense as the very real pain I have had to suffer instead?

In the following year I spent weekly sessions with a compassionate counselor. She helped me sort out my feelings of grief, anger, pain and loss. For several months I continued to feel "phantom" signals emanating from my womb; as long as I didn't have my period at the moment, I believed I was still pregnant. Each monthly flow renewed my regret and anger, and made me feel my baby was dying all over again. Just as soon as it was over, I went right back into denial for another 28 days, until the cycle repeated itself again. Seeing pregnant women in the stores *ck*

filled me with so much jealousy that I bought another pregnancy test kit 3 months after the abortion, for I desperately wanted to see some proof that my baby couldn't be dead.

I visited several libraries and read every book I could get my hands on that touched on abortion, miscarriage, bereavement and loss. I attended meetings of "Reach-Out to the parents of an unknown child" - a caring group of people, all of whom have lost a child through miscarriage, stillbirth, or early infant death. On the first anniversary of the abortion, I placed a memorial ad in the local paper: "Mid-life surprise - precious gift - taken from me so abruptly the outside world does not recognize you ever existed - missed and cherished forever in my broken heart." I was surprised that most of the people attending the Reach-Out meeting had seen my ad. They were supportive and understanding, for they too had experienced that grief. I have also become active in a support group called "Women Exploited By Abortion." Some people have said to me: "exploited" is such a strong word! And I answer: yes, but it's not the wrong word. In a society that makes abortion ~~so~~ easily available, we equate what's legal with what is right. I have met many women who made an abortion decision, as I did, because it was offered to them in a moment of crisis as an "easy way out of a problem." They were not counseled about the devastating emotional after-effects. We, the aborted mothers, are the second victims of abortion. Society must provide some safeguards for women. An unplanned pregnancy shocks the body and psyche. Counseling must be made mandatory. Such counseling must include information on prenatal life. How many women are aware that at the moment they discover a pregnancy, their miniature unborn child already has a beating heart and measurable brain waves? There should also be a waiting period of at least 24 hours (and preferably longer) between the signing of any papers and an actual abortion procedure.

I very much want something good to come out of all my pain. While I surrendered my baby physically, there will always be a special place in my heart for my missing child. From the beginning, I have felt that it was a girl, and I have named her Barbara Louise. I think of her every single day, and my arms ache from wanting to hold and nurture her. I get angry at people who tell me she was just a "blob" who might have grown into a person - but only given a great deal more time, and regret that in

cl

my state of shock I didn't see how wrong they were, and allowed someone so precious to be taken away from me.

If sharing my story will help another pregnant woman reject abortion, then the brief life of my Barbara Louise will not have been totally in vain.

EPILOGUE

My husband had been unwilling to read my manuscript until it was published, nearly five years after it was written. When he finally read it, he said "now I understand".

He suffered a fatal stroke seven months later. I grieve for him, and for my child, for I believe they are both victims who have unnecessarily left this world too soon.

Now approaching the twenty-first anniversary of my abortion, I continue to mourn for my missing child, and if I could be given a chance to do just one thing over in life, I would never have permitted my unborn child to be taken from me.

WHAT DO YOU EXPECT?

Recently a friend called me and asked if I would check out a web site she heard about on the radio. This friend knew my story. I had shared briefly with her the pain in my heart from the abortion I had many years ago. After viewing the web site, I wondered if I would ever be able to revisit in detail those painful memories. I wondered if I wanted to. I had tried for over 30 years to bury those memories, to file them far away. But now, with God's help I am determined to open those hidden files, and to write down what I have gone through as a result of this one horrible decision and to share it with others. I am willing now to place this mistake in God's hands for him to use. I have tried to help others who were going to make the same mistake, but I never shared with them just how well I knew the awful pain they would be bringing into their lives. No one tells you about the aftermath that comes when they suggest abortion as a remedy for your situation.

I have just completed a Bible study about your mission in life. I realize now that sharing this event and it's fallout may be part of my life's mission. The aftermath that comes, the horrible burden of pain, guilt, and regret that floods over you when you have destroyed a precious child that God created is something people need to hear.

LET ME SHARE THIS TESTIMONY WITH YOU
A HARD LIFE LESSON

By age 27 I was married and had three children. The youngest was eight weeks old. My husband and I were separated during that pregnancy for a period of weeks. This was nothing unusual for us. At that time I was a stay-at-home mom and we were totally dependent on my husband for financial support. We had married at age 17 and during our marriage my husband continued to play out his youth with drugs, alcohol and women. Though I tried hard to make the marriage work, I knew it was not going to last.

SM

After the birth of the third child, a little girl, my husband decided he would have a vasectomy. Two weeks after the surgery he was tested. I called the doctors' office for the results and was told that it was OK to resume normal relations. Two weeks after I was given that information, the doctors office notified us to inform us that we still needed to use protection because the sperm was inactive but not dead.

