

INSERTED INTO THE RECORD BY CONGRESSMAN FRANKS DURING THE HEARING: AFFIDAVITS FROM WOMEN WHO HAVE HAD ABORTIONS. COMPILED BY THE JUSTICE FOUNDATION

AFFIDAVIT
To be filled out by women who have had an abortion.

The State of New York

County of Suffolk

BEFORE ME, the undersigned authority, on this day personally appeared M E A (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: July 1975 Mid-Island Hosp. Bethpage, N.Y.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I had a second semester saline abortion which required a 2-3 day stay. Procedure was done as doctor told me what he was doing but not how the death of the baby would occur. Never told about development.
- 3) Were you adequately informed of the consequences of abortion? Nothing was ever mentioned. More or less presented as this would be the answer to all my problems. But it was a permanent decision to a temp. circumstance.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Yes If so, who? When you are so vulnerable emotionally sometimes it doesn't take much to push you over the edge. The ob-gyn remember his words to this day. I dated. I've seen cases like.
- 6) How has your abortion affected you? Infection set in 2 mths. later, possibly due to a week of promiscuity (never happened before or since). When I married in 1977 it took until 1984 to become pregnant due to blocked fallopian tubes. After a set of twins and a single birth in 85. I had an ectopic pregnancy and had 4 tubes removed.
- 7) How has your abortion affected others in your life? It has distanced me emotionally to some extent. Now that my children are 17, 14, 16 yrs. old I feel I am hiding this secret from them that they have 4 sisters.
- 8) Based on your own experience, what would you tell a woman considering an abortion? I believe most abortions are due to a breakdown in a significant relationship - that there is material support available - that I understand where she/he is at. I would discuss development of baby, give them a chance to see.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? What is the difference between a woman who is 5 mths pregnant and wants to continue the pregnancy, and a woman who is 5 mths pregnant and wishes to abort? The first instance it is recognized as a baby and is protected. If anything should happen to the baby (say an

... 18 hrs. delivered baby with no one present. Nurse came in room, to doctor, umbilical cord cut, baby placed in bucket on food tray cart in my room. Spent next 2 days in maternity ward. Never told my body was preparing my breasts to produce milk - few days later milk came in.

5) This before (being 17 and single) and it doesn't work out (to have the baby). He was an adult and I guess I trusted his judgement and experience. (After all, he delivered my younger sister 10 yrs. before)

6) about 1988. Soon after I delivered twins I was very post-partum and voluntarily sought counseling. I knew what was at the root of my sadness - truly realizing what I had done, although I knew the moment I aborted that it was wrong. I went to confession in 1975. It was until the late 1980's that I found out what a saline abortion truly was and this set me back again. I also found out that my baby was a girl, from doctors records I had acquired. I will never forget reading those words, "...slightly macerated female fetus with superficial necrosis." The abortion has affected me in so many ways - too numerous for this affidavit. But what I can say is you never know how or when ~~you~~ the abortion may arise again in your mind. The traditional dates of conception, abortion, projected birth dates. It is even to the point of sweet 16's and thinking she may have been married by now, and I could have been a grandma.

8) Some post abortive, physical, emotional, psychological side affects inform herby information available. That it has been the most painful memory I have and where I am in life (age 45) there is nothing, no money, no power or prestige, that could ever fill the void of sacrificing ~~the~~ my baby's existence.

6

(9) accident caused by someone else). But the intentional ending of the life of the baby by abortion is not given the same respect and protection.

Before me, the undersigned authority, on this day personally appeared Beth Abercrombie, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Beth Abercrombie (Print Name). My address is _____

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

When I was in my 20's, I had 2 abortions. One in Indianapolis, Indiana and one in Long Beach, California.

The 1st one, in Indiana, I was treated with care however no information of the life I was carrying or alternatives to abortion were given.

The 2nd abortion, in California, I remember the harsh words of the doctor saying, "Shut her up!" when I was on the cold table feeling the pain of suctioning. The nurses treated me rudely because the doctors seemed mad at them, too. I felt like one of the many "cattle" being processed that day. One number, not person, in a very busy business.

The main affect was I grew more and more afraid and indifferent to children. I had very sad dreams - and woke up sobbing.

Abortion is murder. I know that from the depth of my heart. It should never have been legalized.

BEFORE ME, the undersigned authority, on this day personally appeared Margareta Aborn (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Chicago, IL November 1995
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I only received a psychological evaluation.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? no If so, who?
- 6) How has your abortion affected you? I have never forgiven myself. Before the abortion I could actually hear a child in my bedroom. This child (not seen) actually hugged me and told me I love you mommy. These thoughts have stayed with me for 7 years. Because the procedure was not explained to me I wonder what has caused this. I wish I could be invited on the child and if I knew what was going to happen to the child, could I become a murderer of my own child.
- 7) How has your abortion affected others in your life? No, I do not talk about it very much. But motherhood has become sacred.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please have this child and spare yourself the emotional guilt, pain, and embarrassment that I underwent my child to follow you the rest of your life. It becomes a haunting.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that they are no better than Pontius Pilate. Murder is murder by any degree.

"I have read the above and foregoing statement and the same is true and correct."

- 1) Tell approximately when and where your abortion occurred: Madawaska Hospital, Mississippi, 1985
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. I did speak with a 'counselor' at the clinic, but she asked some questions and was not specific about the consequences.
- 4) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? No. If so, who? _____
- 6) How has your abortion affected you? I suffered for twelve years with severe shame, uncertainty, guilt, worry, a sense of condemnation in my mind every day for much of the day. The abortion affected negatively almost every relationship I had - husband (who did not understand the pain I was in), my children, who I could not freely love, close to the point of abortion, my parents. It was not trusted with the secret of abortion was broken, and with most of what the abortion affected my relationship with God. I was separated from Him by my sin and shame.
- 7) How has your abortion affected others in your life? Not. In receiving healing, the abortion negatively affected every relationship in my life.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do not have an abortion. The pain at the procedure is nothing compared to the years of pain afterwards. If you can't keep your child, give it up for adoption.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I used to believe that if something was legal, it would be ok to do. Even though abortion is now legal, it causes great damage to the mother, siblings, husband, family and our whole society.

- 5) Did anyone pressure you into having an abortion? Yes If so, who? Both of the fathers of my children.
- 6) How has your abortion affected you? When I found out the truth in about 1985 I went into volunteer work at a crisis pregnancy center near me. I have been there ever since and have counseled hundreds of girls and young men not to make the same mistake I did.
- 7) How has your abortion affected others in your life? I regret very much not telling my father the truth when I was pregnant. I couldn't live with myself and when I finally did tell him he just wept because he would have helped me.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Never to destroy the precious miracle of life that God has blessed her with. Someday in the future she will long to hold that child and lose that child and would be too late if she killed him or her.

- 1) Tell when and where your abortion occurred: the first in Los Angeles in 1970; the second in Long Beach 1973
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: For both I was under the belief that they were only a parasitic blob of tissue, causing inconvenience, even though I already had 2 children. I didn't think that they could absorb nutrients at that time in my life.
 - 3) Were you adequately informed of the consequences of abortion? No. Not at all. I was encouraged by the abortion clinic doctors that it was painless and without consequence.
 - 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not yet.
 - 5) Did anyone pressure you into having an abortion? yes If so, who? My gynecologist, because I had been "spotting"
 - 6) How has your abortion affected you? Great Sorrow and shock when I realized what I had done out of sheer ignorance. I miss deeply the child that I lost by spontaneous abortion and the 2 children whom I murdered. I love my living 3 children with all my heart and wish I knew the other 2 that I don't have. I have so much love for them all now.
 - 7) How has your abortion affected others in your life? I am pro-life, an activist, I educate against abortion AND ITS COUSIN EMBRYO - IVF/HANASIA. My children are pro-life. Pray God as well as my present husband.
 - 8) Based on your own experiences, what would you tell a woman considering an abortion? Do not murder to solve an inconvenience. Children - all children are a GIFT from the Lord. He will provide for them. Many childless couples are on waiting lists, longing to adopt a child. Your child is NEVER unwanted.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Human life which is sacred begins at conception and any act to end that life constitutes murder at the 1st stages. All pregnant women should be protected from all harm due to their lives (at least) together, both most vulnerable.

I have read the above and foregoing statement and the same is true and correct.

- 6) How has your abortion affected you? I STARTED TO HATE MYSELF AND BECAME DEPRESSED, ASHAMED & GUILT-RIDDEN. I BEGAN DRINKING, SMOKING & DRUGGING WITH DRUGS, WHICH I HAD NEVER DONE BEFORE. THE EMOTIONAL PAIN BECAME SO OVERWHELMING I THOUGHT SUICIDE MIGHT BE THE ANSWER, BUT THEN I CHANGED MY MIND & THOUGHT OF TRUSTING GOD WITH WHAT I HAD DONE. I'VE REGOTTED NOT KNOWING THESE CHILDREN.
- 7) How has your abortion affected others in your life? IT HAS INTERFERED WITH INTIMACY WITH MY HUSBAND, WHICH IS MUCH BETTER NOW AFTER ATTENDING A POST-ABORTION COUNSELING SUPPORT GROUP.
- 8) Based on your own experiences, when would you tell a woman considering an abortion? ABORTION IS NOT THE RIGHT SOLUTION & IT IS A CHOICE THAT IS IRREVERSIBLE. THAT THE ABORTION INDUSTRY REALLY DOESN'T CARE ABOUT THEM AS A PERSON. THEY ONLY WANT THEIR MONEY. DON'T MAKE A DECISION UNDER PRESSURE BECAUSE THEY WILL HAVE TO LIVE WITH IT.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? ABORTION HAS COME TO A BIRTH CONTROL METHOD, RATHER THAN FOR THE HEALTH OF THE WOMAN. ONLY 1% OF ABORTIONS ARE IN CASES OF RAPE, INCEST OR FETAL ABNORMALITY AND LESS THAN 1% ARE A LIFE-THREATENING SITUATION. ABORTION HAS BECOME A LIFE-THREATENING ISSUE WITH THE ABORTION/BREAST CANCER LINK.

To be filled out by women who have had an abortion.

The State of Texas
County of Harris

BEFORE ME, the undersigned authority, on this day personally appeared Linda Ruth Ampie (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: '88, '89, '90, '91, '92, '93, '96 Houston, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? if you never are properly informed of the nature & consequences of abortion, what it is for, what it does.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? it was not pressure but it was encouraged by family members
- 5) How has your abortion affected you? After the years up until 1997 I never would admit to ever having an abortion. I felt very ashamed and guilty for what I had done. I withdrew into a state of depression, self-hatred and alienation. It represented an overwhelming sense of loss.
- 6) How has your abortion affected others in your life? My abortions did affect others in my life. They also experienced pain and loss.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would not definitely discourage her from having one. I would say that we are fearfully and wonderfully made. God does not make mistakes. He is not imperfect. Psalm 139:14, "He that has a tongue is faithful for you did your duty." Job 29:11
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Your belief in the legality of abortion is the same as believing that every murder you're given a doctor's license to murder. Making the life of one human is not the same as giving a preacher a license to who picks up the microphone and to preach it into the woman's womb to suck out the unborn by pulling up your pin and agreeing to continue the legacy of such destruction, such abortion!

- 1) Tell approximately when and where your abortion occurred: August 1978 Milwaukee, Wisconsin
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, only that at 4 wks it was only a "blob". The only consequence was to watch for excess bleeding and fever. And to take birth control pills so it doesn't happen again.
- 3) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? not really so, who? The only people that knew were my husband (separated at time) and the counselor at the clinic - both of whom said it - abortion - was the only solution to the problem.
- 5) How has your abortion affected you? Years of depression/anxiety attacks; nightmares; feeling unworthy of anything; unable to get close to people - afraid if they know they would hurt me; physical ailments such as back pain, chest pain (all due to anxiety the doctor said)
- 6) How has your abortion affected others in your life? My children & husband only got a mom-wife I was there, but unable to fully love them (or let myself be loved by them)
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I'll have to reconsider - to think about it after giving her information about the growth stage of her baby; all consequences; and info on all help available for her and baby; there is no reason to take the life of her child, someone will care for both.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Life is precious, the woman's as well as the babies. She is connected to that baby from conception. Her body knows it before she does. Our country has been apt to safeguard lives countries. We need to set the example as a caring nation and safeguard our own future generations. Abortion has negative effects on a woman which spills over to her family, community and the nation.

AND EVEN AT THAT IT DOESN'T REALLY AID IN THE LONG RUN. SOCIETY DOES NOT BENEFIT FROM THE DISRUPTION OF LIFE OR LIVES.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? PLEASE DON'T. YOU CAN'T POSSIBLY AVOID THE CONSEQUENCES OR THE COST. THE UNBORN LIFE WILL GO TO BE WITH YOU. BUT YOU WILL BE THE ONE DESTROYED. PLEASE NOT TO DO IT OR NOT TO DO IT BUT IT WILL COME AS IT INTO YOUR HEART OUT FROM THE INSIDE. YOU WILL LIVE WITH A GREAT AND LOSS UNFORGETTABLE. BUT OUR FATHERS IN HEAVEN WILL HEAR YOU OUT. TAKE AWAY YOUR CHILDREN AND SAVE THE MOTHERS. THIS PRACTICE OF ABORTION HELPS MOTHERS, BENEFITS NO ONE BUT THE MOTHER CHILDREN (DOCTOR, INSURANCE ETC.) AND EVEN AT THAT IT DOESN'T REALLY AID IN THE LONG RUN. SOCIETY DOES NOT BENEFIT FROM THE DISRUPTION OF LIFE OR LIVES.

At the age of fifteen I found myself pregnant with my boyfriends baby. I immediately went to Planned Parenthood to confirm my home pregnancy test. After a positive test result my boyfriend and I were taken to a room where a woman explained the abortion process. No other choices were offered to us. At the time I'm not sure if we would have listened, but I regret that the other choices were not readily offered to us. After agreeing to have an abortion it was completely set up and paid for by the state. All I had to do was go and fill out some paperwork, have a blood test, and give them an address to mail me medical coupons. They explained to me to give an address where my parents would not get my mail, so that I did not have to tell them.

The abortion was done by a nurse and doctor that were quick and cold. I was only given morphine and once completed, told that my clothes were under the chair. I was left in the office room drugged, bleeding, and by myself to get dressed and leave within minutes of the procedure. I left to go home that day not realizing that the physical pain I felt would only last days but the emotional pain would be a lasting scar.

I aborted my child in 1993, four years latter I married a wonderful man and we now have two beautiful little girls. After going through two miscarriages and then finally having my first daughter I began the healing process to forgive myself for my selfish choice and allow myself to feel God's forgiveness.

I will always feel shame, and guilt for the choice I made. I will always be working on dealing with the doubts of how I might be punished for my baby's death. I will always have to remind myself that I am not the person today that I was then. I want every person to know that sex is a wonderful thing, but something that should only be shared between married mature couples, because it can change your life in a second. I want every person to know that if that change happens you have a choice no matter what age you are. How can it be the wrong choice to make a child proud that you gave them a chance at the life God wanted for them? I wish I could someday tell my daughters that I once made a mistake, but chose to allow that mistake to be a beautiful child. I only hope and pray that this freedom of choice can be eliminated so that pain and death can be turned into sacrifice and life.

BEFORE ME, the undersigned authority, on this day personally appeared Lisa K. Arnold (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 11-1-75 Toledo, Ohio
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes If so, who? Parents
- 5) How has your abortion affected you? It forever altered my life physically, emotionally, and spiritually. I was never able to have children. I suffered from depression, anger, lowered self-esteem, anxiety, fear, & sharp reactions. It took me 20 years to come back into a relationship with God because I was afraid He hated me for what I had done. Part of me died with my child that day.
- 6) How has your abortion affected others in your life? My husband, children, family & friends had a hard time putting up with my mercurial behavior and it only added to the guilt I carried (4 children through adoption)
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That she will never be the same. Women were created to nurture their children not kill them. No one kills with impunity and the ramifications are life long. If killing your child is considered a good decision, what would a bad decision be?
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The same thing I just stated above based not only on my experience and the hundreds of post-abortive women I have counselled over the past 8 years.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: October of 1996 / Norman Oklahoma
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, the only question the staff asked was if I was still with the father of the baby.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? It was an extremely traumatic experience that I will never forget. It took years to come to terms w/ what I now feel is murder. I still reap the consequences today w/ regret and worry. I now don't wonder if I will develop breast cancer or be unable to have children w/ my husband.
- 6) How has your abortion affected others in your life? My favorite brother, friends, and the father of the baby have been deeply saddened by this decision. They carry it w/ them to this day.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her it is not the "quick fix" solution that it is perceived to be. Abortion has long term consequences both emotionally + physically. I would also explain how strongly I regret mine.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? A court needs to know that the decision to abort is basically complaining. God did not mean to have this authority and based on experience I can tell you that it is better we do not have this authority.

BEFORE ME, the undersigned authority, on this day personally appeared Melody A. Atthey (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: November 10, 1971 at Memorial Hospital in McPherson, Ks.
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I was told it was not a baby yet and it would be in my best interests for health reasons (my age, 17, and associated risks) to terminate the pregnancy.
3. Were you adequately informed of the consequences of abortion? No. I was not told of any consequences.
4. Were you informed of any link between abortion and breast cancer? No.
Have you had breast cancer? No.
5. Did anyone pressure you into having an abortion? Yes.

If so, who? My mother and the physician

6. How has your abortion affected you? I expressed any memory of the experience for 24 weeks. My whole life has changed after my abortion. I started drinking heavily and used a psychiatric clinic. I had suicidal thoughts and considered it several times. I had a nervous breakdown and depression. I spent the anniversary of my abortion in a psychiatric hospital. I had a nervous breakdown and depression. I had a nervous breakdown and depression. I had a nervous breakdown and depression.
7. How has your abortion affected others in your life? My relationship with my parents, especially my mother, was terrible. A lot of anger and bitterness. My younger brother still cannot forgive them for having me into the abortion. My husband now lives but can't understand the pain and grief. I still feel after all these years. It affected my self worth as a wife and mother and my husband and kids suffered at times for it.
8. Based on your experiences, what would you tell a woman considering an abortion? I would tell something I could not talk her out of it. I would make sure she is fully informed of fetal development - that it is a baby and not a blob of tissue. I would give her other alternatives and resources to either keep her baby or adopt it out. I would make sure she reads the facts alone. I would share the risks of abortion and the emotional after effects.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? It should not be legal. We are destroying human lives by the millions. We are also causing millions of women pain, grief and guilt over something many were pressured into. If the law were to be changed to allow abortions, only one was because of her own choice. Abortion takes away a woman's natural instinct to love and nurture her baby. For a woman must be determined to protect not only her unborn baby's lives, but the lives of millions of women.

- 1) Tell when and where your abortion occurred: 1984 - Minneapolis, MN
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was not told that that tissue and those cells belonged to my aborted daughter Erin Marie Hartigan.
- 3) Were you adequately informed of the consequences of abortion? No. They did not tell me that I would put myself in an emotional prison. They did not tell me that I would suffer from any post traumatic disorders like uncontrollable crying, destruction, emptiness, breast cancer, shame & guilt.
- 4) Were you informed of any link between abortions and breast cancer? NO Have you had breast cancer? YES
God supernaturally healed me of breast cancer after I went through P.A.T.H. (Post Abortion Trauma Healing).
- 5) Did anyone pressure you into having an abortion? NO If so, who? I made my own decision.
- 6) How has your abortion affected you? As explained in #3, I am suffering with life-long consequences
- 7) How has your abortion affected others in your life? My only child is in heaven. It took her life and voice away.
- 8) Based on your own experience, what would you tell a woman considering an abortion? I would give her my testimony and hope she sees the baby as a child and a gift from God and not a curse. Then, I would call all the prayer chains and people that I know to pray that the baby not be aborted.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I thought abortion was the right thing to do because it was legal; the court has misled me and others. Now that we are speaking out of these harmful effects they should listen. The law was originally in put in place because women complained about the harmful effects of illegal abortions now we are telling them about the harmful effects of legal abortions.