My world was on the verge of being turned upside down. At least I thought so at the time. I'm sure you have guessed what happened. I was pregnant. I knew where my marriage was heading, my husband was furious about the news and to make things even worse he told our friends who knew of his surgery that the baby wasn't his. He told me they would never believe that the baby was his. I was stupid enough to believe him. As I write this I am wondering how could I have been so stupid. As well as being stupid, I was afraid. I was afraid of how I was going to provide for and raise three small children, and now a fourth was on the way with questions surrounding the paternity of it. My heart was filled with pain and my mind was consumed with fear.

My doctor knew my family well. Actually, he probably knew more about my husband than I did. He recommended an abortion. It was unethical, unwise, and at the time unlawful for him to make this recommendation. I couldn't see past the problem. I couldn't see how God was going to take care of things. If I could have seen into the future I would have seen a fearful single parent turn into an independent mother of three who started her own business and provided for her children very well. If I had given this baby and my fear to the Lord, the out come would have been so very different. I would have come to know and love this precious child, just as I love the other three God gave me.

My husband was pressuring me to make a decision and to *get it over with*. My days were filled with guilt and depression. I cried all the time. I finally decided to tell my Mother and Father. I knew this situation would be difficult for them because they had witnessed the turmoil in our marriage. They knew the effect it was having on me and on the children. They agreed with the doctor.

SM

The doctor set up an appointment with another doctor two hours away from our small town. At that time it was not legal to have an abortion, but this hospital performed them anyway. The first appointment was to meet the doctor and be told how to prepare for the abortion. This preparation information included what time to arrive at the hospital and how long to abstain from food before I came. That was it. Nothing was said about how to prepare mentally or emotionally, or how to prepare for what would come in the aftermath.

The day came and my husband decided he was too busy to take me so I called my father. I will never forget that early morning two hour trip to the hospital. Dad and I had very few words to say to each other. As I look back, as a grandmother myself now, I am sure this was very painful for him and I am sure he must have wondered what this grandchild was like that wouldn't be making the trip back home. He loved his grandchildren they were special to him and he was special to them. Again, I can't believe the choice I made.

When we checked into the hospital I felt clothed in shame. I knew the nurses were talking about the young woman who was there to get rid of her unwanted child. I wanted to run out of that hospital, but I was frozen with fear and shame as I laid there waiting for them to come after me. Now that I am at this place in this story, I can hardly write this. How I wish this was something I was just making up. I wish this was fiction. Why? Why? Why? I have never forgiven myself for not bolting from that table. It was a relief to be put to sleep.

After waking and being dismissed, there was another quiet ride home. My Mom had kept my children that day and night, and I was going to pick them up in the morning. I just wanted to go home and crawl in bed and pray that sleep would come. Deep sleep.

The next morning I awoke to another nightmare. I could not raise my head off the pillow. My arms and legs wouldn't move without terrible

SM

pain. I couldn't sit up or turn over in bed without assistance from my husband. Now he was ready to help. He called the doctor to see what was wrong. The doctor said that I was so scared that all my muscles had constricted. I would regain my mobility in time. It took days to return to normal. The frozen feeling of fear I had at the hospital now consumed my body literally. I laid there in bed unable to move believing that I was getting just what I deserved. I reasoned that I had taken a child's life, so if I stayed paralyzed forever it would be what I deserved.

It wasn't long until the expected divorce came to my little family. Life went on and even though I had asked God to forgive me, I could not forgive myself. The way I coped with the shame and self loathing was to push the memories to the deepest places in my mind. This had become pretty manageable until one afternoon I came home from the grocery store to find my brother waiting for me with tears running down his face. He was there to tell me that my fourteen year old son had been accidentally shot and killed by one of his playmates. He was playing at his dad's and the boys found the gun cabinet unlocked. The boy had no idea that the gun was loaded when he pointed it at my son and fired. The shot killed him instantly. As soon as I heard the words that my son was dead, all the horrible feelings that I had repressed for so long came gushing out from the depths of my heart mind and soul and solidified into one thought. *My son was taken from me because of what I had done.* This was anguish beyond bearing. Now, my understanding of scripture would contradict that line of reasoning because when God forgives the Bible says He forgets. If it is forgotten then God wouldn't cause an incident that relates to something He no longer remembers. But, even still there are times that I question if there is a connection.

My son, my only son, knew the Lord as his Savior. We had even talked about his salvation three nights before he was killed. I know that _____ has met his little brother or sister, and I know that I too will meet this child. What will I say to him or her? God has forgiven me for the abortion because I asked to be forgiven, and He promises forgiveness. His grace even covers the killing of an innocent child. Forgiveness for myself

sm

has not come easy. It has helped to write down my story. Since making the decision to write this all down, I have also talked to my pastor and shared my story with him. I told him I am willing if he ever needs me to tell my life experience to another young women contemplating abortion. I would try my hardest to save that baby's life and save that mother from years of shame and regret. The abortion may remove your child from your body, but it will not remove your choice from your mind. You will suffer silent torment for years. For 33 years this has been an ugly life secret that has colored every page of my life with darkness.

If you can use my story or myself in anyway to get the message out that abortion kills a child and wounds the mother, I will push my shame aside and do all that I can do.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred. 9/1992 Reproductive Services in Tulsa OK
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? my baby's father (My boyfriend) at that time when I was younger.
- 5) How has your abortion affected you? Because I had a lack of spiritual knowledge of what God says about abortions I had become very sad, I had regret and was unsure. I would say What if I had kept the baby?
- 6) How has your abortion affected others in your life? One of my friends had an abortion when she was young as well.
- 7) Based on your own experience, what would you tell a young girl considering an abortion? Abortion is not of God, it's murder and it's selfish to have an abortion because a pregnant mother is making the decision out of what they can accomplish ~~when the child is gone~~ when the child is gone and they are not giving the child a chance to speak for him or herself.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? All hands that participate in killing life in the womb should be judged the same for all hands that participate in killing life outside the womb. Abortion and all the extra worries, sadness, regret only adds to the problems that the mother may already have.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

I had my first abortion in my early 20s. I don't know what they did to my body. I had this abortion downtown Detroit, Michigan, which is a bad area of town. When I came home, I was bleeding from my nose. I was depressed from the abortion. Then I had another abortion about 17 years ago. The guy I was with was abusive, but he still wanted me to have the baby. He asked me not to do it and even cried asking me not to have the abortion. I went ahead anyway. I have had so much regret. He and his family would have taken the baby, but since I couldn't take care of the baby, I chose abortion.

I wish I would have kept both of my kids. I have had so much guilt over the years. I want to call it a lingering depression from having those abortions. I got some counseling from church. They said your baby is heaven, but the guilt was still there. Then I was in church in Detroit and the pastor said some of you women who are carrying guilt from abortion, come to the altar. I went forward and was healed.

Now I want to tell women that abortion is just not worth it. I would strongly encourage women that even if they got pregnant, and they don't feel they are ready, still have that baby, place it up for adoption or maybe their family could raise the child until they were ready. They are going to have a lot of guilt to deal with. It is just not worth it. They need to consider too, the things they do to a baby during an abortion procedure. It is a life, it is a living, breathing life. This is what I want to get across to women, is if they think it is not a baby, it is still a living, breathing life. That baby has a right to live. The baby is helpless. It is not fair."

BEFORE ME, the undersigned authority, on this day personally appeared Sandra Murphy (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true."

1. Tell when and where your abortion occurred: I don't remember exactly when - April or May of 1981 or 1982 somewhere in Dallas, Texas. I have always tried to suppress it and only have the feeling I am receiving from God. It happened more & more.
2. Were you adequately informed of the nature of abortion, what it does to one's future, and what it does to one's future? No. I wasn't told that it was a sterile procedure that would not be reversible and it would be done and done with me. I didn't know that I would be given some medicine that would kill me. I didn't know that I would be given some medicine that would kill me.
3. Were you adequately informed of the consequences of abortion? No. I wasn't told of any. I was told there wasn't any besides feeling a bit nauseous from the medicine they were giving me. Besides that I wasn't suppose to have any problem whatsoever.
4. Were you informed of any link between abortion and breast cancer? No.
Have you had breast cancer? No - not yet.
5. Did anyone pressure you into having an abortion? Yes.
If so, who? A Nurse at the health department - my sister, and the nurse at the clinic, who I wanted to leave.
6. How has your abortion affected your depression, worsened eating disorder, drug and alcohol addiction, increased weight, increased stress, relationship problems with relationships, uncaring, crying spells, suppressed anger, pain, bitterness, sterility, with a rough, shallow life?
7. How has your abortion affected others in your life? I have been distant, angry, pushing others, closed out family & friends. My mother reproached a lot of pain because of me unconsciously diminishing wanting to hurt her.
8. Based on your experiences, what would you tell a woman considering an abortion? It is murdering your child and it will affect your others around you, physically, mentally, emotionally and spiritually. It may leave you unable to have children as it has me and a very young age. I wanted to grow up, get married, have children. It affects everything.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is murder and should not be allowed to happen. It leads to the drug, alcohol, suicide, and relationship problems. I wanted to leave the clinic but was told if I wanted even another I would be killed. I was told that I was pregnant means you are carrying a child and that child has a right to live, it is not a fully developed fetus but further along than they claimed. (see back)

BEFORE ME, the undersigned authority, on this day appeared J. M., who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

When and where did your abortion occur? 1994 The Woodlands, Texas (during college years)

Were you adequately informed of the nature of abortion, what it is, what it does? (Check One) Yes No If no, explain: was not told what was involved with procedure, was not told of physical consequences except to be given a card w/ information should I get pregnant again. It was all unclear.

Were you adequately informed of the consequences of abortion? no. I was in such an emotional state and scared, very little written information was given to me.

Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No

Did anyone pressure you into having an abortion? Yes No If yes, who? but my friends encouraged me.