AFFIDAVIT

To be filled out by women who have had an abortion:

The State of Arkansas
County of Cleburne

BEFORE ME, the undersigned authority, on this day personally appeared Brandie M. Atwood (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1987 (I was 14), Little Rock, AR
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No. No one told me at any time that I would suffer MAJOR Depression, suicidal thoughts that led to an attempted Suicide, and that it would carry over to other pregnancies (pregn. quit) etc.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? If so, who? I wasn't given a choice other than abortion. My mother simply took me to an abortion clinic and they spoke mainly to my mother. No one sat me down and told me I had other choices.
- 5) How has your abortion affected you? Abortion turned a fourteen year old school girl into a suicidal teenager that lived with feelings of guilt, rejection and helplessness. When I got married, and became pregnant, I cried constantly for the baby I killed. I was an emotional wreck throughout that pregnancy. Everyday that I was pregnant I kept thinking of the baby I aborted, how old I would it be, was it a boy or girl. The abortion I had in 1987 affected me negatively and came out (or manifested itself) as lots of bad decisions throughout my teenage years. I never forgave myself until Jesus forgave me.
- 6) How has your abortion affected others in your life? Yes, obviously! My mother lives with guilt over taking me to have an abortion. She hasn't forgiven herself to this day. My real father found out I had it and hasn't spoken to me since 1987.
- 7) Based on your own experience, what would you tell a woman considering an abortion? You will have feelings of shame, regret, guilt and pain for years to come. That baby is your flesh and blood - a true gift straight from heaven. If you have this baby yes, you will have pain and hurt feelings for many years to come, but in between you will have many, many moments of laughter & love.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion destroyed my life. When I was 14 years old! Abortion leaves more emotional scars than physical. I felt alone, isolated, from my friends and family when I was pregnant and married, 10 yrs. later everyday I cried over the baby I killed. I cried everyday! After my abortion I started doing drugs, sleeping around, and tried to commit suicide. There isn't anyone (from here) to tell you the full extent that abortion has had on my life. In many states, a pregnant woman cannot get a divorce - why then for she make the decision to take her baby's life I have read the above and foregoing statement and the same is true and correct.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I
have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the
following facts are true:

1) Tell approximately when and where your abortion occurred: 1974 Near Scranton, Penna.
somewhere. Also, in 1979 I believe, somewhere near Keene NH or Bennington
Vt. _____

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it
does? NO To be honest, the only way I got thru it at the time is because I was drugged
heavily. that is one of the reasons why the recall of where it happened is so vague, but the experience is
as clear as if it was
today. _____

3) Were you informed of any link between abortion and breast cancer? Have you had breast
cancer? NO _____

4) Did anyone pressure you into having an abortion? If so,
who? _____
YES, the father of the unborn
child. _____

5) How has your abortion affected you? _____ Depression, dreams,
nightmares, years of low self esteem, guilt, I could go on for hours. Tears for no
reason. _____

6) How has your abortion affected others in your life? When I told my daughter she was sooo angry at
me for killing her brothers and
sisters. _____

7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell
her to sit down and try to listen to what I have to say. It took me over 20 years to recover and only by
the grace of God and His healing power have I come to a place that I can finally live with myself. After
talking with her for a long while, I would share all the alternatives with her and pray with
her. Letting her know she was loved! _____

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask the judge, jury and opposing council how many of them have ever had abortions. And then proceed to tell them that anyone who has not has no right to speak or pass a law.

I would explain to the best of my knowledge the "fact" about perception of life

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared Margarita Ayala (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: "

- 1) Tell approximately when and where your abortion occurred: (2) Ventura County, California 1988, 86
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Physically yes but not mentally or emotionally. I was not informed of adoption as an alternative. I was under age 18 and a parent should have been there with me. I was not old enough to understand the full effects of what I was doing.
- 3) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? (UKA)
- 4) Did anyone pressure you into having an abortion? NO. Who? However, the agency attendants at the agency described it as a minor thing, insignificant, unimportant, easy, or no big deal. Simple to do - yet broke me!
- 5) How has your abortion affected you? I have been through so much since 1984. I look back now & see that my life spiraled downward not after I was raped but 2 years later when I had my first abortion, because the man I was with turned out to be married & sleeping with his sister. The second was because the man I loved told me I didn't deserve to be the mother of his child. From one abusive relationship to another. In 86 I wanted my baby back because I had asked God for the child. I went out & found a town and not pregnant right away. I kept asking God to give me a girl & he kids 9 yrs later. I finally had a girl but still couldn't have myself. I was able to finally get back a 1/2 way, understand the extent of damage I caused myself and those babies. I had wish either of the babies fathers. I am now in need of constant support from my father. I must keep in constant contact with God to get through my days.
- 6) How has your abortion affected others in your life? I was unable to continue the relationships I had with either of the babies fathers. I am now in need of constant support from my father. I must keep in constant contact with God to get through my days.

Now, after a period of reflection, I affirm that I have read the above and foregoing statement and the same is true and correct.

Based on your own experiences, what would you tell a woman considering an abortion? No NO NO DON'T DO IT. You'll regret it for the rest of your life. You'll hear children crying at a distance muffled into the sounds of everyday life. You'll think of those babies & wish you had them back. God have mercy on me.

Based on your own experience, what would you tell a court that believes abortion should be legal? There is no reason under heaven that would excuse any woman to murder. Shed innocent blood. I have been raped and have a 20 year old son that will make me a grandmother. God will not let me live. I have had 2 abortions that haunt me every day of my life. My mistakes I cannot change. I hope to help others not make the same mistakes. I have read the above and foregoing statement and the same is true and correct.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? My friend made it real clear that he did not want to have a baby. I also felt like I could not go home without it. I felt coerced.
- 5) How has your abortion affected you? I had a hard time understanding the consequences of killing my child. I am the proud mother of a Precious little girl. It's not that I was not prepared or informed about the emotional trauma the crying and the guilt and shame over having an abortion. Abortion is something you never quite get over.
- 6) How has your abortion affected others in your life? It has brought resentment at times with my relationship & my mother. Also the guilt is something I feel for myself spills over into my relationships & my husband & girls.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is a tragic & traumatic experience and you never quite get over it. When you chose abortion you think it's a quick fix. The reality is when you chose abortion and kill your baby, a part of you dies.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The abortion industry is a money making business. A lot of people would be out of work if women chose life for their babies. The Doctors & Nurses who willingly assisted me during my abortion process are nowhere to be found. They did not really care about ME. All they cared about was not choosing death.

(Questions For WOMEN Who Have Undergone Abortion)

The State of Colorado

County of Douglas

BEFORE Me, the undersigned authority, on this day personally appeared Susan I. Babcock, who, being by me duly sworn, dep. can. stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: March 1977 in Fort Worth, Texas. I do not know the name of the clinic.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. I don't recall my doctor ever being given to me. I remember being told it would be a simple procedure and that I would be in recovery quickly and able to go home afterwards. I don't remember being told how the procedure would be done or what it exactly did.
- 3) Were you adequately informed of the consequences of abortion? I was not informed of any consequences related to the abortion, except to expect bleeding and cramping afterwards.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. I was never told of any link between abortion and breast cancer. I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? No. My then boyfriend (now husband) and mother were both opposed to having the abortion. They felt it was wrong and I shouldn't have it. I felt it wasn't really anything to worry about or that nothing was wrong with having one.
- 6) How has your abortion affected you? My abortion has affected me in numerous ways. I felt responsible with and conviction in the decision I made. I feel I had done something terribly wrong but didn't understand why I felt that way. I was very depressed and with heavy thoughts and could not talk about what I was feeling. I was unable to discuss the abortion for many years. My then husband was trying to discuss it with me. I never considered the abortion as part of my medical history. It affected my relationship with my husband for over 20 years. I never did discuss with my husband the fact that I would have my stomach affected for the rest of my life. I have had many medical conditions that I attribute to having the abortion such as chronic pain, depression, and abnormal periods.
- 7) How has your abortion affected others in your life? My husband has had anger issues throughout our marriage because of the blame and guilt associated with having a part in my decision. We have separated multiple times. My mother has shared the guilt she felt for over 20 years. It has impacted me and I regret the decision I made for me.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her to reconsider and to not have an abortion. I would tell her of the many long-term effects of the abortion. I would tell her of the emotional, spiritual and physical consequences of having an abortion. I have shared my personal experience many times with women considering an abortion and the guilt associated with having the abortion, as well as the effects of those that have trusted me with their abortion decisions. I would tell her that I think it is wrong.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? I would first say I believe it is wrong to kill an unborn child. I would say that if women knew what they later learned from their mistake, they would not have had an abortion. I would tell them of the hidden statistics of the many long-term effects women suffer in relation to having an abortion such as marriage, reproductive problems, and the mental anguish of having a life. I would say to the court that if a woman can measure of what a fetus was like developmentally, how brutal the abortion procedure is, how many women suffer during the procedure, and the possible long term effects, they would never choose to and they would not. I would tell the court that if a woman can measure of what a fetus was like developmentally, how brutal the abortion procedure is, how many women suffer during the procedure, and the possible long term effects, they would never choose to and they would not. I would say I have met many women who have had an abortion who are still suffering because of their abortions and they don't know why. I would say I have met many women who have had an abortion who are still suffering because of their abortions and they don't know why. I would tell the court that they should be providing women from the harmful procedure and to not be allowed to do the same procedure again.

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? There was no counseling whatsoever, only the exchange of money.
- 3) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes. If so, who? my then boyfriend Marc
either I was to get an abortion or he would leave me. I was scared to death.
- 5) How has your abortion affected you? afterwards I tried to escape the grasp of guilt & shame thru drugs & alcohol. I considered suicide. Eventually an uncle took me to a psychiatric hospital where I was treated for 2 weeks. I was told I should get a psychiatric hospital across my street. I was having the right to protest for 1 year and always hoping I would be U.S. about counseling but nothing ever took the guilt away. Now I am a Christian & I know I am forgiven but I cannot get the guilt & shame around for years.
- 6) How has your abortion affected others in your life? Some are shocked of it. Others don't want to talk about it. My next woman has 3 daughters after my daughter is shocked.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion straight up is a bad murder and once you've made that horrendous decision, it doesn't bring a woman who has had an abortion, but you are now the mother of a child.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Please consider the extreme consequences. Murder is murder. You can not conceal that simple & plain truth. There are thousands of shattered lives from pills & surgery that are held in bondage to this guilt & shame that comes with that life changing choice. Not one was taken abortion is thought to be the better choice.

AFFIDAVIT

THE STATE OF CALIFORNIA)
)
 COUNTY OF SAN DIEGO)

Before me, the undersigned authority, on this day personally appeared Lorraine C. Baker, who, being by me duly sworn, upon oath, stated the following facts:

My name is Lorraine C. Baker.

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1. When I was 16 years old, in 1976, I became pregnant by my boyfriend who was 23. I was afraid to tell anyone because I did not want to get him in trouble and because I feared what my parents would do if they found out.

2. I went to the clinic located next to my school. They confirmed I was three months pregnant. They asked when I wanted my abortion and stated that I should have it right away. They said "no one has to know about this, just fill out this paperwork and everything will be taken care of at no cost." That's all they told me. They did not offer counseling. They did not tell me about potential complications, physical or mental. They did not discuss adoption or any alternatives with me. I felt I did not even have to make a decision, it was all made for me. I did what they said, filled out the paperwork and was told when and where to go for the abortion.

3. When I went in for the abortion, the doctor talked down to me and said terrible things to me about me as a person. He did not counsel me not to have the abortion. He did not counsel me about any possible side affects. After the abortion, I was left all alone, crying in pain with severe cramps and vomiting in a room for what seemed like several hours, although I honestly don't know how long I was there. A nurse came in and told me to be quiet and then left. I felt terrible, the pain was terrible.

4. A couple of weeks after the abortion, I started having severe cramps and a lot of blood came out of me. My parents rushed me to emergency, (I had to tell them everything on the way of course) where I found that I was miscarrying the dead fetus

Affidavit of Lorraine C. Baker

that had been left inside of me and that I needed an emergency D&C. I have since been told I was probably pregnant with twins and the abortionist only took one of them out, leaving the other to rot for two weeks inside of me.

5. Again, I was left alone in a room cramping and bleeding and crying while I awaited my emergency D&C. This was a terrible experience for me and I would not wish my worst enemy to go through anything like it. Of course, it was also hard on my parents and I have since learned that fetuses can feel the pain. This has left me with much guilt and anxiety for which I have had to have counseling that needless to say was not free.

6. As time passed I would reflect on how old my child/children would be, I would imagine watching them play and celebrate birthdays and the like.

7. I coped okay, until I married at age 30 and after several years of trying to conceive I discovered that because of the trauma my body experienced when I was 16, I was sterile. We would only be able to have kids if we adopted them. This sent me into a deep depression. My husband will never know his own children because of a decision I made when I was too young to be making the decision on my own. He had done nothing wrong but now had to bear the consequence of my abortion. If I had known sterility was even a remote possibility, I would have seriously reconsidered my decision to abort the pregnancy.

8. I strongly believe that women, and especially teens, have the right to learn everything they can about what an abortion is, what it does to the fetus, and what emotional problems will arise in the future. They should be allowed and encouraged to learn as much as possible, to see pictures of their developing baby, to get counseling before they make any decision.

9. Adoption is a wonderful option for an unwanted pregnancy. The state makes money, the child gets to live, and the adoptive parents have to go through a pretty rigorous process to prove they are competent to raise the child, and the birth mother gets to choose what kind of contact she wants as the child grows up. If the mother wants to abort the baby, it costs the state money, the child dies and there is not much in the way of quality counseling available to the mother. We need to start recognizing the alternatives to abortion as valid and even preferable. We need to recognize the amount of hurt that is out there for the women who chose abortion. We need to realistically look at how much pain abortion really is causing people, women and men.

Affidavit of Lorraine C. Baker

000061

10. I am sharing my story with you because no one shared theirs with me. It is important for everyone to hear these stories. I am certain there are many thousands more of them just like this one.

11. Women who choose to carry their child to term have many more choices than those who choose abortion. They will have the choice of raising your baby themselves, with a strong support groups to help, or the choice of allowing him or her to be adopted with much, some, little or no future contact, again, their own choice. These are all choices that give the baby a chance to live a good life, while not putting women at risk for the complications of abortion, as in my case of never being able to have a child, which now increases my risk for breast and ovarian cancers. With abortion, there is nothing, only the death of a baby and the possibility that there will never be another for her.

12. If I had have given my babies up for adoption, even though I would not have raised them myself, I would have watched them graduate from high school and start college. I would have been at the weddings and I would be able to share in the joy of their own children. Instead, there is nothing there, just a pair of twins who died 25 years ago before they had a chance to be born.

I have read the above and foregoing statement and the same is true and correct.

AFFIDAVIT
To be filled out by women who have had an abortion.

The State of ILLINOIS
County of WILL

BEFORE ME, the undersigned authority, on this day personally appeared Lynda S. Basting (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:
Valparaiso, IN 46383

- 1) Tell approximately when and where your abortion occurred: November 7, 1980-Parter Memorial Hospital
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes
Give a brief description of type of procedure. No information, even on consequences of future medical or physical problems I might have.
- 3) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes. Who? Both my mom and dad and the father. They were the only ones that knew of my situation because I was told by parents to keep quiet and never tell anyone at any time. My future has been affected.
- 5) How has your abortion affected you? First, I felt anger at myself for not trusting God for help and His outcome for my life. Then I felt and still feel anger at my parents for arranging my abortion and never speaking of it for 22 years. I now have low self-respect, low self-esteem, I feel never "good enough". I exercise too much and had an eating disorder which I feel I'm slowly overcoming. I also felt I let my siblings down for not speaking about it for 20 years. They were very supportive and understanding.
- 6) How has your abortion affected others in your life? You feel your life is a "big secret". It's hard to distinguish who you can trust in telling. My immediate family has been affected the most. They see the emotions and tears I've had around anniversary and due dates.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? God plans all life and has a hand in each creation, even in rape and incest. If you feel you cannot afford the baby, adoption is the best option. If you fear what family will think, go to God and ask for support and peace.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? All life is in God's plan. No pregnancy is a mistake. Adoption is the better option. The mother will suffer guilt and depression. Future pregnancies may not be possible due to complications. A choice for death for your baby is something the mother will think about every day of her life.

To be filled out by women who have had an abortion.

The State of California

County of Sutter

BEFORE ME, the undersigned authority, on this day personally appeared Damaris L. Brial (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: July 28 1973 - Los Angeles, CA
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was told that I had a blob of tissue, not a baby, that the "procedure" was simple, and was returning my body back to its normal cycle. Post procedure, I would have a menstrual type discharge.
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? Yes If so, who? My boyfriend and Planned Parenthood

6) How has your abortion affected you? Physically, I had post abortive hemorrhaging, it caused severe bacterial infection (chlamydia). I had extreme scar tissue build up which led to intense female reproductive organ problems which resulted in a total hysterectomy. Emotionally, I began to drink heavily, lost all respect for myself. I don't think I should have other children because I hated this one. It took 15 years to heal all the emotional and mental wounds of shame, guilt, anger, bitterness and depression caused by me aborting my first child.

7) How has your abortion affected others in your life? It caused breaches in building positive relationships with males. My parents were deprived the precious gift of their first grandchild.

8) Based on your own experience, what would you tell a woman considering an abortion? Please carry your baby to term. You can get help and support to provide for you and your baby. Adoption is an option. There are many awesome couples just waiting to provide a loving home. Abortion is not the end to your problem. It will be the real end of pregnancy, meaning emotional trauma that you will never get back.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? if terms of conception. No human has the right to end an innocent life whether it be weeks old or in labor to take past birth. The right to choose is when you choose to have sex or not. The right to life is a God given inalienable right. Every woman in her heart knows that a fetus (Latin for baby) is a five human being. AFFIDAVIT

The State of Florida
County of Polk

BEFORE ME, the undersigned authority, on this day personally appeared Jennifer Bartlett (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your abortion occurred:

I went to a women's clinic in Gainesville, FL in April or May, 1987.

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

I knew I wouldn't be pregnant any more; I was told they would remove the "product of conception". I wasn't told about the risks involved or side effects, such as psychological problems. I wasn't presented with alternatives, such as adoption.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No. No, I have not.

4) Did anyone pressure you into having an abortion? If so, who?

No, I didn't feel pressure from anyone in particular. I just felt that it was a "solution" - the only solution - in light of my circumstances. I wish I had known about alternatives - especially maternity homes.

5) How has your abortion affected you?

I was initially relieved but over time my self-worth deteriorated. Years later I began to have terrible nightmares about dismembered babies. I deeply regret my decision. If I had it to do over, I would have chosen adoption.

6) How has your abortion affected others in your life?

My relationship with my boyfriend ended, my friends lost respect for me - those who I thought would be supportive. I disowned my mother of her first grand-child. A child I wish they had an older brother or sister. My husband was pleased to know I had taken the life of one of his children, even though it was before I met him.

7) Based on your own experiences, what would you tell a woman considering an abortion?

It's not the simple solution that it appears to be. It opens the door to a whole new set of problems. There are loving alternatives - maternity homes where someone is always there, adoption, allows a loving family to have a child they couldn't have had otherwise.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

A child in the womb is no different than a child outside of the womb. Life begins at conception. The child's DNA shows it to be a separate entity from the mother. It's not about the right she has over her own body, it's about the right to take the life of an innocent human being. Abortion is murder.

~~As a teenager, I faced a crisis~~

→ I had an abortion when I was 16. Still in high school, I saw no ^{other} way ~~to~~ to deal with my pregnancy. ~~At my consult~~ The counselor I spoke with at the clinic assured me that abortion was the best solution for me - ~~she didn't provide any information about~~ ^{at 18 weeks into the pregnancy} my alternatives. She told me that, ~~whatever~~ ^{whatever} inside me was just a blob of ~~protein~~ ^{protein} that the procedure was a simple one, ^{so} ~~that~~ ^{it} ~~wasn't~~ ^{did} ~~harmful~~ ^{experience pain +} blood pressure dropped dangerously low after the procedure, I recovered quickly & was relieved ~~that~~ that I was no longer pregnant. I learned that at the time of my abortion, the baby in my womb was not a blob of tissue, but a fully formed baby with a beating heart, fingers & toes. I tried to justify my ~~action~~ ^{a sense of} decision to myself & my family but ~~guilt~~ ^{guilt} hung over me. Five years later, I faced another crisis pregnancy. I wasn't married and ~~risked~~ ^{my} my lifestyle ~~was not conducive to~~ ^{was not conducive to} motherhood, so abortion seemed like the best solution at first, but because I now knew the truth - that ~~the baby~~ what was inside me was a living human being, I just could not abort again. I chose life for my baby, who has grown into a beautiful 9-year-old girl.

~~Children as~~ Kings as well. I'm ^{happily} ~~not~~ married

AFFIDAVIT

The State of Ohio
County of Wayne

BEFORE ME, the undersigned authority, on this day personally appeared Paula S. Basnett (Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 7/78, Cleveland, OH
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was not told that it tears the baby apart piece by piece, that the baby would feel pain. I was not told about the years of emotional turmoil I would experience.
- 3) Were you adequately informed of the consequences of abortion? No. I may have been informed about the physical risks, but no one even began to tell me about the emotional & psychological consequences.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. My the man who I was pregnant by.
- 6) How has your abortion affected you? It has affected me emotionally. I was unable to bond with anyone. I have suffered depression. It caused years of self-destructive behavior.
- 7) How has your abortion affected others in your life? For years I was unable to nurture my daughter. I would not allow myself to
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her, even plead with her to reconsider. She may not exhibit any physical signs, but the hurt and loss will exhibit itself psychologically. Her baby is a person, not a fetus. It will feel pain. It will suffer.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Just because a "fetus" doesn't have a name doesn't mean it's not a person. At 28 days its heart beats; does that count as life? It is the most wonderful part of the civilized world for a mother to kill her own baby.