How has abortion affected you? 11 years later I am obviously still affected. Initially, I suffered from depression, alcohol use increased, increased promiscuity due to my inability to self forgive, my grades suffered in college, relationships were difficult. I had nightmares, flashbacks and angst. Now with a 4 year old son, I am over protective to a fault. His relationship with his father is damaged because of my own fears of losing my son. I feel God could still punish me by taking this child away. He took my motivation, and hindered my career (ironically, since my reasons to not to have an abortion was so my career wouldn't be hindered) it has cut the soul of my entire life.

How has your abortion affected others in your life? I am presently over protective of my 6 yr old son, who received out of wedlock. I'm scared of losing him too. It also affects his father.

Based upon your experience, what would you tell a woman considering abortion? absolutely don't do it. you will 100% regret it. there are alternatives... it never is your "problem" alone. It will affect everyone you know: other children in your future, husband, parents, etc.

Based on your own experience, what would you tell a court that believes abortion should be legal? this woman don't make a right you don't fix a problem with a problem or treating the symptom or result of a bad decision. (sex outside marriage mainly) It isn't about a choice women should make at time of pregnancy, but their choice before pregnancy.

AFFIDAVIT

The State of TEXAS

BEFORE ME, the undersigned authority, on this day personally appeared Mura J. Myers who, being by me duly sworn, upon oath, stated the following facts: "I am over the age of eighteen, and I am of sound mind and competent to make this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- (1) **Tell approximately when and where your abortion occurred:** In 1973, I was living in Neptune, New Jersey. The end of January, I went to a local planned parenthood clinic. The clerk set up an abortion appointment in New York for the following Saturday, an hour away, as locally they were not yet set up for abortions.
- (2) **Were you adequately informed of the nature and consequences of abortion, what it is, what it does?** The word abortion was not even spoken, by me nor the clerk at Planned Parenthood. The clerk merely asked, "What can we do for you?" My only reply was, "We have 4 children and don't want any more." "We can make an appointment for you in New York as we are not set up yet. If you have a problem with it afterwards, we have counseling available", was her only information. I was not provided with any information on fetal child development. There was no discussion of the nature and procedure of abortion or any consequences. In my thoughts I wondered, "Why, should I have any problem with it?"
- (3) **Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.** Following the last mammogram, I did have a sonogram to double check thickened tissue.
- (4) **Did anyone pressure you into having an abortion? Yes. If so, who?** My husband. In Jan. '73, when I informed him I was probably pregnant, he said, "There is only one thing to do". The word abortion was never spoken but I knew what he meant; abortion had been legalized the week before. Between 1965 and 1973, I conceived 6 children. In 1965 when I was a single college student and pregnant, I never considered abortion nor did the father. We married and had a girl in 1966 and a boy in 1967. Even in 1968 when we were expecting a 3rd child and thought it was too soon, we never considered abortion. The idea of aborting was never conceived in our minds. When this child was born 2 mos. premature, we wanted him to live. Though he was close to 4 lbs., his lung was weak and he died of a stroke the 2nd morning. We had two more children. Then came January, 1973, when my husband was assuming that I would be more anemic following the birth of another child than I had been after the previous. And I was assuming our marriage was not strong enough to raise another child based on what he said. Our choice to abort was made out of fear based on lies.
- (5) **How has the abortion affected you?** The Truth- was that 2 mos. following the abortion I would loose my womb causing a gradual reduction in my estrogen production, leading to estrogen deprivation resulting in delayed depression during an early and hard menopause. **An abortion, not a pregnancy, caused serious consequences.** The Truth - was that the night before my abortion appointment I asked aloud, God, "Is there anything wrong in what I am going to do? Man says it isn't even life. What do You say?" I didn't hear an audible response and assumed it was ok. However, in the morning, a clerk from the clinic called to let me know that the Dr. had to cancel his appointments for that morning and asked me what I wanted to do? I did not remember the night before; I did not make the connection. I was not listening. I informed my

husband and he asked about the next Saturday. So, I made another appointment and I became responsible for my child's death. Guilty of murder. "God is LOVE". "I have loved you with an Everlasting LOVE; therefore, with Loving Kindness have I drawn you unto Myself". He demonstrated it immediately following the abortion as we pulled into our drive way. There was a couple waiting for us who had met my husband's mother at his childhood church during a recent lay-witness meeting. Another time when my 3 yr. old fell off her chair, reaching for a vitamin that had dropped from my hand and rolled across the table past her. As I saw her land on her neck, I felt as though I would deserve it if she broke her neck but thankfully only her collarbone was broken. Later on my husband came home one night from work under much frustration saying, "I think I would be better off dead; at least that would give me some kind of peace". I did not think that would be true but said nothing. The next day looking out the kitchen window as I washed dishes, I spoke, "God, You know I believe in You and in Your Son Who died for me; I hope when my time comes, I find out what You say is true". Shortly afterwards, we visited my husband's younger brother and went to church with him. There were several boys being baptized. For the first time, I became aware that there was something wrong between God and me, but I had no idea what it was. I heard a voice say, "Stand up and acknowledge Me". I knew it was Jesus. I turned and looked at the room of strangers and said, "No, I can't, not now". I left that day without a right relationship with God, I wouldn't listen. I am so glad He persevered in Loving me and drawing me unto Himself. We moved from N.J. to New Hampshire in 1974. On Oct. 13th, 1974, my husband's youngest brother called from the west coast to talk to him about God. My husband was out of town on a business trip. But I told him I would talk with him. He said, "I have found God to be reality; it is man that has messed up this world". I replied, "I know; I am ready to let God be the center of our lives". He suggested I take the 4 children and go to a church that had an evening service. It was Sunday afternoon and I did. I heard the man who stood up say, "Tonight, I am going to talk about doing God's Will. To do God's will you must want God's will to be your will instead of trying to make your will His". I felt the Presence of God and began to talk with Him. "Oh God, what a miserable wretch I am; I have been trying to run my own life and I am going in circles. You know I believe in You and in Your Son, that He died for me and rose from the dead"... I felt a heavy weight on my shoulder ... "Oh God, I've murdered"! The weight was gone, replaced by the Peace that passes all understanding. I knew that God was no longer far away; I belonged to Him and that rightly I had 6 children - 2 were with Him. The 1 that had died 2 mos. premature 6 years earlier and the 1 I had aborted in early Feb. 1973. "As many as receive Him, Jesus gives the Power to become the children of God. There is therefore, no more condemnation to those who are in Christ Jesus". I have Victory over sin, guilt, and shame in Jesus!

- (6) **How has the abortion affected others?** The Truth- Abortion destroys relationships: Parent-Child, Marriages, Families due to the grief, guilt, shame, and blaming. Today my husband and I agree that our choice to abort was the worst decision we ever made. Only the Mercy and Grace of God brought us forgiveness and healing and saved our marriage. **God loves us so much that He gave His Son, Jesus, to pay our sin debt.**
- (7) **What would you say to a woman considering abortion?** Based on my experience: I know that your life is precious, a gift from God. He cares; He is for you. He knows everything about you and your situation. God has a purpose and plan for your life. He will provide in His way for you--trust Him: turn to Him and ask Him to take control of your life. God loves you so much that He gave His Son, Jesus, to pay your sin debt. As many as receive Jesus, He gives the power to become the daughters of God. There is no more condemnation when you are in Christ Jesus. Your child is a gift from God to Be a Blessing. 6 times I conceived and became a mother. I only delivered 5 and raised 4. 1 child was 2 mos. premature and died; there was loss and grief. 1 child I aborted: there is grief over the loss but in addition there is the weight of guilt which is crushing when a mother is responsible for taking the life of her child. Give yourself and your child to Jesus; He is the Lord God Creator and Lover of your souls. He is able and all who put their trust

in Him are your family. Before I aborted I asked God if there was anything wrong in what I was going to do. In the morning, the clerk from the clinic called and said the doctor had to cancel my appointment. But I made another appointment and became guilty of murder. I didn't listen. Please Listen, Jesus.

(8) **What would you say to the court concerning women and abortion?** In 1965, I was a 20 yr. old college student and pregnant. I never considered an abortion; neither did the father. So we married. In 1968, we were expecting our 3rd child. Too soon we felt but we never considered abortion; the idea was never conceived in our minds. We had 2 more children. Then came Jan. 1973. I realized I was pregnant but I did not realize I had become a mother at conception for the 6th time. I had never had an ultrasound nor read information concerning fetal child development. When I told my husband I was pregnant, he said there was only one thing to do. Abortion had been legalized the week before. My husband was assuming that I would be even more anemic after another birth than I had been after the last. I was assuming that our marriage was not strong enough for another child. **The Choice to abort was made out of fear based on lies.** The Truth- was that 2 months following the abortion I would loose my womb causing a gradual reduction in my estrogen production, leading to estrogen deprivation resulting in delayed depression during an early and hard menopause. An abortion not a pregnancy brought serious consequences. **The Truth-** The night before my abortion appointment I asked aloud, "God, is there anything wrong in what I am going to do? Man says it isn't even life". In the morning, a clerk from the clinic called to say, "The doctor has to cancel his appointments this morning. What do you want to do?" I did not remember the night before. I did not make the connection. I was not listening. I made another appointment and became responsible for my child's death; guilty of murder. **The Truth-** Abortion destroys relationships: parent-child, marriages, families due to the grief, guilt, shame, and blaming. Today, my husband and I agree that our Choice to abort was the worst decision we ever made. Only the Mercy and Grace of God brought us forgiveness and healing. God Loves us so much that He gave His Son, Jesus, to pay our debt of sin.