"I have read the above and foregoing statement and the same is true and correct."

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1976 1. approx Feb. 2 approx Aug, clinic on Stanwick St., Pittsburgh, PA.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? the only readable consequence I remember was being told that repeat abortions could cause difficulty in carrying future pregnancies to term.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? Until recently I have been able to keep the fact that I have had 2 abortions hidden. But I have experienced intense grief and shame that was manifested primarily in an inability to get along close relationships with anyone but my husband, who was the father. Though I never felt the buried pain it caused figured in a clinical depression in 1980 with panic attacks and ongoing difficulties with responding sexually to my husband. While I revealed my secret to my church and I am now on the path to healing.
- 6) How has your abortion affected others in your life? When I told our 3 grown children, one did not seem to understand why but did not forget it why it was so protective.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it! The burden of shame is great. Even those who have the best of intentions are not immune to regret. For your personal problem. Also the doctors to herself are well documented & it is not a blob of tissue being removed. It's a baby!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? The court needs to listen to women who have experienced abortion and will always regret even the choice she made. Look at the volume of medical books now available. Remember that in America we have a right to life for everyone including those who can not speak for themselves.

- 1) Tell when and where your abortion occurred: April 1972 New York City
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I was only told by Planned Parenthood that I was only having some tissue out with no doc. I was then sent to a minister who called the hospital to make the abort. They made me sign a law at that time.
- 3) Were you adequately informed of the consequences of abortion? I had no counseling on anything other than it was my only option
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No/No
- 5) Did anyone pressure you into having an abortion? If so, who? I felt Planned Parenthood with the help of the Minister did, leading me to believe it wasnt a baby. They gave me no information regarding the facts.
- 6) How has your abortion affected you? I was in counseling for years + years. I have never completely forgiven myself. I have seen pictures of a fetus who was the same size and it was fully developed.
- 7) How has your abortion affected others in your life? My family because they have seen me suffer + my parents went along with it because they had no more information than I did.
- 8) Based on your own experience, what would you tell a woman thinking of having an abortion? I would tell her to look at a picture of a fetus developed to the stage it was at. I believe the fetus is a baby at conception also to get information on how dangerous the procedures are.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe abortion is murder. The fetus is a baby. The abortion procedures are dangerous to the woman. Post abortion syndrome is real. As is what Planned Parenthood states. Women have the right to make a choice before getting pregnant. If they do get pregnant + early care for the child adoption is the correct option.

Question 6 - Details:

I was 26 years old when I got an abortion. I'd had a one-night stand at a party in San Jose, California and one month later I had accepted a job across the country in Washington, DC. I was in a brand new area - brand new job and then I find out I'm pregnant. It started affecting my job performance and my boss called me in to discuss things. Imagine my shame telling him how I couldn't concentrate because of my pregnancy from that one night stand 3,000 miles away. I did call the father but there was no support from him.

I planned the abortion and went to my appointment. I asked a woman inside the room to hold my hand but she seemed almost lifeless - void of compassion. She did hold my hand though. I felt utterly alone and had tears rolling down my cheeks. I asked her to forgive me while the abortion was happening. Afterward when I went home I closed the curtains and lay on the bed in a fetal position and cried and cried and cried.

Going back to work, I'd paint

on the smile, but come home and cry each evening. I was dying inside.

Then I started going to palm readers and those associated with the occult - they'd read tarot cards and speak of death and I'd unload my shame, guilt and grief to them. I must have gone to 5 different women sharing the same painful story over and over. My work was suffering as was my emotional health.

After a while I met a man and began living with him (another bad choice!) then we became pregnant and I had a miscarriage. I felt sure it was because of my earlier abortion so guilt consumed me constantly. I felt that because I'd taken a life - I was getting what I deserved.

Then finally 6 years later I found God's forgiveness. His love & cleansing forgiveness has set me free but there's still pain from my losses.

Now I'm married to a wonderful godly husband (6 1/2 years already) and we have twin boys! Yes twin, who could have ever imagined that I'd have twins after my shameful past?!! They are 4 1/2 years old and the joy of my life. Please overturn Roe-v-Wade. It hurts everyone involved!

Sincerely, Mrs. Pamela J. Beckman

BEFORE ME, the undersigned authority, on this day personally appeared Donett R. Beckwith (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1976 and 1978 Seattle, WA + Boise, Id.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? no, I was rushed through their system.
- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? My mother and the father of both babies and of course Planned Parenthood!
- 6) How has your abortion affected you? I am now 42 years old and the lord is still healing my emotions because of these 2 choices that changed my life. It's a dramatic way for the worse. Right after each abortion I felt like I was a self destructive mad with a total lack of self and sexual permisivity. I also had emotional problems of anger and sadness, often I feel out a strong desire to become pregnant to somehow make up for what I did to me. It was and is a hard road to recovery and I am still struggling in some areas.
- 7) How has your abortion affected others in your life? It was harder to live with, before I had counseling. I was depressed alot so people were concerned and even tired of the rollercoaster emotions.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it! It will devastate every area of your life it does bring severe ramifications that are hard to be heard of.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? You are very mistaken on believing that it should be. A women's choice this choice will cause alot of heartache and remorse and is a murder of a child. It should be illegal.

If it could turn back time it would have never taken place. If only I knew what was coming years ahead. This affidavit doesn't have enough room to explain the damage.
- 6) How has your abortion affected others in your life? yes, my husband has heard me constantly talk about how much of a mistake I made. we would have made it.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? no matter how difficult it may seem ~~it is~~ wise, financially, support & the fear of having an unplanned child you will and can make it. It is not worth the years of confusion to come.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? It is wrong for many reasons. Not only do you destroy your own child but yourself too. If it was not legal we would not have so many emotionally unstable people along with a society on medications to numb the hurt. I would like to know if the court has experienced such a traumatic experience. If so, why and how can they live with a peace of mind knowing it is wrong and painful. If not, many women would have lived happily with the baby they now grieve for.

AFFIDAVIT

The State of Colorado
County of El Paso

Before me, the undersigned authority, on this day personally appeared
Debra Ann Bell (Print Name),
who, being by me duly sworn, upon oath the following facts:

I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

1) Tell approximately when and where your Abortion occurred:

1970 Torrance California (I was 15)
1972 Long Beach California (I was 17)

2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?

No when I was 15 my mother set up my abortion.
No when I was 17 I went to a Doctor (Free Clinic) in Long Beach.
I was not informed either time. That it was a growing baby they were aborting. The nature of what my growing baby looked like. Or the consequences I would have.
Like remembering what my dead babies looked like.

3) Were you informed of any link between abortion and breast cancer? Have you had breast cancer?

No on both questions.

4) Did anyone pressure you into having an abortion? If so, who?

Yes when I was 15 my mother took me in for my abortion.
Yes when I was 17. The father of my baby wanted me to abort our baby.

5) How has abortion affected you?

I want to let other girls and women know that there is a real baby growing inside her. And not just a blob of tissue like so many of us are told. After seeing my dead baby, from a saline abortion when I was 17. I screamed I did not know my baby would be fully formed. I wish I would of had the strength to carry my baby on my own.

6) How has your abortion affected other in your life?

My mother is sorry she made me have an abortion when I was 15.

7) Based on your own experiences, what would you tell a women considering an abortion?

To think about what she is about to do. To be fully informed of what her growing baby looks

3/15/03

like at the stage of pregnancy she is in. DON'T ABORT your baby. ABORTION HURTS. If not now it will come back to you. Abortion is not the end of your problems. It is the beginning. Give a couple the joy of having your baby by putting him or her up for adoption. There are so many couples unable to have a baby on their own.

8) Based on your own experience, what would you tell a court that believes abortion should be legal?

I would tell them to go watch abortions being performed at the different stages that these abortions are being done. And I pray that this would change their minds and soften hearts about abortion. That abortions should be outlawed (banned) for good. And that abortions should not be done for any reason whatsoever. That there is a real growing HUMAN BEING and not a blob of tissue. ABORTION HURTS EVERYONE.

"I have read the above and foregoing statement and the same is true and correct."

6) How has your abortion affected you? Constant pain, bad mood, regret, remembering every detail of the abortion, nightmares, praying, thinking of my baby, wishing and hoping for miscarriage, wishing it could go back and stop what I did, hoping that it can be done again, wishing I never had to do, for I know how much it will affect my future. Not knowing if it is best decision of the Point of My Life. I read Dependent on Myself.

7) How has your abortion affected others in your life? My sister never could have kids, my mother believes I can't. My other children wish their parents had been from my other pregnancies. I wish I had a sister. It affected everyone in my life. Badly.

8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her of my experience. Do enough pain that you have no other options. I would tell her of my experience. Do enough pain that you don't regret. I'd probably wish never done. My guilt will be there. It's no baby. It's not a baby at all. That is the one you had. Something said to make it okay. Specially.

9) Based on your own experience, what would you tell a court that believes abortion should be legal? They are obviously in it for the money. Scientific experiments. God will be their Judge. The State of Minnesota

BEFORE ME, the undersigned authority, on this day personally appeared Karen A. Bellmore (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: April 2, 1982 at Midwest Women's Health Center in Minneapolis, MN.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I knew it ended pregnancy but I wasn't informed of exactly how it was done and I don't think I was old enough to understand the impact of such a decision.
- 3) Were you adequately informed of the consequences of abortion? No. I was told it was safer, medically, to have an abortion than to carry a baby full term. But for me the biggest consequence is living the rest of your life with enormous guilt, haste informed type of that.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? If so, who? My father encouraged me to abort because he thought it would be best for my future to finish college and thought it would be hard on me to give my baby for adoption; he was wrong. I also felt pressured because I thought my baby was unhealthy & it was ok for that circumstance.
- 6) How has your abortion affected you? Very negative. I was sad & depressed for years. And I'm still very saddened that I made such a terrible decision. The worst part is the guilt & anger within. It's never the right choice.
- 7) How has your abortion affected others in your life? Very few people know anyone speaks of it.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? Don't do it! You will regret it the rest of your life. No matter what the reason, don't have an abortion because you would be killing your own child. I believe it is not a person's decision who lives & dies - only God's. You will regret it.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It's WRONG! Murder should be illegal no matter what age, size, or development of an individual life. If it's illegal to kill a baby after birth, then it should be illegal before birth. It's still the same life. Hospitals should not have legal access to abortion. Look at your own guilt & sorrow, sleep & imagine killing them before they had a chance at life. I have read the above and foregoing statement and the same is true and correct."

My Story
 Lisa L. Bernardo

Dear Family,

Family to me begins with my immediate family, includes my extended family, my friends and finally every other human being that God ever created or will create. I am writing to speak to you about something that has happened to me that is too wonderful to express in words, but I must try.

In October of 1998 I flew to Wichita, Kansas to attend a retreat. At the time, Wichita was the nearest location. The name of the retreat is "Rachel's Vineyard". It is for post abortion healing.

I am now forty-two years old. When I was seventeen, just a week before my eighteenth birthday, I discovered, through Planned Parenthood, that I was pregnant. Anyone who knows me knows that I am much too stubborn and selfish to let anything get in the way of anything and besides that I was petrified; in a state of sheer panic. I felt I could not talk to my parents. Planned Parenthood told me I had the option to abort and I jumped at the chance. I was moving out of my parent's house the following week. The timing seemed perfect. I had my whole life ahead of me, I thought. Abortion was legal, therefore moral in my mind. Somewhere I had misplaced God. I did not consider the father's opinion. We had just broken our relationship off. He was seeing others. It was my body and I was on my own.

When I had the abortion I didn't think about it. The doctor and nurse were very nice and did a great job of making me feel like it was just another gynecological "procedure". I left thinking "My problem is solved." I do remember feeling depressed afterward. I didn't know it then, but my problems had just escalated.

I used to wonder why my self-esteem was so low. I now understand that most of my life I have tried to replace God with other humans. First it was my family. When they failed to live up to my expectations it was friends. When they didn't work for me it was men, then drugs and alcohol.

After my abortion I felt I was "free" again. I began to date. But every man I dated I would tell about my abortion. I thought they would look at me in disgust and flee, but they didn't. They just treated my like, "so what?"

I met my first husband. We dated and lived together for four years. During that time I became pregnant again. He was not supportive of me. Although I wanted the baby he told me he would leave if I had it.

I had a second abortion. I cried during the death of my second baby. I remember the nurse trying to console me, but I could see in her eyes, she knew. My heart screamed stop but my mind told me it was too late.

000107

L2B 5/4/01

I hated myself and my soon to be husband. I told myself as long as we got married and had a baby everything would be OK.

We were married, I got pregnant again but everything was not OK. At about three months, the same age as my other children, I had a miscarriage. I felt God was punishing me for my previous sins. I really had no idea of what sin was, only that the abortions were wrong. Jesus came to earth to destroy sin but I had sinned so long and so much that my spirit was deathly ill and I could not discern what was right and what was wrong. I was trying to get through life without God and failing at every step. When I told my husband I was having a miscarriage, he let out a sigh of relief and said, "You know, I really don't want to have any children." OOPS, in my mind, I thought, he knew full well that I intended on having children. Our marriage ended six months later.

By that time my goal for a meaningful relationship with a man was low as my desire for motherhood ranked high on my list of "things to accomplish" before I die. I felt that I could replace the children I rejected if I was given another chance. The desire in my heart to love was strong. Whenever I saw a baby my heart leapt and I felt great love. I wanted to reach out and hold that child and love it but I also felt great sorrow and guilt and a heavy feeling of unworthiness to be a mother. In our society there are millions of men and women who have participated in abortion before having children. Can you begin to see the difficulty in loving your living children when you know, inside, you killed your other babies? I believe it is a principal reason for the violence and detachment from our children that we suffer from today in our society.

I stopped using birth control and for three years was successful at being unsuccessful at getting pregnant. I moved out of state running away from one man and into the arms of another. We lived together for two years. I remember one day praying to God to please let me get pregnant. Within a month I was. It didn't take long before I knew the relationship wasn't going to work. We weren't married and I asked him to leave. He elbowed me in the stomach and said, "I wish you would get an abortion". I thought, "NO WAY".

Maurisa was born.

When Maurisa was born I felt God's presence in my life in a way I had not known before. As my pelvic bones rattled to allow her passage I realized that for the first time in my life, I wasn't in control of what was happening to me. I acknowledged that God existed and had allowed this miracle in my life. I started looking for ways to heal myself so she would have an easier way.

When she was about four I fell into depression and hit bottom. I had been unsuccessful at finding a good father for her. I was drinking and I felt unworthy and a failure. Sitting in bed one night alone and crying I called out, "Jesus, help me." He did. He placed me in the arms of His Loving Mother. I didn't know it then but she had been suffering with and for me for most of my life.

I started going back to church. I wanted to receive Jesus in communion but knew inside I couldn't. I went to confession. I confessed my two abortions. When I did this I immediately felt a physical lifting from my back. I knew at that moment I was forgiven. But, God's forgiveness wasn't enough. I needed to forgive myself. When we refuse to forgive ourselves we are not trusting in God's Mercy and Grace and we place ourselves as "superior" to God. I also had to forgive all who I felt had harmed me and, I needed to ask forgiveness from those I had harmed. Within a short period of time Jesus walked me through the twelve-step program offered by Alcoholics Anonymous, and I did not know it.

Satan had a long reign over me. I figure twenty years but in the instant I reached out to God, He ran...no He flew back to me. He began healing me and has been so kind and gentle in guiding me with patience back to Himself.

This journey back to God started nine years ago when I was confirmed on May 13th at St. Jude's parish. At the time I didn't know much about Our Lady or her feast day and I certainly had no clue who St. Jude is. A lot has happened. Most significantly was my trip to Medjugorje, Bosnia-Herzegovina where I felt I was being asked, "Are you willing and ready to go to the cross with Jesus?"

Since I said, "yes", I feel Jesus has handed me my cross, although each day it seems to change. I share my experience with you and hope you will see the need for healing and conversion of all who suffer from the sin of abortion. Those who are in sin truly do not know the Love of God because sin blinds the sinner and God will not approach an unrepentant heart. I owe a large debt to God and all my faithful brothers and sisters who have prayed and suffered for the salvation of my poor soul. I pray God will heal abortion and end it His Perfect Will and Peace.

You may not have had an abortion but you probably know someone who is suffering because of his or her experience. Not only the mothers suffer but also the fathers, sisters, brothers, aunts, uncles, grandparents, doctors, and nurses even those who support abortion suffer because they can't see the evil in it. Everybody in our world is suffering from abortion and it is time for us to stop the insanity. Not through violence but through prayer, fasting and learning to love again from programs like Rachel's Vineyard and Project Rachel. The retreat focuses on the decision to abort, the residual guilt, self-hatred and resentment towards others and the grief of the loss of a child in a safe and confidential setting. The working of the Holy Spirit is profound as the lost babies are honored and given names and a memorial service, the mothers, fathers and families are united in grief and joy. The results yield healing and hope as you work through the issues that block your peace and advancement toward heaven.

Daniel, Alexandra, Gloria, Maurisa

Daniel I knew you from conception, no doubt you were meant to be
 I'll love you from a distance
 one day I hope to see

Your smiling face
 You precious soul
 You are my first unborn

Daniel please forgive me
 I want to be your "mom"

Alex little spirit girl
 What color are your eyes
 Your hair your face, your warm embrace
 I hope to someday know

Beyond my fears my sad regrets
 I know you exist still
 With God in all eternity
 Please wait for me atop the hill

Dear God please let me make amends
 a child I hope to have
 replace the void my sins have made
 fill my empty hands

Gloria my Gloria
 God took you from my womb
 was it a punishment for my sin
 am I destined to be doomed

So many years I believed you offered no intercession
 until Rachel whispered in my ear
 she offers your salvation

Maurisa dear words cannot express the love I hold inside
 afraid sometimes to let it out
 and so I run and hide

You are the one gift God gave me
 to heal my every sin

Help me Dear God to rise above
 that she and I might win

Ms. Patricia Ireland
National Organization for Women
733 15th Street, NW - Second Floor
Washington, DC 20005

Dear Ms. Ireland,

I want to thank you and the National Organization of Women for bringing awareness to God's creation, that He intended us to be equal in His and each others eyes, in regards to our spirituality and eternal soul.

Please help women by helping them realize how their womanhood is a genuine gift that no man will ever truly possess. The gift of women to the human race is held in her ability to conceive, bare children and in her motherhood.

Abortion has touched my life. Three years after Roe V Wade, in 1976 I had my first abortion. I was just 18 years old and the "choice" was easy for me because abortion was legal. I felt my whole life was ahead of me and I wasn't about to let that fetal tissue get in the way. The sad truth is, it did get in the way. After that abortion, something inside of me died along with that baby.

I went on to have a second abortion, then a miscarriage, two failed marriages, alcoholism, and drug abuse. My life had no meaning. How could it? I had taken the lives of my first two children and God had taken my third.

On a lonely day, in pain, I asked God to please let me have a child. He did. One month later I conceived. That was in 1986. In the moments my daughter was born, I realized what a miracle and gift life is.

She will soon turn fourteen years old. I love her very much but there will always be a lesser bond between us because of my inability to fully believe in my ability to be a "good" mother. On that day in June of 1976, part of my motherhood died.

Please help our young women find alternatives to abortion. Please help them to realize that abstaining from sex, before marriage is more important than sexual gratification. Please change the focus of NOW from abortion to life and help women to celebrate their power in being good mothers.

I pray you will consider your contribution to God's creation now and for all eternity.

Sincerely,
Lisa

Dear Reality Check,

Thank you all who contributed to focusing on the very real and sensitive issues of abortion and premarital sex.

In 1976, three years after Roe V Wade, I had my first abortion. I had just turned 18. I identify with the young ladies telling their stories, who feel it was the only and best thing for them to do. I thought that too, at first. I had just graduated from high school and my future was ahead of me. Then the years of regret, remorse, guilt and shame began to catch up with me. My future wasn't, because I was stuck in the past and the "what if I hadn't had an abortion." I wanted to have a child more than anything, became pregnant again but like so many, was not ready for a relationship let alone a child. The father of my second child said he would leave me if I didn't have an abortion. I chickened out feeling I had no "choice" a second time. I cried when my baby lost her life but felt helpless to do anything about it.

It becomes easy to understand how we can go mad if we dwell on these things and many try to tell us to let go of "it" and move on. But we can't just move on because after an abortion something inside of us dies. We need to find a way to deal with our emotions that society says we are not allowed to have. We need to grieve our loss, find forgiveness and find ways to make better choices like abstaining from sex until after marriage.

I'm writing to tell you there is hope for healing. It is a life long process and well worth the struggle. Please continue to seek healing both spiritually and psychologically.

I found my only relief from suffering when I asked God for help. When I learned that He had forgiven me, there was such relief and a desire to amend my life. Then I learned I needed to forgive myself and all who I felt had hurt me.

There is so much healing to be done. You will make a big difference, each one of you. As you are healed you will help others heal. Eventually abortion will end by "choice" as more courageous teens like yourself, speak out about your pain.

I pray your road to healing will bear great fruit and I commend your efforts to God's love and care.

Enclosed are two poems I have been able to write. Please visit my website, listed below.

Shalom,

Lisa

LES 5/4/01

Dear babies bound for earth that fled,
 when in their mothers' womb they bled.
 Who would not suckle, school, tread.
 No earthly bed to lay their head.
 When in sheer terror their mother said,
 "I need this baby to be dead"

You live in all eternity,
 despite our lost maternity.
 Why should you care?
 Look what we've done.
 Were you a daughter or a son?
 What color hair, what kind of eyes?
 How we've missed your births surprise

What can we do? Where can we go?
 We stay here lost, afraid to show,
 our hearts deep pain, regret and grief.
 We want to blame, expose the thief.
 We want to hide and to deny,
 you could have been,
 we are confused and so we cry.

The anguish grows,
 day by day.
 Until we trust,
 and learn to pray.

Where is the hope for us to live?
 How can we cope, learn to forgive?
 There is but One from up above.
 He heals our wounds with His great love.
 His name is Christ. He came to show,
 to teach us how to live and grow.
 His mercy reaches to our depths,
 of bitterness and distress.

Reach out to Him, He's always there.
 He'll heal your wounds and dry your tear.
 You'll find new life, in His great love,
 you'll find your children, up above.
 And come to know they love you still,
 they wait and pray for you until,
 that day when you will meet in heaven,
 where all is found and all forgiven.

Upon the earth our hearts rejoice.
 We've found the answer, and the voice.
 To cry for peace within the womb.
 To trust in God and to resume,
 to live as He taught us how.
 Obey His law, He'll teach you now.

Then babies bound for earth will tread.
 From bees and cars alone they fled.
 They'll find a home, they'll find a bed.
 They'll go to school, they'll live instead.
 They'll live their lives with mom's and dad's,
 with grandpa's grandpa's, uncles, aunts.
 Our land will heal when we find Him,
 and learn to trust, let us begin...

BEFORE ME, the undersigned authority, on this day personally appeared Kimberley BERRY (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:"

1. Tell when and where your abortion occurred: All four occurred in Orange County, California over a time period 77, 78, 79, 82
2. Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Somewhat, I was told it was just a blob of tissue, not a baby. I was told of a chance of dismember after the abortion.
3. Were you adequately informed of the consequences of abortion? NO
4. Were you informed of any link between abortion and breast cancer? NO
Have you had breast cancer? NO
5. Did anyone pressure you into having an abortion? Yes - the babies father's 2 abortions per birth.
If so, who? My boyfriend of 3 yrs. My ex-husband
6. How has your abortion affected you? I didn't know I had a problem. I was always trying to be "perfect" in all aspects of my life. I developed an eating disorder - Bulimia. When I did a major surgery had two more children. I was shocked to find I had to have a hysterectomy in '89.
7. How has your abortion affected others in your life? My attitude of wanting something "perfect" because of my shame of having 4 abortions. I hid this info from my current husband. After I went to Post Abortion Counseling Education I was able to open up.
8. Based on your experiences, what would you tell a woman considering an abortion? I'd tell her my own experiences. How I was told by the last abortionist that I probably wouldn't have another child. Now that there is a link to breast cancer - I would warn women about that. But most importantly it's that the child is a person in God's image.
9. Based on your own experience, what would you tell a court that believes abortion should be legal? The same. Abortion is murder. It murders a creature made in the image of God. It is also murder of the woman's integrity & self-worth.

"I have read the above and foregoing statement and the same is true and correct."

- 2) Were you adequately informed of the nature of abortion, what it is, what it does? no If not, explain: I made the decision entirely on my own as a 16 year old. I convinced my parents that it would be best for me since I was just accepted to a college and had plans for my future.

- 4) Were you informed of any link between abortion and breast cancer? no Have you had breast cancer? no

I would tell them it took me 30 years to resolve my guilt and that I am forever changed through the blood of Jesus. BEFORE ME, the undersigned authority, on this day personally appeared Nancy Binford (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: The summer of 1973, Salt Lake City, Utah area.
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, I was told where to go and what time.
- 3) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? YES.
- 4) Did anyone pressure you into having an abortion? YES. If so, who? From myself.
- 5) How has your abortion affected you? I married the father of the baby I had aborted for I felt who would ever want someone who would kill her own baby. I didn't love him and after 16 really awful abusive years our marriage ended leaving me to raise our 2 children alone. Another request to abort it came and I agree later that I never truly felt I had the right to truly enjoy my children, I murdered my memories, and I lived in fear of being found out. I had breast cancer over 10 years ago, which may have been a result. I would never forget but I really know God forgave me when I sinned His forgiveness and my baby with for me.
- 6) How has your abortion affected others in your life? My children had a mother burdened with guilt and self anger and after their parents divorce had to watch their mother go through cancer at their young ages of 9 and 11.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? This is a baby not tissue! Please your trust in God and He will get you through this, but don't end your baby's life! If you can't raise your child there are so many wonderful couples who can and will. Save both your lives!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I remember when abortion was legalized and women no longer had to die in back alley abortion clinics. I was young, that must be a good thing, then I got pregnant and was sent out to it. It had not been legal, and so easy to get my baby would be alive, I may get to see him under the shadow of heaven returning. A baby should be more protected than the animals we feed our children should be. Might morals, not do what feels good there's always an easy way out!

AFFIDAVIT
To be filled out by women who have had an abortion

The State of Ohio 09-30-02
County of Richland

BEFORE ME, the undersigned authority, on this day personally appeared Suzanne M. Bishop (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: May 03, 1978

- 1) Tell when and where your abortion occurred: Founders Womens Clinic, Brookstreet, Columbus Ohio
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I was asked under "what" (why are you here?) that was the extent until "AFTER" the abortion, when we were herded into a conference room and given vitamins and a drink "what to do is... per talk"
 - 3) Were you adequately informed of the consequences of abortion? NO I was damaged, hemorrhaged, infection, problems for years after, never another normal period, itching in severe external areas and complete hysterectomy
 - 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO - I do have Fibrocystic Breast Disease
 - 5) Did anyone pressure you into having an abortion? me If so, who? Fear of being found out. IT WAS NOT MY LIFE IN MY FRIENDS (sin begets sin)
- These are very scary things*
- How has your abortion affected you? I am 4 yrs old and childless I desperately miss what could have been. I know in years past I drank, did drugs and made other self-abusive behaviors to bury my grief and pain. I know this led to bulimia which led to diabetes. My hysterectomy led to osteoporosis. Would you like to read what I have written over the years?
- How has your abortion affected others in your life? My mother grieves for me, my loss and her dead grandchild.

8) Based on your own experiences, what would you tell a woman considering abortion? DO NOT DO IT! There are alternatives. You cannot fathom the long term consequences when the reality sets in and you realize you are not just "unpregnant" you ARE the mother of a dead baby that ain't gonna go away.

9) Based on your own experiences, what would you tell a court that believes abortion should be legal? The Devil of Abortion God says you shall not kill anyone including babies created in His image. By legalizing abortion every "judge" carries the blood of the innocent on their hands. Every "judge" is as responsible as I am for the outcome of my choice, though their guilt "I have read the above and foregoing statement and the same is true and correct" is multiplied millions of times over.

- 1) Tell when and where your abortion occurred: 1968 - a home in Texas

- 3) Were you adequately informed of the consequences of abortion? No
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? Sufficient
- 6) How has your abortion affected you? The abortion has affected me most in the area of guilt. I just don't know how to live with it. I would never have been able to forgive myself.
- 7) How has your abortion affected others in your life? When my two grandsons upon me, whether it would be worth it through the medical world.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? No matter how much denial you put yourself in, you can't deny the fact that you can't escape your own conscience.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion legal only under the strictest circumstances. BEFORE ME, the undersigned authority, on this day personally appeared J. H. F. B. (Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Atlanta Ga Downtown clinic
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No If not, explain: That fetal tissue would be washed out by a saline injection. Not that the baby would detach it, be in pain and die and then they would suck his dead body out of me.
- 3) Were you adequately informed of the consequences of abortion? No - chances that I might never conceive again, breast cancer risk not informed of severe depression and suicidal thoughts for the next 5 years
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? Not yet
- 5) Did anyone pressure you into having an abortion? Yes If so, who? The baby's father, my parents, the clinic phone counselor
- 6) How has your abortion affected you? That baby would have been 11 years old now, and it haunts me that I murdered him so easily, without much thought. I have lived through many traumatic events - incest, rape, divorce, neglect, drugs, near-death surgery of all my life. It is the one day and I event that changed my life the most. I would most like to take back
- 7) How has your abortion affected others in your life? My 8 year old frequently asks why I killed his brother before he was even born. My husband can't talk about it because of his guilt over 2 aborted babies.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do you realize that you would be taking the life of an innocent child that can not speak up for their rights. How many people are begging for children and the gift priceless you could give them. Do you want this decision to haunt you the rest of your life?
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? In the best circumstances women are very emotional, scared and confused of what is happening to their bodies during the first trimester. If post-partum murders aren't legal and to be avoided, we also need to protect life from the start and avoid abortions as well. Every life is precious. AFFIDAVIT

The State of Texas

County of Bexar

BEFORE ME, the undersigned authority on this day personally appeared SHARON BLAKENEY, who, after being by me duly sworn, upon oath stated the following facts:

"My name is SHARON BLAKENEY. I am over the age of eighteen years and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm that the following facts are true:"

"It was the fall of 1988, I was seventeen years old and in my senior year of high school. My parents that had raised me in a strict Southern Baptist home were having marital problems and before the school year ended, they were divorced. I was an honor student and an officer for the school dance team. I had already been accepted to the University of Texas in Austin for college and looked forward to joining my boyfriend that I had been dating for a year and a half in Austin. He was on a golf scholarship to a private college there. Then I found out I was pregnant. I told my boyfriend first. He really didn't say anything. He was very concerned, but I don't think he knew what to say. He just held me while I cried."

"Then I told my mom. She was already under a considerable emotional strain with the problems she and dad were having, and I knew that my pregnancy would not be good news. She asked me what I was going to do."

"This threw me for a loop. I was not expecting her to ask me what I was going to do, I expected her to make the decision for me, or at least offer help if I wanted to have the baby. I believe in my heart I wanted to keep my child, but I was very afraid of the embarrassment of being pregnant while still in high school. If I kept my baby it would have meant being kicked off the drill team, probably having to drop out of high school, not graduating with my friends (or with honors), and definitely no college at UT. I was also terrified of how upset my dad would be if he found out. Looking back though, if someone had told me they would help me - anyone, my boyfriend, my mom, a counselor, anyone - I would have had my baby. Unfortunately, my boyfriend and mom never said they would help if I decided to have my baby, they just asked what I wanted to do, and there weren't any counselors to talk to at the clinic. Too embarrassed to talk to anyone else about it, and feeling like I had made a terrible mistake by getting pregnant, I decided in hopeless desperation to have an abortion. I felt it was the only way my

boyfriend could continue his college on his golf scholarship, my mom clearly didn't need any more stress in her life, and I felt terribly inadequate to bring a child into the world."

"I looked in the Yellow Pages under "abortion clinics". There were hundreds of listings. I called one on the 59 South Freeway and scheduled an appointment for the next day. The next morning my mother took me to the clinic. It was in a tall office building. I remember thinking how strange it was that there was an abortion clinic in the same building as travel agencies and law offices. I was also surprised there weren't any protestors outside. I think I wish there had been."

"We went upstairs to the clinic office. We got there before the clinic opened and there were several young girls waiting in the hall for the clinic to open. Some of them were crying. It all seemed like a very bad, very strange dream. When the clinic opened I went to the counter and signed in. They gave me a urine pregnancy test that came back positive. The receptionist asked me for two hundred dollars. I paid the money for the abortion and waited until they called my name. A lady took me in back and had me change into a gown. I then waited a while more and she came back in with the doctor. I kept waiting for someone to talk to me about other options, like adoption, or a crisis pregnancy program, or something. No one ever even said "Are you sure you want to do this?"

"The nurse told me to lie down and the doctor began the abortion. There was no physical exam done at all prior to the procedure to make sure it was safe to perform the abortion, they just did it."

"First, there were several very painful injections. Then, very painful cutting, scraping and poking deep inside me. Then a horrible, loud sucking machine was used. I felt my entire insides were being sucked out, like my very heart was being ripped from my body. I was crying and I tried to sit up. I think I wanted him to stop, but I don't know what I was trying to do, I just kept trying to sit up. The nurse pushed me down and put a gas mask on me. Then I couldn't move but I was still conscious of what was going on. There was more painful cutting and scraping, and more horrible vacuuming of my insides. It was the most awful thing I've ever experienced in my whole life."

"Then the nurse made me get up and get dressed right away, which was very difficult to do because of all the gas they gave me and the operation I had just gone through. She took me down the hall to a disgusting, crowded room full of cots with young girls laying down holding their stomachs, bleeding, and crying. It was terrible. I'm not sure how long they made me lay there but it seemed like an eternity. They would take the girls that were bleeding too much to change their sanitary napkins and then bring in another girl in the same awful state. The room stayed full. For every girl that left another was brought in. I couldn't believe how many girls were having abortions. I wondered if anyone had asked them if they were sure that was what they wanted, or if anyone offered help or another option."

"One month after the abortion when I went for my follow-up to my mother's OB/GYN, I found out that I had a cyst on my right ovary the size of a grapefruit. They scheduled an operation right away to remove it because the slightest movement of the cyst could cause it to twist my ovary and create a potentially life-threatening situation. If the doctor that performed my abortion had done a simple physical exam prior to beginning the procedure he would have discovered the cyst. Instead, he simply went ahead with the abortion and unnecessarily put my life in danger."

"After the abortion what I found out was that everything I was trying to protect by having the abortion was either severely damaged or completely destroyed. I went into a deep depression, and so did my mother. My mom, who had never even tasted alcohol before began to drink heavily. My parents divorced. My boyfriend and I both began to drink heavily as well. Some time later he began dealing illegal drugs and dropped out of college. I also began experimenting with drugs and quit the high school dance team. I missed almost thirty days of school my senior year after the abortion. I just didn't want to go. I didn't want to do anything but try to forget the horrible experience of losing my child."

"After many terrible fights, my boyfriend and I broke up. I had almost no control of my emotions and would turn what should have been happy occasions like my senior prom and graduation) into tragic fiascoes. I did graduate from high school, and went on to college, but did very poorly in school for the first few years. I had difficulties in every relationship with a man after my abortion, and my overall health and happiness drastically declined. I married the first man that loved me enough to ask me to marry him, just so that I could replace the child I lost and have a child I could keep. It was a terribly selfish thing to do. I was married 3 days after I turned 20, and was pregnant again one month after our wedding."

"I do have the most wonderful child in the world. His name is Cody, and he's eight years old. He is truly a blessing from God and I love him very much. While I was pregnant with Cody, I entered into a personal relationship with Jesus Christ and my whole life changed. Being a Christian doesn't give you a perfect life, but it does give you the perfect assurance that the Lord will never leave you or forsake you. Unfortunately, Cody's father and I were divorced two years after we were married. Although I had become a Christian, there were significant problems that existed in that relationship because it had not been founded in love from the beginning. It took a few years I received Christ as my savior before I fully realized that the depression I was suffering from, the unexplained feelings of guilt, the mood swings, the chemical abuse, all were symptoms of post-abortion syndrome. Once I realized that, and accepted the forgiveness and healing that Jesus Christ offered, I was a changed person."

"Now, because I'm allowing Him to, God is taking the biggest mistake I ever made and is using it for His glory, because He makes all things beautiful in His time. I pray that anyone who reads this affidavit will see that abortion was truly a harmful event in my life. The emotional and health consequences are real, and women should be told of

those conferees before making a decision that will affect them for the rest of their lives.”

“I have read the above and foregoing statement and the same is true and correct.”

No
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? _____
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The counselor at the abortion clinic
- 5) How has your abortion affected you? Yes, I was extremely sad, depressed and suicidal after my abortion. After my abortion I used drugs and alcohol frequently to numb the feelings. I felt far away from God - in fact I lost my relationship with God before I confessed my sin of abortion. I lost my sense of self-esteem. It took me 14 1/2 years to finally feel healed from my abortion.
- 6) How has your abortion affected others in your life? Yes - I have acted depressed toward my children and husband.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her that abortion is very painful emotionally and spiritually. I would encourage her to choose life and look for options such as adoption.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell a court that I believe abortion is wrong not only because it ends a life but because it hurts and destroys a woman's life. I would say that abortion should not be legal because it hurts too many women and also ends innocent life.

- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
Abortion was accessible & available. Had I had an ultrasound, been counseled on the emotional, physical, mental consequences, if I had realized I could see "him" in my boyfriend's DNA, I would not have reflected on the notion that my government wouldn't uphold a law that ultimately wasn't good for me. "I have read the above and foregoing statement and the same is true and correct." I'm angry! Abortion is... deception!

AFFIDAVIT

(Questions For WOMEN Who Have Undergone Abortion)

The State of Delaware

County of New Castle

BEFORE ME, the undersigned authority, on this day personally appeared WILMA BOEHMER, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1970 in Baltimore, Maryland and 1975 in Baltimore, Maryland
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I don't think so. Nobody ever impressed me it was a child but inar it was only the beginning and there was nothing wrong in doing it.
- 3) Were you adequately informed of the consequences of abortion? I don't believe so. The only things I was told was that I would have excessive bleeding but they did not tell me of the emotional consequences.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No. No.
- 5) Did anyone pressure you into having an abortion? If so, who? The first time my doctor and my boyfriend pressured me because the baby possibly had birth defects because of radioactive dye that I had so though my blood due to a brain scan that they did. The second time was for convenience.
- 6) How has your abortion affected you? It is a pain that goes directly to the soul. It never lets go. You might think its gone but it is always there. Anything can trigger it. I had to have a hysterectomy at the age of 28. I had pre-cancer tumors on my ovaries, and I was bleeding all the time. I also had a severe case of endometriosis. Due to the abortion, I have built a wall around me where even if people tell me that they love me, I cannot feel it. I know God loves me, but I can't feel it.
- 7) How has your abortion affected others in your life? I married at 28 and my husband and I have never able to have a child together.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I couldn't tell her strong enough not to do it. Hind sight is always 20/20. I would do whatever possible to prevent it from happening. I really feel that carrying all this pain (and I have not told anyone except my husband) has affected me mentally, emotionally, and physically all of my life and I am to the point where I am disabled.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? It is definitely not OK with God. No matter what age or weeks the child is, it is murder and you feel like you have committed murder. I have gone over the ten commandments and have broken everyone of them.

- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? My abortion led to a life of depression and anxiety. I really thought that I would never about what I had done. I know deep down that it was wrong, but I turned to do things that I should have done. I went consistently over 8 hrs. I felt worthless, I tried to cover my "sin" with drugs and drinking to numb. I have never been able to deal with it. I am now "FREE TABS"
- 6) How has your abortion affected others in your life? It has affected my family because they have had to deal with all the effects of my pain and grief. Some don't know but they all know I was hurting.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would make sure that she heard my story. I would ask her to pray with me and ask God to show her the light. I would do my best to get her to a doctor if money is a factor. I know she would feel my emotion pouring out when I talk.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them to consider what their lives would be like without "their son". - 6) How has your abortion affected others in your life? _____

(Questions For WOMEN Who Have Undergone Abortion)

The State of Kansas
County of Johnson

BEFORE ME, the undersigned authority, on this day personally appeared K B (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: First abortion in 1975 at "Comprehensive Health" in O.P. Kansas. Second abortion in 1981 in Springfield, Missouri.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: Yes.
- 3) Were you adequately informed of the consequences of abortion? No.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO. Yes, I had breast cancer in 1996.
- 5) Did anyone pressure you into having an abortion? If so, who? Yes. My parents, my boyfriend, his parents and my high school nurse.
- 6) How has your abortion affected you? Mentally, I experienced depression, experimented with alcohol and drugs, developed an eating disorder, and later dealt with much anxiety related to my family. I went through 20-25 years of grief before learning the root cause of my problems.
- 7) How has your abortion affected others in your life? I've been pessimistic, afraid of visiting, the worse to happen. And I was overprotective of my children for quite some time.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? What seems to be a quick and easy solution, is not. Abortion causes more grief than one can possibly imagine. Eventually, the woman will have to deal with the unexpressed feelings - usually 15-20 yrs. later - and it is not quick & easy.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Is it legal to withhold, circumvent, conceal, from a woman who is thinking of having an abortion? No. We're so hell bent to protect ourselves by political state errors, it seems unbecomingly not to consider such to a

The State of Texas
County of Grayson

BEFORE ME, the undersigned authority, on this day personally appeared Tammy Boyd (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 1984 Ruth Street Women's Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? As far as I can remember, I know I must have been told something, but I don't remember my mother or father that they advised my friends if I might have had.
- 4) Were you informed of the link between abortion and breast cancer? Yes. Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? my parents, I guess they didn't want the embarrassment of their wife having a child that had a defect to take the child.
- 6) How has your abortion affected you? For many years I feel like I just sucked it out or never came to term. I think I had dropped on the way on a hot stove. I had pictures or graphs showing a partial abortion. And I just kept for so long. I don't know if I had not had that procedure I think that I would have had something very serious. I gave up a baby and prayed for justice and for my best in it all. I don't remember what they had to tell me if I would have to go back and change the ending of a child and change the wonderful life of a person.
- 7) How has your abortion affected others in your life? Only my parents and that couple that wanted the baby.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? There are only aspects that come along with it, if the people at the clinic cared for you, they would tell you if all the risks both emotionally & physically. I would rather have a child in growing up than wondering what might have been.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion has been used & abused. If we are a protection of life, liberty and pursuit of happiness, we should defend to live the purpose of the things.

"I have read the above and foregoing statement and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared Gina Boyle (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: Pomona, CA 1979
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? No. If not, explain: It was not explained that my baby's heart was beating prior to the abortion. It was not explained to me that there were long term effects on my emotional well being.
- 3) Were you adequately informed of the consequences of abortion? I do not remember the nurse telling me about any consequences.
- 4) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No.
- 5) Did anyone pressure you into having an abortion? Yes. If so, who? My father. I only discussed the pregnancy with him and it was the only option I thought I had.
- 6) How has your abortion affected you? I have lived with guilt and fear. When my daughter was born prematurely at 35 lbs, I believed that I had caused her health struggles because I had had the abortion. I felt like if I told anyone what I had done, they would reject me. I held it as a horrible secret in my life.
- 7) How has your abortion affected others in your life? It caused problems in my marriage with the father. He blamed me for killing our baby. We are now divorced. It caused my parents great pain. Abortion trivializes life.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I do tell women considering abortion the miracles of life growing in her womb. I know she is scared and thinks she can't give birth but with help she can overcome the obstacles. Abortion is final, permanent and painful. If I could go back, I would not have aborted my baby.
- 9) Based on your own experience, what would you tell a county that believes abortion should be legal? After now raising 2 children to term and raising them. I know that a mother bonds with the child growing inside her. To kill that life brings guilt + shame. And I would ask "What if a man beats a pregnant woman, killing her unborn baby is it murder, and illegal; and if she has an abortion (same end result) I have read the above and foregoing statement and the same is true and correct." It is legal.

BEFORE ME, the undersigned authority, on this day personally appeared Dennie Bradshaw (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 12/13 at Feminist Health Center of Portsmouth
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? Yes If not, explain: _____
- 3) Were you adequately informed of the consequences of abortion? yes
- 4) Were you informed of any link between abortion and breast cancer? yes Have you had breast cancer? _____
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? It has shown me what the value of life is and what a big mistake they made. I regret that I've ever taken a life and can't get it back. I don't know why, but God has blessed me with 2 boys after having an abortion.
- 7) How has your abortion affected others in your life? I mostly kept the abortion a secret from most people. I know I am very sure they're sad for the child that was taken - they really haven't shared too much with me on their views.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Please don't have an abortion. You'll regret having one for the rest of your life. The child deserves a chance even if you're not ready for a baby. You can always give it up for adoption.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion should not be legal on any place anywhere. Abortion is selfish and is not thinking of the child. A child will not be given a chance at all and that is not right. There are other options if one chooses such as adoption to give this child a chance. We would all have wanted this to happen to our family members - so why to an innocent child?!"

- 3) Were you informed of any link between abortion and breast cancer? No. Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No. If so, who?
- 5) How has your abortion affected you? I keep it mostly to myself. I don't like to discuss it. For many years I felt that I couldn't & shouldn't be forgiven for the abortion. I know I have a child in heaven that I could have with me, on earth and that hurts inside - just like a death; because it is a death.

To be filled out by women who have had an abortion.

The State of Texas

BEFORE ME, the undersigned authority, on this day personally appeared E B (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Fall of 1992 in New York
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
I don't recall receiving any information about the risks of the course of the kind of the procedure. There was no mention or discussion of the fetus being a baby.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes If so, who? my boyfriend did at the time. However, I fully agreed with him that this was the best solution.
- 5) How has your abortion affected you? I have and still suffer tremendous guilt and pain over the loss of my baby. It is often difficult to look at other children because I am reminded of the pain I chose to have abortion. I am often angry and depressed. My choice so many years ago has burdened me and I often feel like I have a deep dark secret that I am hiding from the world. The pain runs so deep and I struggle with the reality that I can never change what I have done and how that previous life I so selfishly and wrongly took from someone's life.
- 6) How has your abortion affected others in your life?
Not many people close to me know about it. My husband often often subjected himself to my anger. He doesn't understand. My mother is always there and I am always thought to this believe you make any decision. This is a life a human being created by God in his image. From the moment of conception all the DNA is present in this little life - determining who he or she will be.
- 7) Based on your own experience, what would you tell a woman considering an abortion?
This is not an issue of a woman's right to choose what is best for her. This is an issue of whether or not a life will be killed or saved - an innocent life.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal?
This is not an issue of a woman's right to choose what is best for her. This is an issue of whether or not a life will be killed or saved - an innocent life.

6) How has your abortion affected you? I spent years going from relationship to relationship + became more sexually active. Alienated from family, problems in school, girlfriends became distant.
7) How has your abortion affected others in your life? I drew others in eg roommate gave me the money against her better judgement. Wife spent years not talking to one another.
8) Based on your own experiences, what would you tell a woman considering an abortion? It is a self-destructing decision that pulls you into a downward spiral. Every aspect of your life is affected. You eventually feel tremendous guilt which you try to cover + compensate for and never can.
9) Based on your own experiences, what would you tell a court that believes abortion should be legal? It seems like an answer to a difficult situation. As with most quick fixes, it creates tremendous psychological + emotional difficulties that overflow + stay hidden for years. In most cases continues into following generations if not addressed. God is the only answer at that point.
I have read the above and foregoing statement and the same is true and correct.

BEFORE ME, the undersigned authority, on this day personally appeared F. B. (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Lakeland, Florida 1990's
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was not informed of some of the physical consequences, but not what it was or what it did.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? YES
- 4) Did anyone pressure you into having an abortion? YES if so, who? Boyfriend/Husband

5) How has your abortion affected you? I am very sorry for my choice. Now I realize it was wrong. I know I have been pregnant and I have a very good friend who has been pregnant and she knows I will not regret it. I know I have a son now. I did not give them a chance at life. I wish I had been a Christian at the time or had a Christian to counsel me.

6) How has your abortion affected others in your life? I know it upset my parents and my present husband.

7) Based on your own experiences, what would you tell a woman considering an abortion? God loves her and he plans for that baby. The baby is not a surprise to Him. It is a murder. He will help that child.

8) Based on your own experience, what would you tell a court that believes abortion should be legal? As we truly believe in the American dream, we can't live just, we should not be murdering babies. We should have a law that says that if a woman aborts, she is guilty of murder. There are many people waiting to adopt babies.

BEFORE ME, the undersigned authority, on this day personally appeared Tina C. Brock (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: I had an abortion in Atlanta GA. in August of 1985.
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No, I was not told anything about abortion. I was not counseled in any way. It was not told that it was a form of surgery or anything to that effect. I was handed papers to sign, no one went over them with me. I was too emotionally unstable to be signing any papers. No one told me of the risks I was taking.
- 3) Were you adequately informed of the consequences of abortion? No, I was not told that having this abortion would affect me emotionally for the rest of my life, and I was not informed of all the physical effects it could have had on my body or that I could even lose my life or that I was taking the life of my baby.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? I must distressfully was not informed of a link between abortion & breast cancer. My mom had breast cancer. I don't think I have not had breast cancer.
- 5) Did anyone pressure you into having an abortion? If so, who? I don't believe I was pressured into having my abortion although family members took care there & no one advised against it. I only wish someone would have told me about a crisis pregnancy center or at least told enough to counsel me about it.
- 6) How has your abortion affected you? After my abortion, my life was very emotionally unstable. I had severe episodes of depression & found myself crying uncontrollably for 2 or 3 years. Then 6 or 7 years ago I accepted that God had forgiven me for killing my baby or allowing doctors to kill my baby, and God has healed me of my depression.
- 7) How has your abortion affected others in your life? No one wants to talk about it, because abortion is so horrible.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her everything that I was not told & I would tell her everything that I have learned about abortion. I would tell her that it is a living baby she is carrying & not just a blob of tissue, and that every baby deserves life just as we live. I would explain the other options if she could not keep the baby.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask them since murder is illegal & they know it is, then why are they allowing millions of babies to be murdered each year. ABORTION IS MURDER!! I would also ask them do they care about all the emotionally & physically scarred women & men left over after an abortion.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: JUNE 1986 ~ Orlando, FL
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO. If not, explain: Being that I'm not in the Medical field, the counselors spoke in clinical terms. Terms I would never comprehend nor retain for the future.
- 3) Were you adequately informed of the consequences of abortion? NO - The counselor said I would only remember 2% of what they said. So why bother? She was wrong. I remember details that will haunt my thoughts (more like 87%) 13% under abuse.
- 4) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? NO
- 5) Did anyone pressure you into having an abortion? NO. If so, who?
- 6) How has your abortion affected you? If I had had a scope to view my womb perhaps it could have explained 3 miscarriages, 1 extremely difficult labor and 2 hormone required bed-ridden pregnancies. Do I have 3 healthy children? Yes. Would I have made a better choice in 1986? Yes. I would have researched my heart and let God reign in my life then. Part of me was lost that I have a daughter, I know there will be a day when I may have to share in sorrow to explain my walls or behavior.
- 7) How has your abortion affected others in your life? Trust issues came up and now that I have a daughter, I know there will be a day when I may have to share in sorrow to explain my walls or behavior.
- 8) Based on your own experiences, what would you tell a woman considering abortion? I feel there are zero reasons that I would endure an abortion today. What I know now I still would never consider an abortion. God's plan is sovereign - not mine. I would discourage anyone.
- 9) Based on your own experiences, what would you tell a court that believes abortion should be legal? That until you've come to grips w/ your conscience or the science in con-science - the science that you've implanted a live, viable heartbeat, that was being nurtured perfectly by the human body - no one being has the right to kill a pre-embryo. lobby - no one - no government, no counsel, no

- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No.
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The father of each abortion. + my mother
- 5) How has your abortion affected you? Before I received Christian Counseling - it led me down a path & journey of self hatred & depression
- 6) How has your abortion affected others in your life? It has hurt many and I'm sure for my twin children they wonder why their twin children could have grown to be in their life
- 7) Based on your own experiences, what would you tell a woman considering an abortion? It is totally impossible to unwind the abuse emotional, spiritual & sometimes physical damage also then I think I liken abortion to the venison halibut - you live physically, but trapped in a concentrated cage of your own choosing for life - what is worse is that you've separated your child to the gate of hell - you live with this - there is always a subtle whisper in the air.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? This is a deep spiritual issue for me, but before (1976) I was a Christian, or emotionally able to understand what I had and or grieving I had a abortion, I believe women suffer too early after abortion. One - since we are spiritual beings we create a separation between us and God, thus living a condemned life - like thinking "I can never be forgiven so why try"? Two - we women we naturally begin a grieving process due to the fact that a natural process of child bearing was interrupted and we live in that process rather than heal from it. I have read the above and foregoing statement and the same is true and correct.

THE STATE OF California
COUNTY OF Los Angeles

Before me, the undersigned authority, on this day personally appeared Laura M. Brown, (Print Name) who, being by me duly sworn, upon oath, stated the following facts:

My name is Laura M. Brown (Print Name). My address is 5512 Peabody Ave. Lakewood CA 90712-2007

I am

I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

In 1988 I was a single mother of a 2 year old. I found myself being pregnant again by the father of my 2 year old. Not knowing what to do, I called my brother and his wife. My brother was talking to me, comforting me and suggesting not "having" the baby. Then his wife got on the phone and told me how "lucky" it would be to my child (the 2 year old - not the baby within me) and it (the unborn) would take away from the relation ship I have with my living child. She gave me other arguments and finally convinced me to abort my baby. - Have an abortion, have it aborted, stop the pregnancy, have a DNC - She also volunteered to go with me, conveniently my health insurance covered the cost, and so we went. Entering the clinic was frightening to me, I wanted to be ignorant of what was going on, she told me it was a simple procedure, a lady (in the assembly line of women) who sat next to me told me it was nothing "it's my 8th time" she said, I can still see her face. They did a sonogram. I remembered the one I have from my 1st child. At that time I realized, plainly, that what I was about to do was wrong. But all were encouraging me to proceed, I couldn't stop now and I went through with it. The mercy is that I was put under, so that when I awake I had no memory of it. I have heard of those who don't get knocked out they have that memory also. There was some pain, some antibiotics, some instructions, and over the door, I went over. Six months later, not learning from that experience, I was pregnant a gain, same man. I didn't call my brother, I was too ashamed. I called the father, he said he would go with me, he never showed up. I drove myself, parked one block away, walked in, went through it again. This time when they did the sonogram there was something wrong. There was a consultation, not with me but outside the room. When the nurse came back I asked what was going on, she said it would be alright, they could procedure. They don't let you look at the sonogram I was passed 13 weeks, I don't know all of what that means, but I know that the baby suffered. I awake, this time there was more pain than before, some

Please return to: Texas Justice Foundation, 8122 Datapoint, Suite 812, San Antonio, TX 78229
antibiotics, some instruction and out the door. I walked to my car, no one asked if I had a ride home (that is hospital procedure after someone has anesthesia - someone must drive you home). I was depressed and in that depression came me to go to a motel alone, sleep and not take the antibiotics

000170

as I should, the pain continued more pain. I finished the antibiotics but not the prescribed, the pain continues. I went back to the clinic, there, no compassion, it was an interruption to their process, an inconvenience. I was disappointed given more medication and stringently directed to take them. I finished the prescription and the pain was gone. No one told me how depressed I would feel, no one was there to talk to about what happened, and how guilty I felt, how lost, how angry I felt. Later I learned that women who miscarry go through depression, loss, emptiness, that is when I related my experience, my choices, my wrong choices, to that of losing a baby. I wasn't told of any options of carrying the baby and giving it to a loving couple, so I would know it was alive and loved. I wasn't given compassion in my depressed, self-destructive phase. After my second abortion, I see now that it was suicidal in not taking the medicine that would help me, I was thinking "how could I chose to not allow it to live!" I was selfish and willingly ignorant. Those who support abortion don't see the results - the mangled bodies of tiny, perfect people. I have read the above and foregoing statement and the same is true and correct.

(Questions For WOMEN Who Have Undergone Abortion)

The State of North Carolina

BEFORE ME, the undersigned authority, on this day personally appeared Sherri L. Brown (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: March 31, 1989; Volunteer Medical Clinic Inc. 12501 Medical Complex, 34 Cooper St., Knoxville, TN 37919
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: I don't believe anyone who has an abortion is "adequately" informed. It was explained to me in such a way that it seemed I was merely removing a growth of tissue; the long-term effects were not discussed at all and adoption was only mentioned in passing.
- 3) Were you adequately informed of the consequences of abortion? Only the physical aspects of the 1st week post-abortion were discussed. No one mentioned the emotional, mental, spiritual trauma that accompanied the abortion.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No and no.
- 5) Did anyone pressure you into having an abortion? If so, who? No one pressured me into or out of the abortion.
- 6) How has your abortion affected you? See attached pages, please.
- 7) How has your abortion affected others in your life? It has changed the way I look at and interact with people, hardened me in some ways, drove out of me thoughts and feelings, reactions I wouldn't have had otherwise.
- 8) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her how it affected me, and later to adopt her baby. I would tell her to listen to the voice trying to tell her not to do it, telling her it's wrong.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Compared to the number of women who died as a result of "back-alley" illegal abortions years ago, the millions of babies killed and the women whose lives gotten breast cancer, became infertile, suffered mental illnesses and all the rest of the story is abortion, it is not worth the price of human life. I have read the above and foregoing statement and the same is true and correct.

000173 :

Question: How has your abortion affected you? What a question. Forgive me for making this so long, but I must say this. I can attest to this issue from two perspectives- both as a non-Christian, and as a Christian. I was not a Christian when I had the abortion, was 19, and single, and had gotten pregnant as a result of an all-night strip poker party at the apartment I shared with a female roommate. Not exactly a love story, to say the least; certainly an accident. When I found out I was pregnant I did not have a job, I no longer had the apartment, and I had absolutely no idea what to do with myself. I was completely lost. I don't remember thinking about being pregnant very much or very often. I just remember panic and depression, shock, utter despair at the thought of an embarrassing pregnancy. The thought that I had a life inside me did not really occur to me, so lost was I in my selfish despair. I didn't want the embarrassment, the inconvenience, the shame of being an unmarried mother. I reasoned that I was too young to have a family, and since I had no source of income, no place to live (long story), and was confused in absolutely every way a person could be, that it was the only logical solution.

I asked the thoughts of two friends; one said she didn't know what I should do, and the other offered to loan me the money for an abortion, a place to live, and a job, as a nanny to her two children. I took her up on it. She and her husband offered me what I thought I needed at the time, and I made the necessary arrangements. It seemed so simple. Little did I know the cost. It was so much greater than the \$300, \$150 of which I had borrowed from friends. The other half came from the "father" of the baby.

On March 31, 1989, we (the father and I) went to the clinic in Knoxville. I don't remember walking in, and I don't remember walking out. I do remember going into a room where there were a lot of women who, like me, were looking everywhere except at each other. The "counseling" session lasted about 15 minutes, and consisted of a short video which showed a tiny little mass of cells and explained to us that those cells were not actually living tissue yet, and those cells were not actually considered a fetus, but an embryo, which had no nerve endings and could therefore not feel any pain. The video all but congratulated us on making a mature, responsible decision, and further summarized the simplicity of the arrangement and the serenity that would come with knowing that we did the right thing for us at the time.

On that day I did the single most horrific thing I have ever done in my life. How did it affect my life?

At first, I had to make some choices. I had to decide if I was going to give in to my near madness the night I came back from the clinic and the couple for whom I was a nanny left me with the colicky 3 month old baby girl. Weak and sickened, I had literally crawled up the flight of stairs to my room. I'd laid down on my bed and stared at the ceiling. I was hurting physically, having menstrual-like cramps, and was mentally drained. I don't remember thinking about anything at all. The woman I worked for yelled up the stairs to see if I was okay, and I told her I was fine. Then she told me she and her husband were going to a bar in town because the baby would wake up soon for her nightly 3-4 hour crying colick time, and they "couldn't listen to it tonight." So, I worked my way downstairs and laid down in their bed, next to the bassinet to await the waking of the baby. The three-year old daughter was watching tv.

Sure enough, the baby woke up and began her nightly ritual of inconsolable crying. I sat, holding the screaming infant for three hours until she finally calmed down enough to take a bottle and go back to sleep. I cried silently and went to bed thinking that was what I got for doing what I'd done that day.

Within weeks I'd all but forgotten about the pregnancy. My life moved on, I found work, got a new apartment, and on the surface things had gotten better. However, I'd still not faced the

reality of the "choice" I'd made. I began therapy for depression the next year, and in September of 1991, still in therapy, I came to remember that I'd killed my child. The therapist had me write a letter to the child that I had, "committed to the universe," which I did, and one night I confessed what I'd done to my best-friend-at-the-time, by reading her the letter I'd written to my dead child. She cried with me and held me while I told her I was a monster and unforgivable.

My friend did the best she could to console me, and eventually helped me to calm down, as I was in hysterics by the time I'd finished reading the letter to her. To say that the ugliness of what I'd done hit me would be an understatement. Finally, I was confronting the truth about what I had done. Finally, I was grieving for the loss I'd inflicted on myself and my child. But there still was no relief from the agony I was experiencing. I was restless, agitated, depressed, out-of-sorts. The therapist offered a worldly view of what she considered sound advice for the grieving, and eventually I came to grips with it by reasoning to myself once again that it was the "right thing to do for me, my life being what it was at that time." It worked for a while (again).