 - 4) Did anyone pressure you into having an abortion? NO If so, who? _____
 - 5) How has your abortion affected you? I have had numerous dreams of carrying babies that kept getting smaller and smaller and I was afraid they were dying or about to die. Other dreams were babies a little after I was taking care of as they were mine. But not the children I have had.
 - 6) How has your abortion affected others in your life? Problems with marriage with father of aborted babies.
 - 7) Based on your own experiences, what would you tell a woman considering an abortion? To not do it, there other healthy options. I would tell them of how it affected my life, the dreams and how I still struggle with self esteem about being a mother and parent.
 - 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I have written in the past to the President of the U.S.A. about my opinion of abortion. I even sent pictures of the children I have had. It has affected my raising of my children. I did have. Emotionally it has been very hard on me and I can never reverse that those operations. And I would if I could. And have had their life than I have had.

BEFORE ME, the undersigned authority, on this day appeared 3/1/04, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, that the following facts are true:

1) When and where did your abortion occur? When I was 25 years old in the Delta Women's Clinic Baton Rouge LA. It seems as if it was a harmless procedure but physically (no incisions or what could possibly happen) + also no emotional or spiritual letdown.
2) Were you adequately informed of the consequences of abortion? NO.

3) Were you informed of any link between abortion and breast cancer? Yes No Have you had breast cancer? Yes No
4) Did anyone pressure you into having an abortion? Yes No If yes, who? A FRIEND UPONED MY MIND TO IT.
5) How has abortion affected you? EVERY DAY OF MY LIFE. I AM 54 YEARS OLD WITH ONE CHILD 27 YEARS OLD. IT ROBBED ME OF MY SPIRITUAL WELL BEING FOR 33 YEARS. EVERY DAY I HURT PHYSICALLY INSIDE WITH A DULLNESS BUT PAIN IN MY HEART + GRIEF. I ALWAYS THOUGHT I WOULD HIDE - IT'S IMPOSSIBLE TO HIDE BECAUSE I THOUGHT I WAS THE BEST AT HIDING PAIN. I ALWAYS THOUGHT OF MY BABIES - WHEN I SAID OTHER BABIES. I ROBBED MY DAUGHTER OF SOMETHING SHE HAD AS A SIBLING. JOY, LAUGHTER, LOVE OF EACH OTHER. I ROBBERD MYSELF OF BEING ABLE TO HOLD MY BABIES. I USE TAMPONS PROVIDE FOR THEM. MOSTLY I DID IT BECAUSE OF WHAT OTHER PEOPLE WOULD THINK OF NOT BEING MARRIED AT THE TIME + BEING ABLE TO PROVIDE FOR THEM. AND I KNOW MY BABIES ARE WITH MY TRAVELING LORD + I WILL BE WITH THEM FOREVER - THANK YOU JESU.

6) Based upon your experience, what would you tell a woman considering abortion? THE LORD ALWAYS MAKES A WAY. HE IS THE ONLY ONE WHO IS TRUE TO HIS WORD. BELIEVE IN JESUS, WHO HE DID FOR US AT THE CROSS. HE LOVED HIM.

7) Based on your own experience, what would you tell a court that believes abortion should be legal? THAT THEY SHOULD LOOK AT THE TRUTH AND NOT BEYOND. LAWMAKERS GOD, THEY HAVE BEEN OUT IN THEIR DISOBEDIENCE BY HIM AND THEY SHOULD FOLLOW HIM TO HIM AND MAKE THEM DISOBEY HIS COMMAND. THIS MATTER IS IN DISOBEY. NEED OF BEING BACK WHERE THIS NATION WAS ESTABLISHED AND THEN HE WILL REALLY BE ABLE TO BLESS US AS A NATION!

is it legal to murder any human?

Being Baby, Adult, black, white?

No! It's illegal, and sometimes punishable with life in prison.

correct that if the heart beats, it's alive?

So, it would say abortion is taking

1) Tell approximately when and where your abortion occurred: It happened in the late spring, early summer of 1979. It occurred around Boston Mass. Sometime I believe

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Absolutely not! I had no idea of the physical, psychological or spiritual ramifications that I would have to endure.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No

4) Did anyone pressure you into having an abortion? If so, who? Yes, my boyfriend. I wanted an older woman to take me out of state to have my baby but there was no way they would do it. They told me it was just tissue! They lied. I was 12 weeks pregnant. I had no idea a good fetus

5) How has your abortion affected you? In every aspect of my life. After the abortion I became very depressed and contemplated suicide. I began to drink heavily and use drugs to "numb my feelings." I have ever since had mis-trusted everyone. It has taken me decades and lots of hard work to start the healing process.

6) How has your abortion affected others in your life? After I was married, I became pregnant. My husband and I were very excited. Unfortunately, my son was born premature. He lived 27 hours. After that, I saw a specialist to see if I could ever have a child. Also to find out what happened. I was told I had an incomplete cornua as a result of the abortion. It was a "dead" fetus. It would be full if I could ever carry a

7) Based on your own experiences, what would you tell a woman considering an abortion? It's a night mare that seems to never end. It will affect how you relate with other people and relationships in a negative way. The pain of wondering your child "lost" tissue, like you're told at the abortion clinic, will still pain you. Your life after an abortion is like slow suicide.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? If abortion was not legal, I wouldn't have been one. By making it legal you make it OK for a girl to be pressured into having one. I know many women (who have told me so) who would have carried their child full term. Instead, post-abortion women have to carry around their mourning and grief for their child forever. The tears never stop. The pain is almost unbearable.