I found out I was pregnant in November of 1991. Still single, I was determined to face this and "do the right thing." I was going to keep this baby. No question. I knew in my heart of hearts that there was no way I could endure again what I had been through with the abortion. I knew that no matter what happened, it could not be worse than what I went through because of that.

When my daughter was born, I found a new life in motherhood and the business and chaos it threw me into. It was a hard but blessed, precious time- the time I had with her by myself. While I struggled financially, emotionally, spiritually, and even physically to do everything that I had to do to do my best to bring this child up "right," I was determined to do that best I could. I had peace that I'd at least done the right thing by her. There was no question, no doubt.

I became a Christian on June 19, 1994. Since then I have married a wonderful man, become a stepmother to a daughter, and have been what most people would think of as "successful" in just about every way- financially, emotionally, physically, spiritually. Am I at peace with what I did on March 31, 1989? I don't know that there is ever peace for something like that. But I can look on it in a different light now. I can see that I was a sick person, and that I behaved in a way that is consistent with what society tells women. I believed the lie that is abortion. I believed it because it seemed easy and convenient, it seemed harmless and a one-time solution to a lifetime problem. While I can never say that I am glad I did it, I can say that I have learned from it, and the fact that I have survived it thankfully to God, with my sanity (I think!) and my health. And the experience has taught me how to be more sympathetic and understanding to those who are without a relationship with God. It's a sad, meaningless, lonely place to be. I know, because I was there. While I have experienced God's forgiveness for the murder I committed, albeit a legal murder, I have struggled ever since then to forgive myself. The thought of the child I killed is never far from me. And I have March 31st of every year to dread, and will for the rest of my life. Do I still feel guilty? Yes. I still AM guilty of abortion. I'm forgiven, but still guilty. Some things you can't take back. Life is one of those things.

Did abortion cause all my problems? No. Did abortion solve **ANY** of my problems? *A resounding NO!*

Often in the years since the abortion, I have wondered about the Holocaust. I've wondered about the monument that is a pile of shoes representing the persons killed in the Holocaust. And I've often thought about how tall the pile would be if we were to stack one baby shoe for each person killed by abortion.

I've also been angered more and more by society and the so-called women who preach "choice" "independence," and "reproductive freedom," which are both misnomers for the lies and

destruction that abortion is, and leads to. I label abortion as a lie. It is the most horrible thing we face on this planet today. I believe that with all my heart. To tell women that it is okay, it is legal, it is even EXPECTED and (shamefully) CELEBRATED- that we have the "right" to kill their own unborn children is a horror that should shame every person to tears and action. We are supposed to be the country that leads the "free world," yet we preach to our women, to mothers, that we have the "right" to take the lives of our own children. It is abhorrent, and it incenses me. Not just that it is legal; what makes me most angry is that we women BELIEVE the lie that is abortion. It is shameful, and it absolutely makes me embarrassed to be a woman. Our bill of rights states that all men have the "right to life, liberty, and the pursuit of happiness," and yet we continually, day in and day out, take the lives of those unfortunate enough to be conceived by persons who are too selfish to see what they are doing, and those too ignorant to understand the effects this is having on those of us left to live out the rest of our lives in longing for the ones we've lost.

If abortion had not been legal when I was faced with this "choice," my children would have another sibling. I would have more than my one birth daughter's arms to hold onto, more than her hands to teach to fold in prayer at bedtime, more than her voice and that of my stepdaughter's to say, "I love you, Mom."

No wonder our young people kill each other. Life is nothing to their parents. Why should it matter to them? Nobody talks about abortion because it is shameful and wrong, and everyone knows it. And no one admits to having done it, for those same reasons. People don't want to talk about it for fear of inciting those few loud-mouthed women's libbers who are hell-bent on pushing their agenda at literally any cost, while millions of babies are being flushed, incinerated, and even worse, used in scientific experiments for profit.

How has abortion affected me? It has broken me, taken me to the brink of madness; it has destroyed a part of myself that I will NEVER regain. It has affected every aspect of my life in a negative way. It has been a cruel cancer to me for which there is no cure. Yes, I survived it, but at what cost?

God help us all.

000176

I found myself pregnant and unmarried in the Winter of 1970. Our family was very visible in our local church. At this time in history, being an unmarried, pregnant young girl was one of the worst things that could happen to you. My boyfriend would have married me, but my Mother knew that everyone would know why.

I made the choice to terminate the pregnancy. Abortion was not legal in South Carolina at that time, so I called an abortion clinic in New York and scheduled a visit. I borrowed the money to pay for the procedure and plane tickets for my boyfriend and me. No one knew about the situation except me, my mother, my brother and sister, and my boyfriend. My mother did not tell my father and I have never been able to figure out why. He went to his grave never knowing what I did.

I went to a clinic located at White Stone General. That is about all I can remember about where it was. I was not told anything about what the procedure would be like or the risks involved. I was offered a chance to change my mind, but that was about it. No one told me what was being done to me or why. The clinic was a cold, unfriendly place, and the people there made me feel as though I was at their mercy.

I did not have a clue what I was doing. If only someone had taken a few minutes to show me how my baby looked at 12 weeks; that his heart was beating, that he could feel pain, that brain waves could be measured, that he had ten little fingers and ten little toes. I thought that he was just a blob of some kind. There was no counseling about any other alternative, such as adoption. And most important of all, there was nothing said about the risks involved. I could have died at that clinic, left with baby parts still left inside or a perforated uterus. If I had known these things, I would not have taken such a chance with my own life even if I didn't care about the life of the baby.

I left the clinic and returned to South Carolina, telling myself that all was right again; that I could get on with my life because this little problem was taken care of. A year later, I married my boyfriend and I became pregnant right away. Our daughter was born in 1972 and another daughter was born in 1975. I still refused to let myself acknowledge the horrible thing I had done. My husband and I never mentioned it again.

In 1995, an incident happened to me that brought the whole abortion issue back into my mind. I could not put it back deep inside my head where I had safely stored it for 25 years. It became a demon that totally dominated my life. I began to drink very heavily. My life was coming apart a little everyday. I told my husband that I could not live with myself any longer. I was a monster who lived with a secret that I was terrified of someone finding out. I decided that I deserved to die. What right did I have to live when I had so easily murdered my own child? The pain that came from the reality of knowing what I had done was something I cannot describe. I began to plan my suicide, even telling my husband of my intentions.

My husband pleaded with me to seek help by talking with someone. But how could I tell another person and risk that everyone in my small hometown would hear about it? The thought paralyzed me. But I was still sane enough to know that if I did not do something.....there was no happy ending to this scenario. I sought counseling with a wonderful Christian psychologist in a neighboring town. She lovingly worked me through the steps of dealing with the shame, the overwhelming guilt, the hatred for my mom and sister, and the acceptance of responsibility for my choice.

When I look back over my life, I can say without a doubt that having an abortion is the worst mistake I have ever made. I thought since it was legal, surely it must be okay. But I certainly know better now. Women who are considering having an abortion should be given every available fact before they make their choice. The abortion industry is all about money, with no thought about the women and babies whose lives are destroyed. Based on the number of abortions that have been performed in this county, I can understand why the family unit is having a hard time surviving. If every woman that has had an abortion has been through the guilt and depression I have, what else can we expect.

I only pray that I will see Roe v. Wade reversed during my lifetime.

I have read the above and foregoing statement and the same is true and correct.

AFFIDAVIT

The State of Indiana
County of Hamilton

BEFORE ME, the undersigned authority, on this day personally appeared Katrina L. Brummett, who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) ~~Tell approximately when and where your abortion occurred:~~ My first abortion was in 1976. The abortion was performed by an OBGYN in the Bloomington, IN hospital. The second abortion was in 1977 and was performed at a Planned Parenthood Clinic in Indianapolis, IN.
- 2) ~~Were you adequately informed of the nature and consequences of abortion, what it is, what it does:~~ No, absolutely no information was offered to me that I recall on either abortion. I was young, naive and very scared, so didn't think it important to ask any questions.
- 3) ~~Were you informed of any link between abortion and breast cancer? Have you had breast cancer?~~ No I was not. And no, I have not had breast cancer.
- 4) ~~Did anyone pressure you into having an abortion? If so, who?~~ No, no one pressured me. It was my choice. I felt at the time that my difficult circumstances didn't offer me any other choice. I didn't want to live with the consequences of my decisions. Now, however, I see things very differently. I was too young and uninformed to be able to make a good lifelong decision.
- 5) ~~How has your abortion affected you?~~ Thankfully, to my knowledge, I have not had any physical consequences to my abortions. However, I suffered tremendously on an emotional and spiritual level for many years. I dealt with my abortion decisions by becoming emotionally numb, and eventually became incapable of attachment even in my relationships with my husband and my two daughters. I had violated my personal moral standards and therefore felt worthless, tainted, unworthy. I continued to make bad decisions that hurt not just myself, but my family, in an effort to escape the guilt and emptiness.
- 6) ~~How has your abortion affected others in your life? For far too many years, I was emotionally unavailable to my young children and my husband. My feelings of unworthiness and inability to give and receive love cost my family a tremendous price. A price, had I known, I would not have been willing to ask them to pay. I continued to make bad choices in the years that followed that created a lack of trust, love and intimacy in our marriage. We were a fractured family for many years. Our marriage suffered and our family suffered because of our abortion decisions.~~
- 7) ~~Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not an "easy" way to erase poor choices or to avoid unwanted consequences. The unfortunate truth of abortion is that we don't get to determine how this decision will effect us, or if in fact it effects us at all. When you are facing an "unwanted" pregnancy, all the options are difficult, the truth is there is no "easy way out." So please don't make a decision for abortion believing that it's a quick, easy fix. There are better options that won't leave you regretting for a lifetime a decision that you cannot possibly take back. There is tremendous potential for serious physical, emotional and spiritual harm, consequences that can scar you for a lifetime. You do have other options and there are many people, churches and organizations that are willing to help and support you and your family in this decision.~~

000183

8) Based on your own experience, what would you tell a court that believes abortion should be legal? The information the courts used in order to create the law and uphold the law since its formation is based on lies and half-truths. The two women whose life situations these laws were based; now see the truth about the harmful effects of abortion and they themselves are fighting to reverse the law, that should speak louder than anything. There are numerous statements of "fact" that have been used to support abortion as a legal right. One of the points of persuasion for legalized abortion has been "women have the right to make their own choices regarding their health and future." I completely agree with this statement. But it is also my right within that context to be told the truth about abortion, all of the truth, and nothing but the truth. I should be able to confidently rely on the abortion provider to give me that truth; no matter how my ultimate decision affects the provider: Why, when a woman is given an ultrasound before her procedure, do they turn away the monitor so as to not allow the woman to view what in the context of a "wanted" pregnancy the woman sees as her baby; this "blob of tissue" has hands, legs, eyes, a functioning brain and heart? Why are the potential physical and emotional risks minimized if talked of at all? You have no idea the emotional pain and turmoil I experienced when I saw during my "wanted" pregnancy what that "blob of tissue" looked like at 6-8 weeks, when I terminated. I have the right to know and to make an informed decision that I can live with for a lifetime, this is my most basic human right. The law was supposedly created to protect women, their rights and health. Abortion in no way protected me physically, emotionally, or spiritually, in fact that one decision nearly destroyed my life. It is the court's obligation to hear all the facts, even those that are contrary to the "voices of power."

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared M. G. B. (int Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: 1979; 1995; both in Houston Texas
1979 - Winters Hospital of Texas, 1995 Planned Parenthood
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: YES - but I remember having reservations about the procedure, and when I revealed my reluctance, I was encouraged to go through with that procedure (1995)
- 3) Were you adequately informed of the consequences of abortion? NO - I remember being told on both occasions that the negative health of a woman that chose abortion is better than that of a woman that chooses life
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? NO; NO
- 5) Did anyone pressure you into having an abortion? If so, who? YES; my parents, the child's father
- 6) How has your abortion affected you? Depression, continuous remorse, sadness, regret.
- 7) How has your abortion affected others in your life? My mother & brothers have since changed their minds that abortion is not an immoral act that should be criminalized.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Not to have one. That carrying a child to term, regardless of what others tell you, is by far the healthiest, most positively enhancing experience one can enjoy in life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? That a human embryo is a person that should be protected by the constitution. That at one time blacks, Jews, and Indians were not considered "persons" under the law - and that the judiciary reinterpreted the meaning of what a "person" is.

"I have read the above and foregoing statement and the same is true and correct."

BEFORE ME, the undersigned authority, on this day personally appeared Karen D. Burdeshaw (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: June 1973 / December 1985 Atlanta, Georgia
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? absolutely not - the only counseling I received was pertaining to birth control.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

- 5) How has your abortion affected you? I have an incompetent cervix because of my multiple abortions. Therefore every pregnancy I have is considered high-risk and I have to undergo a risky surgery (cerclage) to maintain the pregnancy. The emotional scars led me down a path of darkness into drinking and drug use trying to escape the pain of shame, guilt, wondering what and sorrow. I found healing through God's word at a post-abortion Bible study and now have the privilege of leading this class and watching God restore life.
- 6) How has your abortion affected others in your life? The pain and consequences of abortion comes out into all those who are in our life: my parents, my husband, my 3 living children, my sisters, my grandmother are all affected in some way.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? In an abortion there are 2 deaths: the mother and the child. She may think an abortion is a quick fix to a temporary problem but it will only compound problems in her life. Every child is a gift from God even if it means blessing someone else through adoption. Sacrifice 9 months and the life of your child. You'll be glad you did.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? of your life to save it and the life of your child. You'll be glad you did.

For many years, I believed the lie that I had aborted a bit of tissue and not my child. When God revealed the truth to me, I humbled myself and sought repentance. The truth was later revealed to our nation through ultrasound and techniques such as mine. I pray our nation will be humbled and try to right their wrong. I have read the above and foregoing statement and the same is true and correct.

5) Only in coming to accept Jesus as my savior have I been able to face these facts and begin to heal.

8) I would also challenge the courts to consider how legalized abortion, which has been promoted as a "freedom" for women has really served to imprison us in walls of fear, silence, guilt and shame.

BEFORE ME, the undersigned authority, on this day personally appeared D. S. Bl (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Spring of 1977 Greeley, CO
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? She knew abortion would end my pregnancy. I do not recall being informed of any details nor consequences
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes, who? Not really pressure. The father of the baby encouraged me to have the abortion and he paid for it.
- 5) How has your abortion affected you? It has caused me immense pain, guilt, shame and self loathing. Those emotions I tried to deny and hide for 24 years. I turned to drugs and alcohol (heavily) for relief. I became even more promiscuous and depressed. I married the father of my baby out of guilt not love - that marriage ended after 4 years. I understand now why I excused the truth there was a life growing inside me. For a lie it's a blob of tissue. This wife is extremely painful during the abortion when the abortion assistant said "It is a boy". I am still grieving the death of my baby boy.
- 6) How has your abortion affected others in your life? I know it hurt the babies to them. I have yet to tell my parents and siblings. My husband of 11 years has been very supportive and loving - a man sent by God. We are praying about when and how to tell our son (David) and gr (Mrs).
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not an easy way out of your unplanned or unwanted pregnancy. I would tell her what is written above and how my decision to abort my baby has haunted me for 24 years. I would encourage her to choose life for her baby and possibly suggest adoption - not ending her baby's life.
- 8) Based on your own experiences, what would you tell a court that believes abortion should be legal? I would tell them the devastating effects my abortion had on me. I would encourage them to talk to many women as possible who are pro-life. All these women have aborted babies know that it is wrong - that it goes against a mother's instinct to have her own baby. It is so against a woman's sense of right that the vast majority of women remain silent - it is so hard, if not impossible for many women to talk about. It clearly takes the life of the baby and traumatizes the women. It is a practice that should not be legal.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: Summer of 1977 / Fairmont Clinic, DALLAS, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? No, I was not. I was told it was a mass of tissue and that it was a quick and easy procedure, and there would probably not be any ramifications or side effects.
- 4) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? No If so, who? _____
- 6) How has your abortion affected you? I struggled for 13 years of mental hospitals, psychiatric therapy, counseling. My abortion was one of the things I did that caused me so much guilt and condemnation. I hated myself and could not forgive myself for what I did. There will be a scar in my soul for the rest of my life. I don't think I will ever forget it. And I will always wonder what and who that little baby would have become. I will have to live with these thoughts the rest of my life. The only peace I have about this is that I have become a Christian since and God has forgiven me and has healed me, but the scar will always be there.
- 7) How has your abortion affected others in your life? It hurt my mom and a few people that knew I did it. Abortion affects and hurts everyone.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? NO! Please don't do it! It is murder! It will affect you the rest of your life. You will regret it later. What about the innocent child inside? Why make it pay with its life, a consequence that you brought on yourself!
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that one day they will have an answer for what they are doing. I would tell them it is murder. I would tell them most of the women getting an abortion don't really understand what they are doing.

BEFORE ME, the undersigned authority, on this day personally appeared Amy Burns (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: August of 1991 in Wichita, KS
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I know about abortion but did not know how I would be affected.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? NO If so, who? _____
- 5) How has your abortion affected you? I became very sick and had a high fever for several days. Had to be on medication for infection. I became very depressed for two - three weeks. I still think about it a lot and wonder what sex the baby was and what it would have looked like. I had my tubes tied shortly after the abortion as a means of birth control. I was 21 years old I married at the time. I have since remarried and early in our marriage we would have liked to have had a baby but could not afford the reversal surgery.
- 6) How has your abortion affected others in your life? My husband has never had a child of his own. My 2 boys born in my first marriage before the abortion will never know the happiness of seeing their dad have a child along with dealing with the fact that their mother had an abortion.
- 7) Based on your own experience, what would you tell a woman considering an abortion? Please don't do it. Place your baby up for adoption and give it a chance to live. You can't even begin to imagine the wonderful plans God has for your child.
- 8) Based on your own experience, what would you tell a woman that believes abortion should be legal? I believe that any woman in an unplanned pregnancy is not in the right frame of mind to make such a major decision. Medical doctors give their best summary of facts or as patients a written order not to make any major decisions for a certain amount of time. This is because of their temporary judgment. This is the same situation a woman finds herself in when deciding whether to abort or not. Her best judgment is impaired due to her emotional state of mind. - 1) Tell approximately when and where your abortion occurred: April 1995 Takamatsu Japan
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does?
NO via media, American television & articles it sounded like it wasn't so long dead.

- 4) Did anyone pressure you into having an abortion? NO If so, who? _____

5) How has your abortion affected you? It took me weeks to forgive myself I was devastated, disoriented & depressed exhibiting self destructive behaviors such as drinking (partying) & promiscuity. It pretty much ruined my life.

6) How has your abortion affected others in your life? It caused me to be very suspicious & lacking in trust toward others esp. men. Caused a great deal of making a commitment to get married.

7) Based on your own experience, what would you tell a woman considering an abortion?
DONT DO IT, IT'S NOT AN ANSWER IT WILL ONLY MAKE THINGS WORSE!

8) Based on your own experience, what would you tell a court that believes abortion should be legal? I believe it provides an opportunity for a woman to merely discard her true inner longings to be a mother & the inner need and desire to nurture a child of her own... having the option to do so also makes a woman less concerned about the responsibility that comes w/ her body/actions & sexual relationships. In my experience a lack of concern for herself in relation to these areas results in unexplainable as physical & relational damage to other women's lives. I was 15 when I became pregnant. I knew very little about God. I knew abortion was murder. I just knew it, in my heart, I was forced into an abortion. I was 16 wks. They never tell you the truth about any of it. I got home and within ~~two~~ two days I was hemorrhaging. Did not know why. So I had to go through the whole procedure again. What happen was the so called doctor did not get everything the first time. If my man would have not been there to care for me (which she was the one that made me have it) I would have died. I am 39 now and am a Evangelist Minister. God has blessed me with seven beautiful children.

who, being by me duly sworn, upon oath, stated the following facts:

- "I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:
- 1) Tell when and where your abortion occurred: (4 abortions) 1974, 1978, 1981, 1985 - PLANNED PARENTHOOD
 - 2) Were you adequately informed of the nature of abortion, what it is, what it does? NO If not, explain: I don't even recall detailed information of the consequences of abortion. That the fetus is a human being in very early stages of pregnancy. That the doctor cannot see what he is doing."
 - 3) Were you adequately informed of the consequences of abortion? NO I just recall it was very mechanical and unknown. I was put in a room to watch a video w/ 6 other girls. who can watch a video in a time of dispute.
 - 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
 - 5) Did anyone pressure you into having an abortion? YES If so, who? My mother, mother, friend.
 - 6) How has your abortion affected you? Finally I am married to my 2nd husband. A man who brought together my soul. We lived also 2nd time again when we met and married. I believe due to my abortion. It is the only reason that I was in the hospital having a total hysterectomy.
 - 7) How has your abortion affected others in your life? I'm not sure of others. I don't get bothered by the long quest of trying to find a man. I know for sure. My husband is my husband. My dad and grandparents for not having a grandchild.
 - 8) Based on your own experiences, what would you tell a woman considering an abortion? Listen to her inner self. Deep inside when I was pregnant I did want to have my baby. I would tell her not to overcome fear of the unknown and replace her fear with faith. Get support. Get to know God.
 - 9) Based on your own experience, what would you tell a court that believes abortion should be legal? I would ask why? What do they gain from legalizing abortion? MONEY?? I would urge them to watch a video of a fetus experiencing abortion. And then ask them to imagine that was their daughter or son or grandchild they just "eliminated" And it was their daughter or son or grandchild.

"I have read the above and foregoing statement and the same is true and correct."

Testimony of Dr. K. C.

Abortion

Working on Operation Outcry I had to read many affidavits. This exercise truly rocked my world. As often happens, your personal experiences shape your vision of what the world is like. I thought that the majority of women who experience abortion had an experience similar to mine. That is not the case. I am in the minority, my testimony is quite different but nonetheless could be helpful to someone. As someone told me, it is all worth it if your story reaches and helps just one other person. That is my prayer and my motivation, to help just one other.

I am going to go a little further back than most would, to the time that I was not yet sexually active. My mom was one of the only angels I have ever met on earth. You couldn't find a kinder or softer person. I don't think she had an enemy. My parents had divorced when I was nine and it was just the two of us. Not being much of a disciplinarian momma relied on what friendship she could build with me to try and influence me. She was pretty open with me about most things and I knew the extent of her loyalty and devotion to me so I went to her easily when I was in trouble. However, I am pretty rebellious by nature and my years as a teenager brought that out in full force.

Sometime around the age of 14-15 my mother really stepped up our conversations about boys, dating and sex. I was hanging out with kids that were in college, young men that I met in a "youth group" and she was obviously concerned. But when it came right down to it, when I really put the question to her she admitted, "If I had slept with your father before I had married him I probably would not have married him. I can't in good conscious tell you not to sleep with someone before you are married." What I didn't hear about was the extent of sexual abuse she had suffered in her marriage and how Satan was able to steal every last ounce of faith she had ever had and replace it with fear. What I did hear was that I would be a fool not to test drive what I might someday buy. In my young mind I didn't understand the difference between "loving" someone and a loving relationship that two people share.

Needless to say it was not long before I was involved in a sexual relationship that was extremely destructive. It didn't take long for the impossible to happen. I was 16. I was at a camp for gymnast early that summer when I was several weeks late and getting really scared. I continued on, working out seven hours a day or more, it was really tough on me physically. When I returned home I began cramping something horrid but no period. I told my mom of my fears, she did her best to comfort me and sought out a friend of hers in Austin who found a good physician. Momma made an appointment all the time assuring me that it was probably nothing.

We went to Austin and the doctor examined me, confirming that I was indeed pregnant. He explained that I was close to the end of the first trimester and that he would not perform an abortion after I had passed that first trimester. He briefly outlined the other options I had and then we talked about abortion. He told me what the baby had developed at that time, how painful that the procedure would be, what complications could arise during the procedure and explained that there was the possibility that I would never have children as a result. The thing that I remember most was when he pulled my chair so that I was knee to knee, eye to eye with him and said "This will be the hardest thing you ever do, the pain will be almost unbearable and you absolutely can't move a muscle. You can't even flinch. If you move even a tiny bit I will have to stop and we will have you taken to the hospital and sedated so that I can finish without putting you in any further danger. You will have to endure this pain for 20-40 minutes can you be that tough?" I was scared to death but I said that I thought I could. He told us to go home and think about it

000212

for a week or so and come back in for another check-up, he was suspicious that my body was trying to miscarry the baby because of the trauma I had inflicted on the baby during the gymnastics camp and wanted to see what would happen.

During that week my mom and I talked about it some but mostly kept busy so that we wouldn't think too much about it. She asked several times if I was sure I wanted to go through with it. We both knew we were going to have this child's blood on our hands but neither of us saw a better option and in a town that small there wasn't much help to be had and certainly no one you could turn to. Everyone is so intertwined; the damage it could cause would be massive.

We returned to the doctor and he examined me again, had blood work done and determined that my body could endure the procedure. He explained what would happen, detail by detail, and what would be required of me afterward. We set a date and went home to make our plans for that week. The day before the abortion was to happen we went back to Austin and checked into our home away from home for the week. That afternoon I received a shot; something the doctor said was necessary because of my blood type. The next morning, after fasting for 12 hours, I went back into the doctor's office. They did something that would dilate me and then we waited a bit. Then he came in and gave me a plastic thing to bite down on, my mother took one hand and a sweet elderly nurse took the other and he began. He was right; I will never forget that pain. Or that sound. Thankfully, he kept everything out of sight and was very stern about the fact that I was not to see anything. I was tough. I didn't so much as flinch though both the nurse and my mother had pretty sore hands. Things went well and the doctor was able to complete the procedure within 25-30 minutes. I was then told just to rest there for a while; they wanted to observe me for at least an hour or so. The nurse stayed and chatted with my mom, she was pretty upset. I was just tired and sore. When they released us we went back to the hotel and I slept, for a long time. When I woke up my "stepfather" and my mother's friend had arrived. She had brought me this cute little stuffed animal. My "stepfather" was pretty cool, I had caused my mom a great deal of strain and he didn't like that. We ate dinner, I don't think I have ever eaten that much. It was the only time I have ever seen my mother anything close to drunk. Afterward, I endured more than six hours of interrogation and that was it, it was over, or so I thought.

I had approximately five follow-up visits with my doctor, everything healed just as it should have and I was eventually deemed healthy. Unfortunately, I did not fair as well mentally. For more than a year I heard babies crying when there wasn't one around for miles. I would go frantically searching but would find nothing. The nightmare was always the same and it was terrible. A man couldn't come within 20 feet of me without making me completely insane. My poor mom was just getting worry upon worry heaped on her. Eventually all these things wore off and I regained my foot hold in reality.

For a while things really seemed to be looking up for all of us, my father and I were able to mend a badly wounded relationship that had its roots in my childhood, which took off and bloomed beautifully. I even eventually went to live with him and his family. It was pretty tough to stay in that small town and face the horrors of my past on such a regular basis. As hard as that was on my mom and I it had to be a relief to her that I had some discipline in my life, my father was all about discipline. He could also provide the help that I needed academically. Her career

was growing beautifully after many, many hard years finishing her education and getting established in the school district.

The problem is that once you experience that kind of personal destruction if you aren't ever told that you have other options even after that point at which you have royally blown it you don't have much left to care about. I quickly came to that place where I didn't care. The best I could hope for were brief moments in which I could create an illusion of love and appreciation that I so much wanted. The rest of the time I sought the thrills that filled the void and often the alcohol that could numb it. This lifestyle became more and more dominant for me and continued through college until the time that I met my husband. At that point in time God was finally able to break through and reach me in a way he never had. Learning about what a wife was and how to be a Godly one was the turning point of my life.

God had His loving hand on me the entire time, I came through those scary years and a tragic experience with no real physical damage that in and of it's self is a miracle! I have a wonderful husband and a strong marriage, which is often difficult for abortion victims. The only real tragedy lies in the decisions that I made. I made the wrong decisions from the very beginning and I can't unmake them. I can't take back those parts of myself I so carelessly gave away and desperately miss. I can't restore to my husband who deserves every bit of what I had to give the day I was born what he has been cheated. I will forever have the blood of an innocent life on my hands because I didn't seek out all my options in the beginning. I made the easy choices at the time, but those easy choices quickly turned into the hardest choices of my life.

BEFORE ME, the undersigned authority, on this day personally appeared Therese Carpenter (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell when and where your abortion occurred: An abortion clinic in Providence in July of 1983
- 2) How has your abortion affected you? It has been 17 years and it still is, it always took so many tears to write down my baby's name, memorialize it. I am psychologically damaged. There will always be a void in my heart.
- 3) How has your abortion affected others in your life? It put a major strain on my marriage for the longest time, it disgusted my husband and blamed himself. My children have seen me cry and they don't have this habit.
- 4) Were you adequately informed of the consequences of abortion? no, all I was told was that it would be over quick and never had to think about it again.
- 5) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: no, not at all. It was like a possibly dead, you say, have blood work, kill your baby, get birth control and forget your way it was said and I remember they said nothing.
- 6) Based on your own experiences, what would you tell a woman thinking of having an abortion? I would tell her that if she does it, a little part of her will die too along with her baby. It may take some time but she will I guess then look for the rest of her life.
- 7) Based on your own experience, what would you tell a court that believes abortion should be legal? Having abortion be legal is allowing innocent babies to die and have to suffer from PR by the rest of their lives. You never truly fully recover, you are psychologically damaged for the rest of your life, there should be a law to protect you from yourself.
- 8) Did anyone pressure you into having an abortion? If so, what? yes, at the time my husband wanted the abortion because he didn't want his partner to die because they would be disappointed.
- 9) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? To this day I don't know of any link between the two and as I have never had breast cancer.

I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true: I had an abortion Feb. 1991 I was 26 years old I was told that my baby was just tissue. Since that day I have never been the same. I feel a big empty space I cannot fill. I mourn for my baby every day. I cry when I see baby girls. I always wanted a baby girl, but have not had another since my abortion. I do have a son who I love so much. I feel I was given one baby girl and I killed her. When I see on the news how parents kill their children I say I could never do that. But then the reminder of my abortion comes back to me and I start to cry again. It's been hard for anyone to get close to me. If I had it to do over again I would of kept my baby girl. I have been yearn for a baby girl since. Through prayer and God's forgiveness I can smile again. But the memory of my baby is always there to remind me of what I did.

The State of West Virginia

BEFORE ME, the undersigned authority, on this day personally appeared Jamie Renee Carter (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred. November 1989 at "Women's Health Center" West Virginia, Charleston
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? NO, Not completely, I was told there would be no consequences "I was pretty foolish; But wonder how it affected my mind was the most painful. For the child died that day, but he had in my mind did not.
- 3) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? yes If so, who? At the time I was spiritually lost, I felt I had no other choice - I was unmarried and my boyfriend abused me - I truly felt the pressure from the enemy himself, Satan. I listened to him and sacrificed my own child for the sake of fear.
- 5) How has your abortion affected you? The shame of this sin, lets edit it, what it is, number of my own child has had a lifelong effect. At first, anger that soon turned to rage overtook my life. I came against everyone, the secrets and hiding of it all lasted for years, when I'm in the presence of babies or small children, I began to feel uncomfortable. It's the ones that know I felt was looking over I was around them. Now that I'm saved (and in the ministry), I speak boldly to defend the unborn soul. I speak that this is truly human sacrifice and not to do it, healing for those who have and paying for all of us to hang it.
- 6) How has your abortion affected others in your life? It has broke my parents hearts, and both of my sister's when our dear family member - grandchild, niece or nephew is spoken of (and in front of) would be still mourn. My husband, (with the baby's name) assists me with my pain.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? That the immediate "fix" to be prepared to suffer. That the decision is final that it affects her family - you're taking down their grandchild, a niece, a nephew, a future brother or sister of your future children. Be strong! You can do this! God has chosen you - You'll help you!
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? That it being legal was all of our faults, we all were lazy and didn't fight the good fight. But now we can change our and our love for full mistakes. When a woman is in pain, pregnancy she's hard to fund and despise. We have to overturn this system in the US. This is not a game, it's real. That our land is polluted with the blood of the innocent. Case Books - This is a belowcast.

- 5) Did anyone pressure you into having an abortion? yes If so, who? Roger W. Stewart, the father of the baby and so-called friends who said they were older and wiser and knew what was best for me.
- 6) How has your abortion affected you? It totally changed the course of my life. I went from being a happy individual in nursing school to become a nurse to a person who felt extreme depression seeking self-destructive habits who wished she would have died along with my baby on that day in April. I was no longer worthy of life.
- 7) How has your abortion affected others in your life? the quality of relationships with family and friends was greatly reduced due to the extreme depression and self-destructive habits it had.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Abortion is not an option unless the pregnancy would kill her! Carry the baby full term and place the child for adoption if she does not feel ready to be a mother. The child has a right to life.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? Abortion is one of the worst decisions the court system has ever allowed. They have no idea of the mental and emotional trauma a woman carries for her life after an abortion.

My commission expires Oct. 4, 2003

6. How has your abortion affected you? I believe this unresolved, unforgiven, unspoken act directly affected our marriage which ended in divorce. Due to guilt and shame, I did not talk about it for 7 years. Some 10 years later, God used it to bring me to the end of myself when I admitted my responsibility and sin and received Christ's forgiveness and subsequent healing.

7. How has your abortion affected others in your life? I believe it was a barrier to intimacy - emotionally, physically and spiritually - with my second, and current husband for many years. I was an over-protective mother to our daughter and co-dependent with her to some degree. I now work at a Pregnancy Care Center and share my experience openly with others.

8. Based on your experiences, what would you tell a woman considering an abortion? Abortion seems like a quick and easy solution at the time due to our fears, but in the end, it turns on you, as you come to the realization that you gave permission for another to take your own flesh and blood. You are then left with the fact that your child is dead, your heart is broken, and you are living a life of denial and dysfunction. I would take her to a Pregnancy Care Center where she could talk things through, get all the correct information, feel loved and cared about. I'd tell her this crisis can be turned into God's opportunity to grow and find strength she never knew. Because of going the hard way, she will meet other crisis decisions with faith and courage. Most of all, she will know the JOY of giving LIFE to her child without any regrets.

9. Based on your experience, what would you tell a court that believes abortion should be legal? My abortion was illegal, so I knew it was wrong. How can something legally wrong for so many years, suddenly become legally right? Deep inside the consciousness of a woman, she knows what she did...she allowed her baby to be killed...and she knows what she deserves. My motive was selfishness...I wanted to please my husband and not lose him. Strangely (but not really), is the fact that most women still hide their abortions. And I know why. Because deep in their hearts they know it is still wrong...and terribly unnatural for a mother. They know, or will come to know, a baby's heart beats at 18-21 days...that brain waves can be measured at 6 weeks, and at 11 weeks all the baby's organs are complete and functioning. But most of all they know what would have been had they not permitted the abortion. And they always wonder...what would he/she have looked like?...what would they have become?...and most importantly, what

would our relationship have been like? And that is what will haunt them to their dying day. Though they suppress and deny it, it is there. So how does this help women I ask you?

BEFORE ME, the undersigned authority, on this day personally appeared ALICIA CEBALLOS (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: APPROX 1985, 1987, 1988 in CHICAGO, IL
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I RECALL BEING INFORMED OF THE RISKS DURING ABORTION, BUT NOT THE EMOTIONAL, SPIRITUAL AND OTHER PHYSICAL CONSEQUENCES AFTER THE ABORTION.
- 3) Were you informed of any link between abortion and breast cancer? NO. Have you had breast cancer? NO
- 4) Did anyone pressure you into having an abortion? YES. If so, who? MY BOYFRIEND AND I ALSO DIDN'T WANT TO FAIL MY DAD, I DIDN'T WANT TO BE ATTACHED TO THE BOYFRIEND AND I WAS AFRAID.
- 5) How has your abortion affected you? IT MADE ME SUICIDAL, IT GREATLY AFFECTED ME EMOTIONALLY AND SPIRITUALLY IN 1990. I FELT THAT I WASN'T WORTHY TO STEP INTO A CHURCH OR BE IN THE PRESENCE OF GOD IN ANY WAY, WHEN I STARTED TO THINK OF MARRIAGE AND A FAMILY IN MY LIFE, MY HEART WAS NOT AT PEACE, I FELT GUILTY AND DIRTY, I NEEDED HELP AND FORGIVENESS, UNLESS YOU CAN RECEIVE COUNSELING AND HEALING, YOU CAN'T KEEP ANY RELATIONSHIPS WITH MEN VERY LONG, DUE TO THE GUILT.
- 6) How has your abortion affected others in your life? I WAS UNABLE TO BE CLOSE TO OTHERS AND BE HONEST ABOUT MY PAST BECAUSE I WAS AFRAID OF HOW OTHERS WOULD JUDGE ME. IT DELAYED ME AND MY HUSBAND FROM GETTING CLOSER.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I WOULD URGE HER TO TALK OTHERS ABOUT IT, SEEK COUNSELING FROM PREGNANCY CARE CENTERS BEFORE MAKING A DECISION, I WOULD ASK HER TO RESEARCH THE CONSEQUENCES AFTER ABORTION BY SPEAKING TO THOSE WHO HAVE BEEN THERE.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I BELIEVE THAT WE ARE VIOLATING THE RIGHTS OF AN UNBORN BABY. 30 YEARS AGO, WE DIDN'T HAVE THE TECHNOLOGY THAT WE HAVE AVAILABLE TODAY AND WE CAN CLEARLY SEE THAT IT IS A TINY HUMAN BODY IN THE WOMB OF A PREGNANT WOMAN. A PICTURE IS WORTH MORE THAN WORDS CAN SAY.

In Sept, 1974, I decided to get an abortion for an unplanned pregnancy. I was 18 yrs old, + engaged to be married. My fiance + I did not wish to have children for several years, + a friend of mine told us that we should get an abortion. She had one + said it was "easy" + no one knows + then I could go on like nothing happened. The clinic was in the city of Chicago - I don't know the name of it. We went on a Saturday + I think we paid \$200.00 cash. No one gave me "informed consent". I did sign a paper though, but had no instructions or counseling except the nurse told me "I should take birth control". I told her I was on the pill + got pregnant anyway. That's the only counsel I got from them. I was brought into a room to change into my gown + I saw quite a few very young girls in there - (maybe 13). I was horrified. I was brought into a very small room, like an exam room + they placed me on the table with my legs in stirrups. No one explained to me the procedure or told me what ain'd have! No pain medicine or anything was given to relax me. It felt like my insides were being wrenched out + it was a horrible feeling!! The abortionist never even introduced himself to me, so I don't know his name.

30 years ago this year a law was passed that has divided a nation and caused the death of 39 million people. This law has made it legal to murder the innocent. This law has denied rights to 39 million people who cannot speak for themselves. This law is called legalized abortion. I am responsible for the life of one of those 39 million babies. On March 4, 1974, I chose the easy way out and aborted my child, who would now be 28 years old. I have suffered many consequences for that decision. Here is my story.....

I was the youngest child of a farmer and a musician. My father was a very determined man and during the Great Depression managed to work his way through college where he and my mother met. Because he got his degree against all odds, he always valued education and raised his children to make it the number one priority. My parents were Christians—and we attended church very regularly—a unique church at that—a Methodist and Baptist combined. It was a little rock church in the country surrounded by wheat fields—an idyllic setting for one to grow up. However, our church did not teach us how to have a victorious Christian life in the spirit so when I was 10 years old and walked down the aisle at church to confess Jesus as my Savior, my life really didn't change at all. Growing up as a teenager in the late 60's and early 70's, my friends and I got a dose of the Jesus movement when a Lay Witness Mission came to town. We got excited about the Lord but that faded away after a few months due to the same reason as before—no teaching of the Word and the power that God gives us to fight the flesh.

When I went to college at age 18, I found myself totally rebelling. I had been morally good in high school, but now 200 miles away from my parents, I smoked, drank, and constantly partied. It is a wonder I didn't flunk out. I lived for the weekend when I

could get drunk. Alcohol soon became a crutch. Drinking was my ticket to doing things I couldn't face to do when I was sober—mainly having sex. I was very against premarital sex so when I spent the night with a guy, I could just give the excuse I was drunk and didn't know what I was doing. In the Spring of my junior year in college at age 20, I found out I was pregnant. I was horrified! I only lacked one year of college and could not let this inconvenience get in the way of an education and making a success of my life. The father of the baby offered to marry me, but we both knew we didn't love each other and the marriage would not last. Besides, education was my first priority! I am ashamed to say that I did not agonize over this decision and made it quickly-- not ever really considering having the baby. I chose the easy way out. My college roommate took me to San Antonio, a long way off from my college town, and I "took care" of my problem. Ironically, my roommate was pregnant at the time and did not know it, and chose to marry the man and have the baby. Now every time I look at her son, I know I could have a son or daughter about a month older.

The abortion was a horrible, very traumatic experience. When I arrived, there were many women lined up in the cold, dreary waiting room. They were of all ages, young teenagers to women in their 30's and 40's. They gave me a pregnancy test and determined I was 10 weeks pregnant. The cut off was 12 weeks and there was a question as to if they would even consider doing it. However, they did because I am sure they wanted their money. I will never forget the impersonal masked doctor invading my body and the vacuum sound as my child was suctioned from me. My choice—and what a devastating choice it was. That night in the motel room I was severely depressed and also severely in pain.