- 1) Tell approximately when and where your abortion occurred: Meadowbrook Women's Clinic, Mpls, MN Dec 1979
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? YES
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who?

- 5) How has your abortion affected you? All I can say is that all of the affects are deeply negative. Feelings of guilt, shame, regret that led to overeating, promiscuity, and relationship shock and drug use (smoking marijuana, speed, alcohol). I felt that if I treated my body and enough of was treated badly enough by others, that it could in some way make up for the wrong thing I had done in killing my baby.
- 6) How has your abortion affected others in your life? I told no one else - Only my boyfriend at the time knew it and I told my husband before we got married. My husband has tried to empathize with me.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would share my heart with her, tell her my story. Tell her to get help with the pregnancy and find a group of people going through the same situation. I would tell her what the Bible says and how selfish it is to kill an unborn child.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? First of all, I would tell them that the blood of all the innocent children affected by their decision, is on their hands. Tell them the facts. Show my story. Show the word of God about it. Show what has happened in this Nation since abortion became legal.

BEFORE ME, the undersigned authority, on this day personally appeared D. RP (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: 1981 Planned Parenthood Hospital Pittsburgh PA

1) Tell approximately when and where your abortion occurred: 1981 Planned Parenthood Hospital Pittsburgh PA

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No.

3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO

4) Did anyone pressure you into having an abortion? NO If so, who?

5) How has your abortion affected you? The abortion caused me to feel weakness, ashamed, angry, irrational sadness. I was driven to desperation to try and make myself feel worthy of the air I breathe and space I occupied. I turned to 11 years of alcohol and drug addiction to cope with the regret. (sterilization). So I am childless. After killing my children I did not deserve to be a mother.

6) How has your abortion affected others in your life? Divorce from husband, separation from family for years.

7) Based on your own experience, what would you tell a woman considering an abortion? It is a huge loss. Irreversible. You have other choices. There are people that will help you and your baby.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion hurts women. Abortion destroys life. Abortion opens the door to depression. You are stuck in grief, but you are told it is a choice - not a child. It is tragic.

AFFIDAVIT

THE STATE OF MICHIGAN §
 COUNTY OF WAYNE §

Before me, the undersigned authority, on this day personally appeared JACQUELINE A. PARKER, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is JACQUELINE ANN PARKER (Print Name). My address is _____
 My telephone number and e-mail address is _____. I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In 1986, I was 21-years-old in college and unmarried when I suspected I was pregnant. A friend suggested I go to a clinic in Southfield, MI for a free pregnancy test. After telling me my test was positive, the woman at the clinic told me I could have an abortion to take care of it.

I distinctly remember her telling me that right now "it" is just a piece of tissue. It was those words that helped me rationalize that it was ok to go forward with the abortion. I received no further counsel as she scheduled me for the abortion. I was not counseled on the nature of abortion or any consequences I would face. My life would go back to the way it was before. I was young with very little life experience and very scared. I was in crisis. I take full responsibility for my choice but because of the secrecy I maintained, my only guidance was from the woman at the clinic.

For the most part, I denied my feelings of shame & guilt and spoke to no one about the abortion for more than a decade. The immediate stress of an unplanned pregnancy may have abated but in no way was I unaffected by the abortion. An abortion is not a simple procedure whereby tissue such as a tumor is removed. It is not a harmless or a casual event. A child's life is lost.

I became pregnant again in 2001. This time I knew what alternatives I had and fully understood what each meant. With this understanding, I could no longer deny the enormity of what I had done fifteen years prior. The right to have an abortion so that I did not have to be burdened with an unplanned pregnancy later proved to overwhelm me with grief, anger, guilt and shame. I had snuffed a small life. I feared for my soul. I seriously questioned who I was. My guilt and shame were immense. I sought forgiveness from God and from my child that would have been a teenager today. I received counseling through Project Rachael, a post-abortion support group through my church. The abortion most definitely had significant consequences for me. A decision I deeply regret. I know in my heart that giving birth to that child instead of killing him or her would certainly have been the better alternative for all - whether it meant adoption or being a single parent.

All alternatives are life-changing experiences, but the trauma of unexpectedly becoming a single parent or losing a child in an adoption would have been easier to heal from than living with the enormous realization that I was responsible for ending the life of my own child.

I say this knowingly because with my second pregnancy, I chose not to abort the precious life within me. Today, he is living a very healthy and happy life with his adoptive parents, and I am very much at peace with this.

- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? ---
- 5) How has your abortion affected you? WELL I WAS DEVASTATED AT FIRST BUT ITS BEEN @ 13 yrs ago, and I hurried everything about it very deep, it hasn't seem to bother me in ways I was guided at until recently. I am gonna go to an abortion recovery group in January, but I look at my picture of my family and I see an empty place there where that baby should be.
- 6) How has your abortion affected others in your life? I don't think it has.
- 7) Based on your own experience, what would you tell a woman considering an abortion? Its horrifying, Its murder, its not just tissue. There are other options.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? That according to the word of God every life has value. Its inhuman for us were to do those procedures on an animal of the unborn baby. AFFIDAVIT

to be filled out by women who have had an abortion.

The State of New Hampshire

County of Hillsborough

JUN 28 2008

BEFORE ME, the undersigned authority, on this day personally appeared Marianne Pardo (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Sep. 1979 a clinic in Brookline, Mass.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I was not told about the amount of physical pain I would endure. Alternatives were not presented. I was not informed of the long-term emotional pain.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? Over the past a decade, I kept my abortion a secret. I felt so guilty & ashamed, I kept it hidden, making open honest relationships with people difficult. The pain was so overwhelming that I sought help. I finally told my husband and our pastor and one woman who was becoming a close friend. She had been in PRC before. I went to the local PRC for the Women & the Bible Study. It was a wonderful help.

6) How has your abortion affected others in your life? My husband was very understanding however, I don't have any other children. That was my only child. Who knew!

7) Based on your own experiences, what would you tell a woman considering an abortion? The pain of abortion will only grow as the years go by, emotionally, mentally, spiritually it will become a heavier, darker burden than having your child & parenting or releasing for adoption (just ever be).

8) Based on your own experience, what would you tell a court that believes abortion should be legal? They are wrong. Having the right to choose does not mean that I'm making the right choice either at that moment or for the rest of my life. Women need support & services. Adoption should be encouraged by the courts, government & society. People need to stop lying to themselves & others that it's only a bunch of cells - how can a dynamic act that

"I have read the above and foregoing statement and the same is true and correct." like sex only create a lump of cells. That's Cox

A F F I D A A V I T

Twenty-six years ago I had an abortion. I was unmarried and had been seeing a man who was divorced and had three children. When I told him I was pregnant, he said he did not want me to have the baby and did not want to marry me. He offered to pay for an abortion. I remember crying and telling him that I wanted us to be a family. I had been through much grief and I wanted a family. I was so broken, and even though I was far from the Lord and was living an immoral lifestyle, I had been reared in a church-going family and I did not believe in abortion. However, at that time, in my brokenness, I remember telling myself that God could take better care of this child than I could and therefore I justified the abortion in my mind.

When I went to have the abortion, one of the staff talked with me briefly. They had tested me and determined that the fetus was approximately 8 weeks old. When the doctor came into the operating room he didn't act like I was there. I remember saying something to him, and he looked at me like I was not supposed to say anything and he ignored me. I don't remember the procedure because I was completely unconscious, but when I awoke, I just had this feeling that something was terribly wrong. There were other women in the recovery room and we were all very quiet but I knew we were all feeling the something.

One woman was married and had other children and did not want another child. She said, "I have learned my lesson." Another girl had had three abortions. The feeling that I had was just a pervasive sadness--I can't even describe it.

Two and one-half years later I gave my life to the Lord and it was such a joy to me to realize for the first time in my life that Jesus knew my name and loved me, but more than that, that he still accepted me even after what I had done. I was like "those who dream when I was led out of captivity." (Psm 126).

Even though I have walked with the Lord for many years, He has given me a child and grandchildren, there is a part of me that has not healed and I feel I will never be completely whole in this life.

The Lord led me through a healing service--a private one--just me and the Lord, and I was able to grieve the loss of my child. I have gone through grieving in stages. My husband and I just attended the funeral of a young man--17 years old. The young people there were grieving for him and I was reminded that no one grieved the loss of my child except me, because I didn't allow him to live.

I was in a service with Jerry Bernard, and he had a word of knowledge that someone there had had an abortion and not to grieve; that the Lord had my child and he was safe with Jesus and the Lord didn't want me to have guilt. I received that. I also heard Jesse Duplantes talk about his trip to heaven and he saw the little ones who had been lost through abortion and he said, "God doesn't lose any of those babies." That also ministered to me. This is still something that I struggle with.. psychologically, even though I don't think about it every minute of every day.. I feel like I can get to a certain place in my spiritual life, and then there is a wall that I can't get past. Because of this, sometimes I do wonder if I am forgiven. Nothing but the horrible sacrifice that Jesus made on the cross could pay the price.

I told my husband about the abortion after 16 years of marriage--I felt that the Lord directed me to do that. He accepted me and that has helped me immensely. Isa. 43:18 and 43:25 have also helped in my healing process.

I would like to help end abortion. Anyone who finds herself in the position I was in, I would urge them to choose life. My daughter was 15 and became pregnant and she chose life, and has two healthy twin girls.