I finished my last year of college and the father of the baby and I actually began seriously dating. I fell in love with him. That made the experience only harder to take, especially when we decided to go our separate ways. I graduated from college and began my teaching degree. I held my breath that none of my students would find out what I had done. My parents, who have now both died, never knew of this experience that I had. I was so ashamed of what I had done but I tried to put it in the back of my mind, instead of dealing with it like I should have. When I was 23, I had a dynamic, life changing experience with God, and I put him as the Lord in my life. I felt God had forgiven me for my abortion; however, I feel I did not forgive myself. Soon after that, I went to another teaching job in another town and the father of the baby lived only 18 miles away. I had not seen him in four years. One night, going to a football game in the town where he lived, I stopped by to see him. I had only been a Christian a year and in that year I had not even kissed a guy and had stayed away from alcohol. This night I drank but somehow God managed to watch over me. This former boyfriend and father of my child wanted to sleep with me. However, I resisted and did not. This decision proved to be one of the wisest of my life. Years later I found out that he had become a homosexual after he left college and had died of AIDS. If I had given in to the flesh, I might not be here today.

I then met my husband. He was totally against abortion but was very understanding and forgiving of my mistake. We embarked on our journey together. We had a difficult marriage as I never felt I was good enough to be loved, and it was hard to show intimacy. We were both curious as to why I felt that way. Studies show that this is a prime side effect of sexual abuse while growing up; however, I had not experience that. Now , after studying the after effects of abortion, I realize that my lack of intimacy was a

result of my abortion. Studies show that many post-abortion women develop a greater difficulty forming lasting bonds with a male partner. This may be due to abortion related reactions such as lowered self-esteem, greater distrust of males, sexual dysfunction, substance abuse, increased levels of depression, anxiety, and volatile anger. I was always very angry towards my husband and years of berating him and verbally abusing him caused him to withdraw. I believe this had a profound effect on his becoming an alcoholic. We even separated for awhile and I filed for divorce.

My marriage produced two daughters—they were smart, beautiful, talented, and I considered myself very blessed but not very deserving. Sometimes I had trouble showing them much love or tender feelings; I was more interested in them achieving. Clinical experience has demonstrated that PAS (Post-Abortion Syndrome) has three categories, one of the being constriction—which is avoidance behavior—an attempt to avoid negative feelings or people, places or things which aggravate the negative feelings associated with the trauma of an abortion. One of these symptoms is the avoidance of children and a restricted range of loving or tender feelings. This may be due to the fact that the mother does not think she deserves children after she has already killed one so she withdraws emotionally from them. I believe I had this disorder and I was not the loving mother I should have been. I loved my children but there was always a wall there I just couldn't understand. Because of the feelings that my abortion has evoked in not forgiving myself, I have had feelings of lowered self esteem and self worth. One of the end results has been making my job my god. I wanted to achieve to get the praise from men because I felt so lousy inside. Many times I would overextend myself. This only added to the problem.

Abortion causes many psychological effects in women. A five year retrospective study in two Canadian provinces found significant greater use of medical and psychiatric services among aborted women. Since many post-aborted women use repression as a coping mechanism, there may be a long period of denial before a woman seeks psychiatric care. These repressed feelings may cause psychosomatic illnesses and behavioral problems in other areas of her life. As a result, some counselors report that unacknowledged Post-Abortion Distress is the causative factor in many of their female patients, even though their patients have come to them seeking therapy for seemingly unrelated problems. I believe denial is the major after effect problem with women who abort. I was in denial for over 25 years. I used to be pro-choice because I could not bring myself to agree with the pro-life people who said abortion was murder. I could not face the fact that I had murdered my own child so the easiest thing to do was to deny it and forget about it—not deal with it—which causes many more problems in the long run. The fear, anxiety, pain, and guilt associated with the abortion procedure are mixed into this perception of grotesque and violent death, the abortion experience. We cannot begin to know the extent of the physical or psychological problems of women who have gone through abortion because they are so unwilling to admit their mistakes due to avoidance behavior. Countless of times when I went to the doctor I would lie about how many pregnancies I had had. I always said two—when in reality there were three. The shame was so great I could not even admit it to the medical authorities.

It has been reported in studies that women who abort are more likely to have the following problems: sexual dysfunction, suicidal ideation and suicide attempts, increased smoking with correspondent negative health effects, alcohol and drug abuse, eating

disorders, child neglect or abuse, divorce and chronic relationship problems, and repeat abortions. Women who have one abortion are at increased risk of having additional abortions in the future. And then there are the physical problems for women who abort including more gynecological problems and risks of cancer. Endocrinologist Joel Brind, in the February 2003 Discover magazine has made a claim that abortion increases a woman's chance of developing breast cancer by 30%. He believe this is a terrible truth that the medical establishment has tried to keep from the public.

Why is that? Why are these statistics kept a secret? Because abortion is a big money making machine. Considering the doctors, nurses, medical facilities who get paid, it has become one of the most common surgical procedures in the nation, so common that should the current rate continue, about 35 percent of all United States women will have an abortion in their lifetimes. Believe me, this is a big factor in why those fighting for pro- choice don't want to make abortion illegal.

All women who have had abortions and those who oppose abortion must ban together to change this law. Women are very powerful. Years ago, the Texas drinking laws were changed due to one woman's efforts after her daughter was killed by a drunk Driver--Mothers Against Drunk Drivers (MADD) was started and has now literally changed laws! We must pray, ban together, and vote! The Republicans now control the House, Senate, and White House. It is imperative that the President appoint pro-life Supreme Court judges so this law will be overturned in our lifetime. Presently, six judges favor abortion, one does not. (Facts taken from CBN Jan. telecast 2003) Two are now about to retire.

Hearts must change all over the country so this travesty of the killing of over one

million babies will not continue. Aborted babies are discriminated against. Our government has granted to one living human (the woman) the legal right to kill another (her developing baby) in order to solve her own personal social problem. Should this fatal discrimination against an entire class of living humans continue? A civilization will ultimately be judged by how it treats the smallest, the most dependent, the most innocent among its members. Did that nation cherish, protect, love and nourish them—or kill them?

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: 0/84 Santa Cruz, California
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? The only information I received was that this would terminate the pregnancy
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? Baby's father + others
I discussed pregnancy with abortion was the only "choice" offered to me.
- 5) How has your abortion affected you? I realized several years later what a huge mistake it was. At the time I was very sad, but had more to discuss it with, so I didn't face it at all. I remained very disconnected ~~was~~ was the rest of my life. Once I took responsibility for killing my baby - and actually began to think of the pregnancy as a baby, I was able to move on. Now I have great compassion for women in an unwanted pregnancy, & want to be sure they have all the facts in order to have a true choice.
- 6) How has your abortion affected others in your life?
I don't think so.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? I would tell her factual information about her baby & its development. I would tell her she most likely will regret an abortion decision either right away or in the future. I would give her all of her options
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? I would tell them that regardless of what the law is - women do not receive full information in order to make a choice. I would tell them that the ~~choice~~ choice made in the waiting clinic is what the "choice" people are really after. I would tell them that statistics show & prove that abortion hurts women. I would tell them the choice ~~made~~ made should be not to become pregnant in the first place. I have read the above and foregoing statements and the same is true and correct.

- 1) Tell approximately when and where your abortion occurred: Vallejo California (Kaiser) (2) Planned Parenthood
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? not at all
- 3) gully moeding after abortion
- 4) Were you informed of any link between abortion and breast cancer? NO Have you had breast cancer? no
- 5) Did anyone pressure you into having an abortion? yes If so, who? Family - Parents Grandparents
- 6) How has your abortion affected you? TORMENT - I could not forgive the horrific consequences in my life, my heart, my emotions, and my child's life. I feel like I assisted in the murder of someone innocent and was never held responsible. I was treated as if this was a simple tooth extraction. As if I had no fear. No did my unborn child. The guilt and death of the loss I have experienced is unexpressable. I have reached some healing but the pain is totally unbearable. My daughter asks why don't I have any brothers or sisters and why?
- 7) How has your abortion affected others in your life? My daughter wants siblings and how can I tell her she is supposed to have 3? This is irreparable.
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Don't do it - maybe you can't see it, but imagine what will happen in an abortion. But you can't literally see your child from your death. You want to feel sorry for your child in the beginning this will be an emotional burden heavier.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? murder is illegal so why if a woman has the right to raise a child at 24 weeks gestation - why do we fight to save the baby's life and call it a child if at the same time we can determine baby in the womb of the same gestation? We are in a bind at the same time.

- 1) Tell when and where your abortion occurred: Planned Parenthood - El Paso TX (1985)
- 2) Were you adequately informed of the nature of abortion, what it is, what it does? If not, explain: No. Long term effects were not definitely addressed - nor the fact that it was more than the removal of tissue.
- 3) Were you adequately informed of the consequences of abortion? No. In formation received was more on procedure and the importance of ERCS.
- 4) Were you informed of any link between abortion and breast cancer? Have you had breast cancer? No; no
- 5) Did anyone pressure you into having an abortion? If so, who? No
- 6) How has your abortion affected you? Emotionally/psychologically it really affected my self-esteem, level of trust, relationship with spouse & friends of both, that later ended in divorce. Relationships w/ others especially males.
- 7) How has your abortion affected others in your life? Marriage ended in divorce, therefore spouse, daughters, and self are having to deal with emotional issues of the family by taking up ex-husband's burden of dealing with lots of deep-seated anger.
- 8) Based on your own experience, what would you tell a woman thinking of having an abortion? If she cannot support the child to give it up for adoption (What "tissue" is truly a baby from the moment of conception, @ the effects of abortion are emotional, physical, spiritual, @ affect on family every member, @ importance of counseling @ how this one decision will affect the importance of prayer, @ empathy. Based on your own experience, what would you tell a court that believes abortion should be legal?
- 9) Absolutely not. Young innocent girls/boys tend to base their decisions on what peers or their perceptions of others. They need good counseling and support services. This is because life on our planet is the effect of abortion at long term and those involved are known for a quick fix. Abortion is not the answer. I have read the above and foregoing statement and the same is true and correct. I would elaborate on the long term effects and the importance of counseling, prayer, and empathy. I would also state that the needs of the individual should be carefully considered.

Answers to questions for Women who have undergone abortion:

- 1) I had an abortion in March 1982, at a Planned Parenthood abortion clinic in Hollywood, California. First I want to clarify the situation I faced at that time. After selling everything we owned, at the age of 15 my mother took my twin sister and I from Bellevue, Nebraska to Hollywood to join the cult, Scientology. I was only able to escape its insidious grasp on my mind after marrying a man who is still to this day my husband and was involved in Scientology at that time. Being young as I was and never living outside the control of my mother or Scientology I felt I had no safe way out (especially being in Hollywood) without the help of my husband who was 6 years older than I and more experienced in the ways of the world. The 7 years of involvement in Scientology took a great toll on my emotional well being. Having been suicidal while involved and experiencing major depression and for most of the 7 years I was there, followed by post traumatic stress for many years later, I was an emotional wreck. Scientology also influenced me to seek an abortion because of the implications made by its teachings though it was never said outright. It teaches reincarnation, and the ultimate goal is to be released from all the encumbrances caused by the mind and body from past experiences in previous lives so that one no longer even needs to depend on or need a body any longer, in order to be truly spiritually free. This to me meant, "life is cheap this baby will just come back and get a new body, no big deal"? Oh, how ignorant and brainwashed I was. Even though I was married when I found out I was pregnant I was terrified. I felt I had nothing left in me to give out any longer after being used and abused by this cult that dares to call itself a Church. I felt I had been used up and completely drained and void of everything that once was ME. I felt I had no tolerance for pain no matter how slight whether physical or emotional. I in no way could I conceive myself being pregnant nor giving birth to a child. I knew in my heart I would most certainly have seriously abused it. My husband left the choice up to me whether to have an abortion.
- 2) When I came to the clinic I was seated with my husband to watch a video on abortion. I can't remember all the details but recall that it explained the procedure and potential complication. I don't recall any detailed info about the fact that this was a fetus or a baby. I am appalled that Planned Parenthood calls itself "pro-choice" because they gave me no other choice, like adoption nor support for that type of option. They aren't really Pro-Choice.
- 3) I was only informed of the physical complications. There was never any discussion about the inevitable emotional complications.
- 4) I don't believe there was any information at whether abortion contributes to increased risk of cancer. I have not had breast cancer. I did have leukemia in 1988. Was diagnosed Christmas of 88', and underwent 2 years of chemo-therapy and radiation. The doctor gave me a 15% chance for survival but in 2 weeks the leukemia was gone!!
- 5) No pressure was placed no me to have an abortion
- 6) Immediately after the abortion I felt a sense of relief. But because I have had a lifetime of "stuffing" my emotions I had no awareness of the serious trauma that

had just occurred. I had just committed murder. Even though my mind could not accept that my spirit and body knew exactly what had just happened, and they did every thing they could to get through me to see the truth. God places a conscience in each one of us whether we choose to submit to it or not. And I had chosen not to see the truth.

- 7) For one year following the abortion my menstrual cycles became unusually painful with expulsive contractions and extraordinarily heavy flow of blood. I usually had no pain and very light cycles. I also remember being very obsessed with making very realistic soft sculptured baby dolls. All the while struggling with depression and post-traumatic stress and trying to find out who I was. One night almost a year to the date of my abortion, I was lying in bed with very painful contractions and heavy flow of blood during my period. I suddenly thought, "This feels just like that abortion!" And in an instant the pain subsided and the bleeding stopped! My body was reliving that abortion every month for a year until I realized what was happening. But that was just the first step toward healing. I hadn't yet grieved the loss yet. That didn't come until 10 years later. While I was driving home from work one day and the thought of the abortion came to mind and I suddenly became so engulfed with grief and pain I couldn't stop crying. I convulsed in agony with full recognition of WHAT ABORTION REALLY IS!!! And that I had destroyed an innocent life, my own flesh and blood! I had a close friend who as a teen was sexually abused and forced by her mother to have several abortions, one on her kitchen table!! I called her and she prayed with me for a while to help calm me down. The next day I called the local Crisis Pregnancy Center that had Post-abortion Counseling, and sought help there. That is how abortion has affected my life, and I live everyday knowing a large part of my life has been ripped from me. To say that abortion is "A Constitutional RIGHT" is repulsive! It does NOTHING for a woman's health and well-being. It causes death and loss and great pain because ABORTION IS MURDER!
- 8) I would tell a woman seeking abortion to not even go near a Planned Parenthood Clinic. They DO NOT GIVE YOU A CHOICE!!! To seek help at a Crisis Pregnancy Center where they can truly give you a wide range of choices and options and support along every step of the way. You may not experience any affects from the abortion right away but the pain is still there whether you want to confront it or not and your day will come like mine did whether its here on earth or when you have taken your last breath and face your Heavenly Father to give an accounting of your life. **You will eventually one way or another face the truth about your abortion!**
- 9) I have pondered greatly over this question. I believe abortion should not be considered a RIGHT. It is what it is, murder. I believe abortion cannot be abolished unless it is fully recognized as murder on all levels of society and if CHOICE in the fullest extent of the word is established in medical clinics, and pregnancy and LIFE support is offered rather than bondage and death. Pregnant teens and women aren't given a choice when they enter a Planned Parenthood Clinic. Their only option is abortion! One does not have to look far to see what the original intention of Planned Parenthood was and still is, it has never been to empower women but to demean them, especially women of color. The original

intention was to legalize genocide, to eliminate blacks and other minorities from our culture! But now that our culture is brainwashed to think abortion is a Right of all women, it will never be outlawed. If the Black women of America knew the truth they would be outraged.

BEFORE ME, the undersigned authority, on this day personally appeared Lochanda M. Cady (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: August 17, 2002 - Knoxville, TN
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I was informed of physical risks and depression. There is much more to depression than that medication. You cry as if your mother just died, you want to go back or if you had a child you would not have inside you. It hurts in your soul, something unspeakable.
- 4) Were you informed of any link between abortion and breast cancer? Yes Have you had breast cancer? No
- 5) Did anyone pressure you into having an abortion? Yes If so, who? _____
- 6) How has your abortion affected you? Since I had originally planned to keep my daughter, I was used to talking to her everyday. I was so excited to have her, but a friend of mine told me I would be selfish to have her because I couldn't take care of her financially. It told me to remember the homeless and the kids of the world, and how my baby could end up being like one of them. I was in the middle of finishing my college career. He said that I would not be able to be a full time mother, get to school part time, and work to support the two of us. He also told me that it was better for me financially to pay for an abortion than to support her for the rest of my life. I call everyday. I still talk to her everyday. I miss her so much. I feel like my heart has been ripped out. I gave up my child because I was afraid.
- 7) How has your abortion affected others in your life? _____
- 8) Based on your own experiences, what would you tell a woman considering an abortion? Do not listen to what everyone else is saying. Be true to yourself. If you believe you can't support your child, you can do it! And when you finally see your child, you know you will finish school and obtain a career to support her. You can still get married, your life won't be over, it will be better.
- 9) Based on your own experience, what would you tell a court that believes abortion should be legal? There is no way to express the way I feel about the decision I made. But imagine it as a young woman killing her child to keep it from becoming a death row inmate. To receive a punishment to feed an army of 1,000,000 men & women & children. Dehumanization. I loved my child. This is truly;

BEFORE ME, the undersigned authority, on this day personally appeared Terrie Coleman (Print Name), who, being by me duly sworn, upon oath, stated the following facts:

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: October 1978; Fort Worth, TX at a Planned Parenthood Clinic
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? I WAS NOT. This baby was NEVER spoken of as a person of value - just a problem they would help me get rid of for a price. The emotional trauma which followed was never discussed about
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? Yes If so, who? The man by whom I was pregnant ~~pressured me to insist I have an abortion~~ ~~the son of a bitch~~
- 5) How has your abortion affected you? My abortion so traumatized me that it was 10 years before I could even talk about it. Now - 23 years later - I cannot even think about what an awful thing I did to my own baby without crying. I have been severely depressed at times. I often overcame with guilt and fear. It has always been a struggle for me to not think that God would "take" my other children as punishment for what I had done to that first baby.
- 6) How has your abortion affected others in your life? My daughter has probably suffered most out of my 4 children. I have been extremely overprotective of her for fear she would find herself in the same circumstances and ~~she~~ be pressured to choose abortion.
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Planned Parenthood does not tell you exactly what you are doing to an unborn baby. They will suggest to you the possible emotional scars this leaves. I can tell you from experience, this is not a painless way out of a "bad" situation.
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? Killing an innocent, unborn baby to hide the deeds of his/her parents should never be a choice, an option. To allow people to profit by the murder of innocent, unborn children for the sake of "convenience" is shameful and should be outlawed.

Subject: Abortion Affidavit

Dear Brethren,
 The affidavit I sent to you on February 24, 2001 had two errors. The first error was the year stated as the year of my abortion, when I recounted the events and time frame, I am now sure that it was done in 1971. My original document said 1989, and also, I am a notary and notarized my own statement in error. I am filing out the new affidavit that you have sent to me and correcting these two errors. My first affidavit was filed through the Thomas More Center. So sorry for the confusion, when I first joined the battle I guess I was just a little rattled. Please forgive me. A new affidavit is on its way.

"I am over the age of eighteen years, and I am of sound mind and competent to make this affidavit. I have personal knowledge of the facts stated in this affidavit, and I do solemnly swear, or affirm, that the following facts are true:

- 1) Tell approximately when and where your abortion occurred: December 1984 in Austin, TX
- 2) Were you adequately informed of the nature and consequences of abortion, what it is, what it does? Yes as far as the procedure goes - but absolutely NO as far as the psychological implications that have lasted 20 years
- 3) Were you informed of any link between abortion and breast cancer? No Have you had breast cancer? No
- 4) Did anyone pressure you into having an abortion? No If so, who? _____
- 5) How has your abortion affected you? It separated me even further from God. It also distanced me from my family because I was ashamed of what I did. When I met my husband - it took me a long time to gain a level of emotional intimacy with him (I am not helping in any way) I just think about myself without understanding why. It was not until a few years ago that God showed me to pursue a relationship w/ Christ and seek forgiveness for the murder of my child. It was not until I could feel it.
- 6) How has your abortion affected others in your life? What it does - MISERABLE - that the healing could begin. I am sure it has my spouse & my husband
- 7) Based on your own experiences, what would you tell a woman considering an abortion? Do Not Do It. For Any Reason. This Can Not Be Done From Any Situation
- 8) Based on your own experience, what would you tell a court that believes abortion should be legal? God Gives Life + God Takes Life Away. Who are we, as the creation, to try to do the job for Him. Do we tell Him, "You have made a mistake." "This child is not wanted or will be a drug baby or will be aborted." These are excuses for the convenience of abortion. All children are God's children. Even the ones we choose to kill.
